The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

JAMES R. LEAMING, M.D., Emeritus-Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Believue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M. D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M.D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M.D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M.D., Professor of Laryngology and Rhinology; Laryngologist and Otologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M.D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given. The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.

CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.

SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.

FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.

WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.

JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.

FRANCIS T. MILES, M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.

L. McLANE TIFFANY, M.D.,
Professor of Surgery.

J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.

I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.

R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.

JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.

HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.

JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.

I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.

FRANCIS T. MILES, M.D.,
Professor of Physiology.

L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.

J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.

R. DORSEY COALE, PH.D.,
Professor of Chemistry.

JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.

CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.

HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

Medico-Chirurgical College of Philadelphia.

JAS. E. GARRETSON, A.M., M.D., Professor of Oral and Clinical Surgery.

WM. H. PANCOAST, A.M., M.D., Professor of General, Descriptive, and Surgical Anatomy and Clinical Surgery.

GEO. E. STUBBS, A.M., M.D., Professor of Clinical Surgery.

WM. F. WAUGH, A.M., M.D., Professor of Principles and Practice of Medicine and of Clinical Medicine.

ABRAHAM S. GERHARD, A.M., M.D., Professor of Forensic and Clinical Medicine.

WM. S. STEWART, A.M., M.D., Professor of Obstetrics and Clinical Gynecology.

H. EARNEST GOODMAN, M.D., Professor of Principles and Practice of Surgery and Clinical Surgery.

P. D. KEYSER, A.M., M.D., Dean, Professor of Ophthalmology.

SAMUEL B. HOWELL, A.M., M.D., Professor of Chemistry.

JOHN V. SHOEMAKER, A.M., M.D., Professor of Materia Medica, Pharmacology, Therapeutics and Clinical Medicine.

E. E. MONTGOMERY, B.S., M.D., Professor of Gynecology.

JAS. M. ANDERS, Ph.D., M.D., Professor of Hygiene and Clinical Diseases of Children; Associate Professor of Physiology

JOHN V. SHOEMAKER, A.M., M.D., Clinical Professor Skin Diseases.

FRANK WOODBURY, A.M., M.D., Honorary Professor of Clinical Medicine.

WM. B. ATKINSON, A.M., M D. Honorary Professor of Sanitary Science and Paediatrics.

The Regular Session begins September 30th, 1889, and continues until the middle of April. It is preceded by a Preliminary Session of three weeks, and followed by a Spring Session lasting until the middle of June.

Seats are issued in the order of matriculation, and are forfeitable if fees are not paid before November 1st.

Preliminary examination or equivalent degree, and a three years' graded course obligatory. A fourth year voluntary.

Instruction is given by lectures, clinical teaching and practical demonstrations. In the subjects of Anatomy, Pharmacy, Chemistry, Histology and Pathology the usual methods of instruction are largely supplemented by laboratory work.

Examinations are held at the close of each Regular Session upon the studies of the term. Although the degree of Doctor of Medicine is conferred at the end of the third year, a fourth year is earnestly recommended, at the end of which the degree of Doctor of Medicine *cum laude* is given.

FEES.

Matriculation, $5: first and second years, each, $100; third year (no graduation fee), $100; fourth year, free to those who have attended three sessions in this school, to all others, $100.

Extra charges only for material used in the laboratories and dissecting-room.

For further information or announcement, address,

E. E. MONTGOMERY, M.D., Secretary,
Medico-Chirurgical College,
Cherry, below 18th Street, Philadelphia, Penna.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address

JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

Woman's Medical College

OF BALTIMORE.

S. E. Cor. Druid Hill Ave. and Hoffman St., Baltimore, Md.

THE EIGHTH ANNUAL SESSION WILL BEGIN ON WEDNESDAY, OCTOBER 2d, 1889.

For further information or catalogue, address
RANDOLPH WINSLOW, M.D., Acting Dean,
No. 1, Mount Royal Terrace, Baltimore, Md.

Medical Department, State University of Iowa,

at Iowa City, Iowa.

The next Session will begin on September 11, 1889, and continue until March 12, 1890. Attendance upon three courses of lectures, of six months each, is requisite to graduation. The facilities for dissection and clinical study are unsurpassed.

TERM EXPENSES—Lecture Ticket, $20.00; Demonstrator's Ticket, $10.00; Matriculation Ticket, $5.00 (paid but once); Hospital Ticket, $3.00; Examination Fee (for final examination) $25.00. No charge for dissecting material. For further information, address DR. A. C. PETERS, Ast. Sec'y, Iowa City, Iowa.

College of Physicians and Surgeons

of Baltimore, Md.

The Preliminary Course will begin September 15th, 1889. The Regular Session will open October 1st, 1889, and close about March 15th, 1890.

For catalogue containing full information, address
THOMAS OPIE, M. D., Dean,
N. W. Cor. Calvert and Saratoga Sts., Baltimore, Md.

DISEASES OF THE EYE.

Systematic and Practical Instruction at the Philadelphia Polyclinic, including daily use of the Ophthalmoscope and test lenses. Special course in Ophthalmology begins September 30th.

For particulars, address

EDWARD JACKSON, M. D.,
215 South Seventeenth St., Philadelphia.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden)."* A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card.

THE

College of Physicians and Surgeons

OF CHICAGO.

Regular Session opens Sept. 23, 1889.

GRADED COURSE OF INSTRUCTION.

Excellent Clinical Advantages.

The College Building (directly opposite Cook County Hospital) is one of the most complete and elaborate edifices devoted to medical teaching in this country.

FEES.—WINTER SESSION.—Matriculation (paid annually), $5.00. General Ticket, admitting to all the lectures, and including all practical work in the chemical and physiological laboratories, $60.00. For further information or announcements, address

FELLOWS'

HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

PHILADELPHIA.

The utility of artificial legs and arms with rubber feet and hands is evidenced by the operations of over nine thousand men, women, and children distributed throughout the entire civilized world. Strange as it may seem, this army mingles with the vast populace and their misfortunes are lost to sight. Men engaged in all manner of vocations, manual, arduous, menial, on the farm, at the forge, in the mines, at the desk. Women attend to their household duties, whether in the kitchen, laundry, drawing-room, or parlor. Children wearing one or a pair of artificial limbs are no longer objects of pity and dependence; they indulge with other children in all manner of sports, they skate, ride the bicycle, romp and tumble about just as healthy and merry children should do.

One little fellow from Connecticut writes: "I can climb trees, play base-ball, and other out-door games as well as other 14-year-old boys."

A large illustrated book, containing 400 pages and over 200 illustrations, will be sent free to those needing artificial legs and arms, or to physicians and others interested.

This book gives instructions how to order and be fitted while the subject remains at home.

A. A. MARKS, 701 Broadway, New York City.

ESTABLISHED OVER 36 YEARS.

THE SUSTAINED SUPREMACY

OF

Fairchild's Pepsin,

In ACTIVITY, PERMANENCE and GENERAL EXCELLENCE

Has won for this product a wide use and recognition in all the principal markets of the world.

We guarantee it to be unchangeable, to maintain its activity and quality under all ordinary commercial conditions; it is therefore, by far the most available for the dispensing counter, as well as in the manufacture of every form of pepsin preparation.

Under exactly parallel conditions, with any proper percentage of acidity and with any proportion of such acidulated water to the albumen, Fairchild's pepsin is positively superior to any pepsin known.

It will, under absolutely comparative conditions, grain for grain, digest more albumen than any other pepsin made.

We will be pleased to send samples to any physician who may wish to ascertain for himself the relative activity of Fairchild's pepsin, or to submit it to any practical trial.

Prices and complete information upon application.

FAIRCHILD BROS. & FOSTER,

New York. Chicago. London.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

UNPRECEDENTED SUCCESS.

LENTZ'S COMPACT OPERATING SET No. 10.

From July, 1887 to July 1889 (Two Years), we have sold 737 of our No. 10 Operating Sets.

No other surgical set has ever had so large a sale in so short a time. It has been sent to all parts of the world and has given entire satisfaction, as the quality and finish of the instruments cannot be excelled, or the low price met, by any other manufacturer.

We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired:

One Amputating Knife (6-inch blade).
One Finger Knife. One Hernia Knife.
One Sharp Curved Bistury.
Two Scalpels.
One Tenotome. One Tenaculum.
One Pair Scissors, curved or flat.
One Saw, 9-inch blade.
One Liston's Bone Forceps, with Spring.
One Artery and Needle Forceps, improved.
One Hæmostatic Forceps.
One Esmarch's Flat Rubber Tourniquet, with Chain.
One Director, with Aneurism Needle.
Two Silver Probes.
Silk, Wire, Wax and Needles.

With the sixteen instruments contained in this case any ordinary operation may be performed. Size, 11 inches long, 4 inches wide, 2 inches high.

A.—German Silver aseptic Handles on Knives and Saw,	**$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw,	**29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration),	**25 00**
Either set, with Trephine and Elevator in addition,	**4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS.

Our Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

Customers desiring special cases, should write for estimates; those having instruments, whether in case or not, can have them put in first-class order, add to them any new instruments wanted and have all fitted in a case.

We have many styles of Operating Cases constantly in stock, at prices ranging from $25.00 to $100.00

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages*."

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

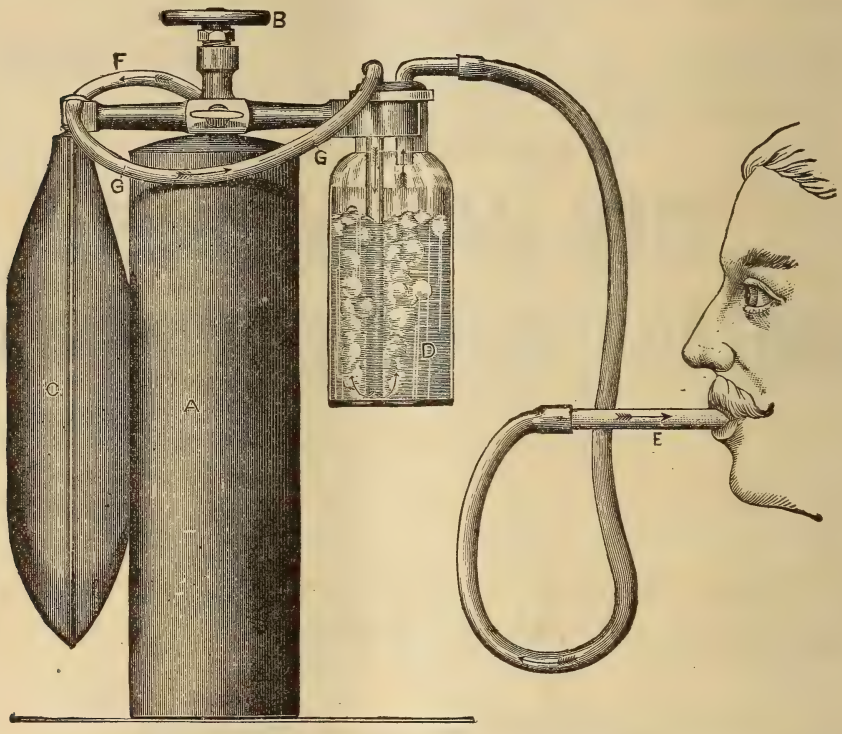
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

CALIFORNIA VINTAGE CO.

21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

PRICE REDUCED.

True Salicylic Acid.

CRYSTALLIZED FROM

WINTERGREEN OIL.—ITS NATURAL SOURCE.

DR. P. W. LATHAM, Downing Professor of Medicine at Cambridge (England), lecturing on the treatment of gout and rheumatism at the Royal College of Physicians, says:

"The true Salicylic Acid obtained from the vegetable kingdom must alone be employed. If you have to give large doses, avoid giving the artificial product obtained from carbolic acid, however much it may have been dialyzed and purified. Give the acid without any alkali or base," etc.

A reprint of this exceedingly valuable paper will be sent on application.

A DESIDERATUM—not always appreciated.

The quality of medicines used in the prescription is as important a factor in the cure of disease as a correct diagnosis; and a physician violates no code, either of ethics or morals, in demanding of his druggist that which he knows to be reliable, instead of leaving to the latter to decide whose preparations he shall or shall not use.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	25.60	per 1000.
" of Women in Boston,	29,00	" "
" in **Murdock's Free Surgical Hospital,**	**5.00**	" "
" New York,	26.32	" "
" Philadelphia,	20.00	" "
" Chicago,	20.90	" "
" St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

SPORTING AND ATHLETIC GOODS OF EVERY DESCRIPTION.

No Chemicals.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

FACULTY:

JAMES R. LEAMING, M.D., Emeritus-Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M. D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M.D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M.D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M.D., Professor of Laryngology and Rhinology; Laryngologist and Otologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M.D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given. The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.
CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.
SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.
FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.
WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.
JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.
FRANCIS T. MILES M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.

L. McLANE TIFFANY, M.D.,
Professor of Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.
R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.
JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.
JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.
FRANCIS T. MILES, M.D.,
Professor of Physiology.
L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.

J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.
R. DORSEY COALE, PH.D.,
Professor of Chemistry.
JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.
CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.
AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

Medico-Chirurgical College of Philadelphia.

JAS. E. GARRETSON, A.M., M.D., Professor of Oral and Clinical Surgery.
WM. H. PANCOAST, A.M., M.D., Professor of General, Descriptive, and Surgical Anatomy and Clinical Surgery.
GEO. E. STUBBS, A.M., M.D., Professor of Clinical Surgery.
WM. F. WAUGH, A.M., M.D., Professor of Principles and Practice of Medicine and of Clinical Medicine.
ABRAHAM S. GERHARD, A.M., M.D., Professor of Forensic and Clinical Medicine.
WM. S. STEWART, A.M., M.D., Professor of Obstetrics and Clinical Gynecology.
H. EARNEST GOODMAN, M.D., Professor of Principles and Practice of Surgery and Clinical Surgery.
P. D. KEYSER, A.M., M.D., Dean, Professor of Ophthalmology.

SAMUEL B. HOWELL, A.M., M.D., Professor of Chemistry.
JOHN V. SHOEMAKER, A.M., M.D., Professor of Materia Medica, Pharmacology, Therapeutics and Clinical Medicine.
E. E. MONTGOMERY, B.S., M.D., Professor of Gynecology.
JAS. M. ANDERS, Ph.D., M.D., Professor of Hygiene and Clinical Diseases of Children; Associate Professor of Physiology

JOHN V. SHOEMAKER, A.M., M.D., Clinical Professor Skin Diseases.

FRANK WOODBURY, A.M., M.D., Honorary Professor of Clinical Medicine.
WM. B. ATKINSON, A.M., M.D. Honorary Professor of Sanitary Science and Paediatrics.

The Regular Session begins September 30th, 1889, and continues until the middle of April. It is preceded by a Preliminary Session of three weeks, and followed by a Spring Session lasting until the middle of June.

Seats are issued in the order of matriculation, and are forfeitable if fees are not paid before November 1st.

Preliminary examination or equivalent degree, and a three years' graded course obligatory. A fourth year voluntary.

Instruction is given by lectures, clinical teaching and practical demonstrations. In the subjects of Anatomy, Pharmacy, Chemistry, Histology and Pathology the usual methods of instruction are largely supplemented by laboratory work.

Examinations are held at the close of each Regular Session upon the studies of the term. Although the degree of Doctor of Medicine is conferred at the end of the third year, a fourth year is earnestly recommended, at the end of which the degree of Doctor of Medicine *cum laude* is given.

FEES.

Matriculation, $5: first and second years, each, $100; third year (no graduation fee), $100; fourth year, free to those who have attended three sessions in this school, to all others, $100.

Extra charges only for material used in the laboratories and dissecting-room.

For further information or announcement, address,

E. E. MONTGOMERY, M.D., Secretary,
Medico-Chirurgical College,
Cherry, below 18th Street, Philadelphia, Penna.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

WANTED

ONE PHYSICIAN ONLY,

In every Town and City, to introduce a new apparatus and improved method of treating Catarrh, Throat and Lung Affections.

Strictly Professional. No Competition.

For particulars address,

MOORE-McGREGOR MEDICATION,
P. O. Box 671. CINCINNATI, O.

Medical Department, State University of Iowa, at Iowa City, Iowa.

The next Session will begin on September 11, 1889, and continue until March 12, 1890. Attendance upon three courses of lectures, of six months each, is requisite to graduation. The facilities for dissection and clinical study are unsurpassed.

TERM EXPENSES—Lecture Ticket, $20.00; Demonstrator's Ticket, $10.00; Matriculation Ticket, $5.00 (paid but once); Hospital Ticket, $1.00; Examination Fee (for final examination) $25.00. No charge for dissecting material. For further information, address DR. A. C. PETERS, Ast. Sec'y, Iowa City, Iowa.

College of Physicians and Surgeons of Baltimore, Md.

The Preliminary Course will begin September 15th, 1889. The Regular Session will open October 1st, 1889, and close about March 15th, 1890.

For catalogue containing full information, address
THOMAS OPIE, M. D., Dean,
N. W. Cor. Calvert and Saratoga Sts., Baltimore, Md.

DISEASES OF THE EYE.

Systematic and Practical Instruction at the Philadelphia Polyclinic, including daily use of the Ophthalmoscope and test lenses. Special course in Ophthalmology begins September 30th.

For particulars, address

EDWARD JACKSON, M. D.,
215 South Seventeenth St., Philadelphia.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.

The PRELIMINARY SESSION begins September 18th, 1889.

The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D, LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D, Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to
DR. JAMES TYSON, Dean,
36th and Woodland Avenue, Philadelphia.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON, D. C.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

STRYKER & OGDEN,

Walnut and 13th Streets, Philadelphia.

PHYSICIANS' OFFICE AND OPERATING

COATS.

MADE OF BLEACHED DRILLING;
WILL NOT SHRINK IN WASHING.

$1.25 each; $7.00 per ½ Dozen.

Single Coats by Post, 15 cents additional.

HIRSH, FRANK & CO.,

31 North Third St., Philadelphia.

☞In ordering, send chest measure and length of sleeve from middle of back.

BUFFALO LITHIA WATER

IN THE TREATMENT OF

ALBUMINURIA, WHETHER OF BRIGHT'S DISEASE, PREGNANCY, OR SCARLET FEVER.

Dr. WM. B. TOWLES, Professor of Anatomy and Materia Medica in the Medical Department of the University of Virginia.

"BUFFALO LITHIA WATER, No. 2, belongs to the ALKALINE or, *perhaps, to the* ALKALINE-SALINE Class, *for it has proved far more efficacious in many diseased conditions than any of the simple* ALKALINE *waters.*

. . . . . .

"*Its effects are marked in causing a disappearance of* ALBUMEN *from the Urine.* In a single case of BRIGHT'S DISEASE OF THE KIDNEYS I witnessed *decided beneficial results from its use, and from its action in this case I should have great confidence in it as a remedy in certain stages of the disease.*"

Dr. GRAEME M. HAMMOND, of New York, Professor of Diseases of the Mind and Nervous System in the New York Post-Graduate Medical School and Hospital.

"In *all* cases of BRIGHT'S DISEASE of the KIDNEYS I have found BUFFALO LITHIA WATER *of the greatest service in increasing the quantity of urine and in eliminating the* ALBUMEN."

Dr. GEORGE W. MILTENBERGER, Professor of Obstetrics, University of Maryland,

Before the Medical and Chirurgical Faculty of the State of Maryland, recommended BUFFALO LITHIA WATER as an ALKALINE Diuretic in ALBUMINURIA of PREGNANCY.—See *Trans. Faculty of State of Maryland*, 1886.

Dr. WM. H. DOUGHTY, Professor of Materia Medica and Therapeutics, Medical College of Georgia; Member of American Medical Association, etc.

"Over the NAUSEA AND VOMITING OF PREGNANCY, PARTICULARLY IN THE LATTER MONTHS, WHERE URÆMIC CONDITIONS are possibly established, and in PUERPERAL CONVULSIONS, URÆMIA CO-EXISTING, BUFFALO LITHIA WATER often exerts *marked control.*"

Dr. CALEB WINSLOW, 23 McCulloh Street, Baltimore, Member of the Medical and Chirurgical Faculty of Maryland.

"I have found the BUFFALO LITHIA WATER, Spring No. 2, of marked service in relieving the *Nausea* of *Pregnant Women.* I frequently resort to it at intervals *during the whole course of Pregnancy.* Being *antacid, laxative, diuretic, and tonic, it seems well adapted to relieve the disturbances usually attendant upon Gestation, and I have no doubt its free use might remove* URÆMIC POISON, *and prevent Convulsions produced thereby.*"

Dr. JOS. HOLT, New Orleans, President Board of Health, State of Louisiana.

"I have prescribed BUFFALO LITHIA WATER freely in affections of the *Kidneys* and *Urinary* passages, particularly in GOUTY *subjects*, in ALBUMINURIA, and in irritable conditions of the *Bladder* and *Urethra* in *females.* The results have been such as to satisfy me *of the extraordinary value of this Water in a large class of cases usually most difficult to treat.*"

Dr. JAMES B. McCAW, Professor of the Practice of Medicine in the Virginia Medical College.

[Extract from the Proceedings of the Richmond Academy of Medicine, October 15, 1878.]

"Dr. McCaw also spoke of the great value of BUFFALO LITHIA WATER in ALBUMINURIA of *Scarlet Fever* and in ALBUMINURIA of *Pregnant Women.*"

Dr. J. T. DAVIDSON, New Orleans, La., ex-President New Orleans Surgical and Medical Association.

"I have for several years prescribed BUFFALO LITHIA WATER, Spring No. 2, in all cases of *Scarlet Fever*, directing it to be drunk *ad libitum, with the effect of relieving all traces of* ALBUMEN *in the urine*, and have found it equally efficacious in renal diseases requiring the use of alkaline water."

Dr. G. W. SEMPLE, Hampton, Va., President Medical Society of Virginia.

"In SCARLET FEVER I have known BUFFALO LITHIA WATER *restore a healthy and abundant secretion of Urine, when it was highly charged with* ALBUMEN *and the secretion almost suppressed.*"

Dr. MARTIN L. JAMES, of Richmond, Va., Professor of Materia Medica and Therapeutics, Medical Society of Virginia.

[Proceedings of the Richmond, Virginia, Academy of Medicine, December 16, 1880.]

"The President of the Academy, Dr. M. L. James, reported a case of *Congestion* of the *Kidneys* in a lady eight months advanced in *Pregnancy, attended by marked Œdema*, both over the extremities and surface, and by URÆMIC POISONING *to such an extent as very seriously impaired the vision of the patient*, relieved by the free use of this Water for three weeks.

"Other remedies, he stated, were used in these cases, *but the favorable results seemed clearly attributable to the action of the Water.*"

Dr. HARVEY L. BYRD, of Baltimore, President and Professor of Obsetrics and Diseases of Women and Children in the Baltimore Medical College, formerly Professor of Practical Medicine, etc.

"I have prescribed BUFFALO LITHIA WATER with the most satisfactory results, both as a *remedy* and *prophylactic* in the *Parturient* or *Pregnant Puerperal Eclampsia* or *Convulsions; and I may say that I know of no remedy of equal efficacy with the Water of Spring No. 2 in Sequelæ of Scarlatina.*

"It has an *ascertained value* in BRIGHT'S DISEASE. *A knowledge of its action in that disease thus far would seem* to warrant the belief that it would, in many instances, *at least in its early stages, arrest it entirely, and in its more advanced stage prove a decided comfort and palliative.*

Water in cases of one dozen half-gallon bottles, $5.00 per case at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA.

Intestinal Diseases of Children.

"In Cholera Infantum," says Dr. Louis Starr, "the irritability of the stomach is a formidable barrier to alimentation; nevertheless, every effort must be made to give food in small quantities and at short intervals." Clinical experience, the only conclusive test, has proved the great efficacy in this disease, of MELLIN'S FOOD dissolved in water only and given cold, in small amount frequently repeated. "In MELLIN'S FOOD," says Dr. Eustace Smith, "the whole of the starch is converted into dextrine and grape sugar (properly maltose) so that the greater part of the work of digestion is performed before the food reaches the child's stomach." He also says, "I have never seen any signs of fermentation which I could attribute to the influence of maltose." As it is non-fermentable and so quickly assimilated, MELLIN'S FOOD is the best food for infants suffering from this complaint until convalescence has been sufficiently established to allow the regular diet to be resumed.

A sample of MELLIN'S FOOD will be sent to any physician, free of all expense, upon application

DOLIBER-GOODALE CO., Boston, Mass.

WAMPOLE'S

GRANULAR

EFFERVESCENT

BROMO-PYRINE.

Containing in Each Heaping Teaspoontul:

Caffein Hydrobromate, . 1 Gr.
Antipyrene, ... 3 Grs.
Sodium Bromide, . . 15 Grs.

Special Combinations Speedily and Carefully Prepared.

PREPARED SOLELY BY

HENRY K. WAMPOLE & CO.

PHILADELPHIA, PA.

SVAPNIA

OR

PURIFIED OPIUM

FOR PHYSICIANS USE ONLY.

Contains the Anodyne and Soporific Alkaloids, Codeia, Narceia and Morphia.

Excludes the Poisonous and Convulsive Alkaloids, Thebaine, Narcotine and Papaverine.

SVAPNIA has been in steadily increasing use for over twenty years, and whenever used has given great satisfaction.

To PHYSICIANS OF REPUTE, not already acquainted with its merits, samples will be mailed on application.

SVAPNIA is made to conform to a uniform standard of Opium of Ten per cent. Morphia strength.

JOHN FARR, Manufacturing Chemist, New York.

C. N. CRITTENTON, Gen'l Agent, 115 Fulton St., N. Y

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

No. 3.

Doctor:

You have many cases of nervous debility to treat.

Some of them are merchants who worry over their business affairs; lawyers, teachers and ministers who do a great deal of brain work, and women worn out with the cares of the family. Others are men suffering from sexual weakness, spermatorrhœa, or other forms of sexual drain.

They are coming home now from seashore and mountain, where they have been vainly seeking the restoration they thus far have failed to find. You dread to see them coming, because it only means another ceaseless round of those irritant stimulant and "tonic" remedies, which, instead of curing them, act like a whip to the wearied horse, only goading them on to hopeless incurability.

Now let us give you a secret by which you may cure these cases.

Instead of stimulating them, *feed up* the exhaustive nerve tissue with the true tissue food, McArthur's Chemically Pure Syrup of the Hypophosphites of Lime and Soda.

The treatment will be restful and refreshing, and improvement will be manifest at once and permanent cure will result from steady, persistent use of the remedy. In the few special cases calling for temporary use of other remedies they can be combined in the same prescription with the Syrup. But the Syrup should be continued, month after month, until a cure has resulted.

Remember, all forms of nerve exhaustion are amenable to this treatment.

Think how much your reputation will be enhanced and your practice increased by this timely means. The great Niemeyer attributed the rapid growth of his practice to a successful prescription for anemia, for which patients used to come from great distances.

No one has yet been disappointed with McArthur's Syrup.

It is the only one containing the chemically pure hypophosphites of lime and soda without other irritant so-called tonics.

It is specially indicated also in Tuberculosis and Scrofulosis, where it builds up the tissue walls and rapidly and permanently restores the health. Also in Rachitis, Chronic Cough, Chronic Bronchitis, Alcoholism, Pregnancy and Lactation to build up the child's system through the mother, Teething, Chronic Diarrhea, Suppurating Discharges and Sores, Uterine Fibroids, and all disorders of waste or faulty nutrition.

Write your prescription thus:

Syr: Hypophos: Comp: McArthur: 1 Bottle.

A valuable book, "Curability of Consumption," sent free. A large bottle sent free if you will pay express.

McARTHUR HYPOPHOSPHITE CO.,

BOSTON, MASS.

Buffalo Lithia Water

In the TREATMENT OF URINARY DEPOSIT.

Case of Dr. B. J. WEISTLING, of Middleton, Pa., stated by himself.

"Experience in its use in **STONE in the BLADDER** in my own person enables me to attest the efficacy **of the BUFFALO LITHIA WATER** in this painful malady. After having been long subjected to sufferings, the intensity **of** which cannot be described, I have, under the influence of this Water, passed an ounce of **CALCULI (URIC ACID),** some of which weighed as much as four grains, affording inexpressible relief and leaving me in a condition of comparative ease **and** comfort.

"On one occasion I passed thirty-five **CALCULI** in forty-eight hours. The appearance of these **CALCULOUS NUCLEI** indicates unmistakably, I think, that they were all *component particles of one large* **CALCULUS** *destroyed by the action of the Water, by means of solution and disintegration.* At my advanced period of life (I am seventy-seven years and six months of age), and in my feeble general health, a surgical operation was not to be thought of, and the Water seems to have accomplished all that such an operation, if successful, could have done."

[The above plate is from a photograph, and represents the exact size and shape of some of the Calculi passed by Dr. Weistling. They were preserved by his son, Dr. J. Weir Weistling.]

Case stated by Dr. G. HALSTED BOYLAND, late Professor of Surgery, Baltimore Medical College, Member American Medical Association.

"The case of Mr. C., which came under my observation as Resident Physician at the Springs during the season of 1884, affords undoubted evidence that Buffalo Lithia Water is a **SOLVENT** *for Urinary Deposit,* commonly known as **STONE in the BLADDER.** He was operated upon for **STONE,** the operation affording but partial and temporary relief. A year afterward he visited the **BUFFALO LITHIA SPRINGS,** at the same time passing small quantities of a *Urinary Deposit,* of the **TRIPLE PHOSPHATE of AMMONIA** and **MAGNESIA VARIETY,** and his sufferings such as required that he should be kept constantly under the influence of opiates. In some eight weeks the solvent properties of the Water *were evident in the diminished consistency of the deposit, the increased quantity discharged, and by its change from Concrete Lumps to fine Sand,* which he discharged to the amount of *Four Ounces.* After a time, however, the quantity gradually diminished, and finally ceased, and he left the Springs *with the deposit dissolved* and *washed out of the system,* and the *Diathesis fons et origi morbi* altered. There had been a disappearance of the attending distressing symptoms, and great improvement in his general condition."

Dr. MARTIN L. JAMES, of Richmond, Va., Professor of Materia Medica and Therapeutics, Medical Society of Virginia.

[Proceedings of the Richmond, Virginia, Academy of Medicine, December 16, 1880.]

"The President of the Academy, Dr. M. L. James, reported three cases of marked **URIC ACID DIATHESIS** successfully treated by the Water of Spring No. 2 of the **BUFFALO LITHIA SPRINGS** of Virginia. In one of these patients there were, as a result of this Diathesis, **SANDY DEPOSITS** in the *Urine, Inflammation of the Kidneys, Irritability of the Bladder, and Hæmaturia,* and, finally, the passage of a **CALCULUS** of the size of a cherry, formed on a blood-clot as a nucleus. In another case there were frequent attacks of **NEPHRITIC COLIC,** attended by **SANDY DEPOSITIONS in the urine.** After the free use of this Water in these cases, no further manifestations of the disorder occurred."

Dr. HENRY M. WILSON, of Baltimore, ex-President Medical and Chirurgical Faculty of Maryland.

"My experience in the use of the **BUFFALO LITHIA WATER** has not been large, *but it is of such a positive character that I do not hesitate to express my preference for it, as a* **DIURETIC** in **URINARY CALCULI,** *over all other waters that I have ever used.*"

Water in cases of one dozen half-gallon bottles, $5 per case, at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

{Quiniæ Valerianat, ... 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.}

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

UNPRECEDENTED SUCCESS.

LENTZ'S COMPACT OPERATING SET No. 10.

From July, 1887 to July 1889 (Two Years), we have sold 737 of our No. 10 Operating Sets.

No other surgical set has ever had so large a sale in so short a time. It has been sent to all parts of the world and has given entire satisfaction, as the quality and finish of the instruments cannot be excelled, or the low price met, by any other manufacturer.

We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

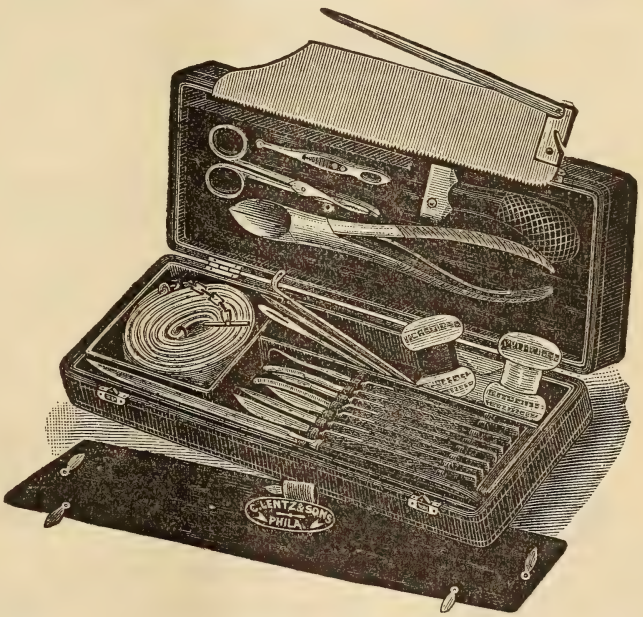
Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired:

One Amputating Knife (6-inch blade).
One Finger Knife. One Hernia Knife.
One Sharp Curved Bistury.
Two Scalpels.
One Tenotome. One Tenaculum.
One Pair Scissors, curved or flat.
One Saw, 9-inch blade.
One Liston's Bone Forceps, with Spring.
One Artery and Needle Forceps, improved.
One Hæmostatic Forceps.
One Esmarch's Flat Rubber Tourniquet, with Chain.
One Director, with Aneurism Needle.
Two Silver Probes.
Silk, Wire, Wax and Needles.



With the sixteen instruments contained in this case any ordinary operation may be performed. Size, 11 inches long, 4 inches wide, 2 inches high.

A.—German Silver aseptic Handles on Knives and Saw,	**$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw,	**29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration),	**25 00**
Either set, with Trephine and Elevator in addition,	**4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS.

Our Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

Customers desiring special cases, should write for estimates; those having instruments, whether in case or not, can have them put in first-class order, add to them any new instruments wanted and have all fitted in a case.

We have many styles of Operating Cases constantly in stock, at prices ranging from $25.00 to $100.00

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children,* and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda,* and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal,* associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges,* "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck,* "*Urethritis, Catarrh,* and other *diseases of the bladder,* together "with all affections of the *Urinary Passages.*"

"Thanks to their thin envelope of *Gluten,* which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica,* and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves,* (fifth pair), *con-* "*gestive neuralgias,* and *painful and inflammatory Rheumatismal* "*affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

Dose—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux,* Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic,* is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence,* having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

Sole Agents for the United States for the above Preparations.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Commence Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

DR. MASSEY'S

PRIVATE SANITARIUM

3607 Locust Street

PHILADELPHIA

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DRUGGISTS AND HOSPITALS SUPPLIED.

For more than four years the Perfection Douche has been subjected to the severest practical tests, by experienced gynaecologist in every part of this country, no objection, in a single instance, having been made to the principles upon which it is constructed.

It provides ample and comfortable support, with a slight elevation of either the shoulders or hips, furnishes means for the prolonged application of a sufficiently large amount of hot water, and completely conveys away all the drip without risk of wetting the clothing. No other apparatus for applying hot water in the treatment of uterine and pelvic diseases combines as many desirable and practical qualities. COMFORT, CONVENIENCE, DURABILITY, AND THOROUGHNESS OF APPLICATION are its main points of excellence.

Descriptive circulars, prices, and testimonials are furnished on application. These afford satisfactory evidence of unqualified endorsement of its superior advantages, and show the high appreciation in which the instrument is held by those who have repeatedly recommended and tested its work.

Applications for the Douche or for circulars or testimonials may be made to agents, or to "THE PERFECTION DOUCHE," BOX 7, ALBANY, N. Y.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.

They are carefully finished, especial care being taken to make them smooth.

In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1,	$1.25 per doz.	No. 4,	$1.55 per doz.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

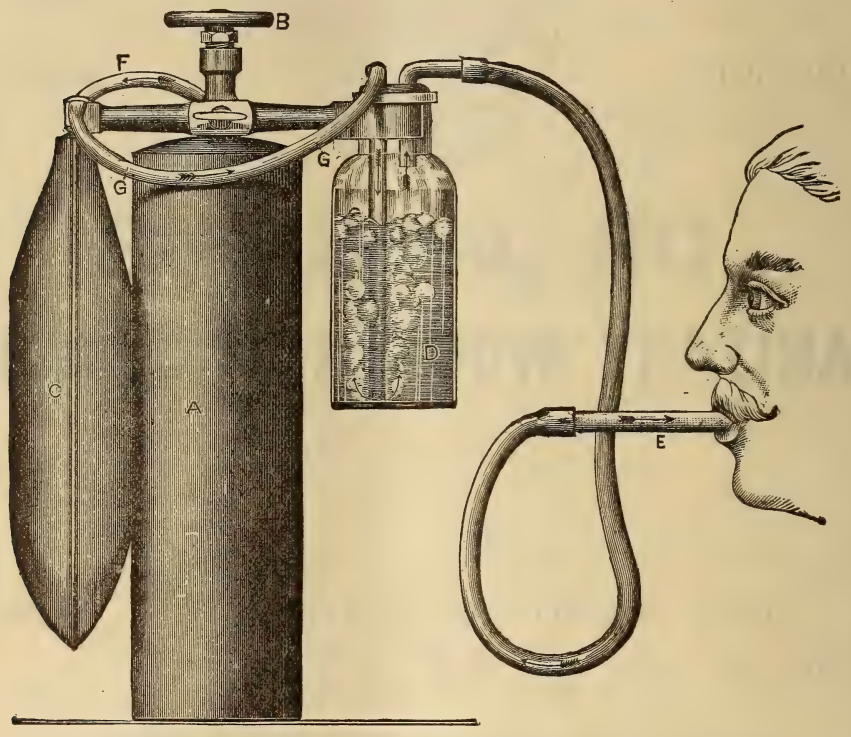
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

THE SUSTAINED SUPREMACY

OF

Fairchild's Pepsin,

In ACTIVITY, PERMANENCE and GENERAL EXCELLENCE

Has won for this product a wide use and recognition in all the principal markets of the world.

We guarantee it to be unchangeable, to maintain its activity and quality under all ordinary commercial conditions; it is therefore, by far the most available for the dispensing counter, as well as in the manufacture of every form of pepsin preparation.

Under exactly parallel conditions, with any proper percentage of acidity and with any proportion of such acidulated water to the albumen, Fairchild's pepsin is positively superior to any pepsin known.

It will, under absolutely comparative conditions, grain for grain, digest more albumen than any other pepsin made.

We will be pleased to send samples to any physician who may wish to ascertain for himself the relative activity of Fairchild's pepsin, or to submit it to any practical trial.

Prices and complete information upon application.

FAIRCHILD BROS. & FOSTER,

New York. Chicago. London.

Intestinal Diseases of Children.

"In Cholera Infantum," says Dr. Louis Starr, "the irritability of the stomach is a formidable barrier to alimentation; nevertheless, every effort must be made to give food in small quantities and at short intervals." Clinical experience, the only conclusive test, has proved the great efficacy in this disease, of MELLIN'S FOOD dissolved in water only and given cold, in small amount frequently repeated. "In MELLIN'S FOOD," says Dr. Eustace Smith, "the whole of the starch is converted into dextrine and grape sugar (properly maltose) so that the greater part of the work of digestion is performed before the food reaches the child's stomach." He also says, "I have never seen any signs of fermentation which I could attribute to the influence of maltose." As it is non-fermentable and so quickly assimilated, MELLIN'S FOOD is the best food for infants suffering from this complaint until convalescence has been sufficiently established to allow the regular diet to be resumed.

A sample of MELLIN'S FOOD will be sent to any physician, free of all expense, upon application.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

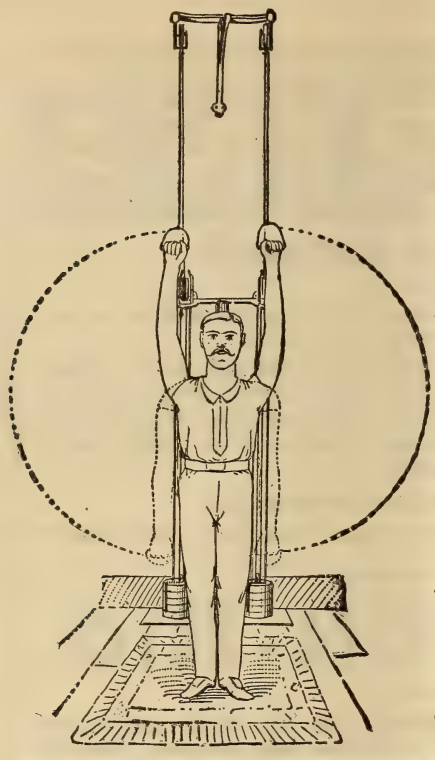
INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.



THE Medical Profession are cordially invited to visit our GYMNASIUM SHOW-ROOM containing over FIVE THOUSAND DOLLARS worth of apparatus for the advancement of physical culture.

Our O. K. Machine No. 2

Price, $10. Sent by Express to any part of the United States or Canada. No charge for casing.

Is endorsed by all Physicians who have seen it. It will develop any and every muscle of the body.

ADAPTED TO OLD AND YOUNG, MALE AND FEMALE.

We will mail our Manual of Physical Culture, together with complete catalogue, free, on application.

SPECIAL DISCOUNT TO THE PROFESSION.

A. J. REACH & CO.
1022 Market Street,
PHILADELPHIA.

SPORTING AND ATHLETIC GOODS OF EVERY DESCRIPTION.

No Chemicals.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa

is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

IMPORTANT ANNOUNCEMENT.

I WISH TO INFORM THE

MEDICAL PROFESSION

THAT

CHARLES LENTZ & SONS,

No. 18 North 11th St., Philadelphia,

The well-known Manufacturers of Surgical Instruments, have been appointed agents for "GORDON'S VAGINAL IRRIGATOR," and will supply physicians at manufacturers' prices.

All goods sent by mail or express prepaid on receipt of price.

Irrigator only	$2.75
Reservoir with cover, 6 ft. tube and cut off (by ex.)	1.40
Or a good rubber Bulb Syringe	1.00

The Irrigator will fit most kinds of syringes; so neither Reservoir or Syringe will be sent unless specially ordered. To those who have not used the Instrument, I will say: It is the only instrument yet devised that the Patient can use while in the recumbent position, without Wetting or Soiling Clothing or Bedding. The Tampon that occludes the vaginal orifice is filled with air; hence no heat comes in contact with the external genitals. The late Dr. Field, of Bangor, used water, at 130° F., to control an obstinate hemorrhage, without discomfort to the Patient. Since 1885 its sale has steadily increased, and of 2,000 sold only two have been returned; yet all were sold with the guarantee that if not perfectly satisfactory after one week's use, they were to be returned.

I caution the trade against offering for sale any imitation of this instrument; as all such are infringements on letters patent granted the subscriber. Upon request I will send references, in most any part of the U. S., of those who are using this instrument. I am, respectfully, G. T. BLANCHARD, Successor to Gordon & Blanchard, PLYMOUTH, MAINE.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

STRYKER & OGDEN,

Walnut and 13th Streets, Philadelphia.

PHYSICIANS' OFFICE AND OPERATING

COATS.

MADE OF BLEACHED DRILLING;
WILL NOT SHRINK IN WASHING.

$1.25 each; $7.00 per ½ Dozen.

Single Coats by Post, 15 cents additional.

HIRSH, FRANK & CO.,

31 North Third St., Philadelphia.

☞In ordering, send chest measure and length of sleeve from middle of back.

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.
CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.
SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.
FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.
WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.
JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.
FRANCIS T. MILES, M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.

L. McLANE TIFFANY, M.D.,
Professor of Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.
R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.
JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.
JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.
FRANCIS T. MILES, M.D.,
Professor of Physiology.
L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.

J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.
R. DORSEY COALE, PH.D.,
Professor of Chemistry.
JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.
CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.
AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

Medico-Chirurgical College of Philadelphia.

JAS. E. GARRETSON, A.M., M.D., Professor of Oral and Clinical Surgery.

WM. H. PANCOAST, A.M., M.D., Professor of General, Descriptive, and Surgical Anatomy and Clinical Surgery.

GEO. E. STUBBS, A.M., M.D., Professor of Clinical Surgery.

WM. F. WAUGH, A.M., M.D., Professor of Principles and Practice of Medicine and of Clinical Medicine.

ABRAHAM S. GERHARD, A.M., M.D., Professor of Forensic and Clinical Medicine.

WM. S. STEWART, A.M., M.D., Professor of Obstetrics and Clinical Gynecology.

H. EARNEST GOODMAN, M.D., Professor of Principles and Practice of Surgery and Clinical Surgery.

P. D. KEYSER, A.M., M.D., Dean, Professor of Ophthalmology.

SAMUEL B. HOWELL, A.M., M.D., Professor of Chemistry.

JOHN V. SHOEMAKER, A.M., M.D., Professor of Materia Medica, Pharmacology, Therapeutics and Clinical Medicine.

E. E. MONTGOMERY, B.S., M.D., Professor of Gynecology.

JAS. M. ANDERS, Ph.D., M.D., Professor of Hygiene and Clinical Diseases of Children; Associate Professor of Physiology

JOHN V. SHOEMAKER, A.M., M.D., Clinical Professor Skin Diseases.

FRANK WOODBURY, A.M., M.D., Honorary Professor of Clinical Medicine.

WM. B. ATKINSON, A.M., M D. Honorary Professor of Sanitary Science and Paediatrics.

The Regular Session begins September 30th, 1889, and continues until the middle of April. It is preceded by a Preliminary Session of three weeks, and followed by a Spring Session lasting until the middle of June.

Seats are issued in the order of matriculation, and are forfeitable if fees are not paid before November 1st.

Preliminary examination or equivalent degree, and a three years' graded course obligatory. A fourth year voluntary.

Instruction is given by lectures, clinical teaching and practical demonstrations. In the subjects of Anatomy, Pharmacy, Chemistry, Histology and Pathology the usual methods of instruction are largely supplemented by laboratory work.

Examinations are held at the close of each Regular Session upon the studies of the term. Although the degree of Doctor of Medicine is conferred at the end of the third year, a fourth year is earnestly recommended, at the end of which the degree of Doctor of Medicine *cum laude* is given.

FEES.

Matriculation, $5; first and second years, each, $100; third year (no graduation fee), $100; fourth year, free to those who have attended three sessions in this school, to all others, $100.

Extra charges only for material used in the laboratories and dissecting-room.

For further information or announcement, address,

E. E. MONTGOMERY, M.D., Secretary,
Medico-Chirurgical College,
Cherry, below 18th Street, Philadelphia, Penna.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

CASE OF

SURGICAL INSTRUMENTS

FOR SALE.

Address
MEDICAL AND SURGICAL REPORTER,
P. O. Box 843. PHILADELPHIA.

Medical Department, State University of Iowa,
at Iowa City, Iowa.

The next Session will begin on September 11, 1889, and continue until March 12, 1890. Attendance upon three courses of lectures, of six months each, is requisite to graduation. The facilities for dissection and clinical study are unsurpassed.

TERM EXPENSES—Lecture Ticket, $20.00; Demonstrator's Ticket, $10.00; Matriculation Ticket, $5.00 (paid but once); Hospital Ticket, $3.00; Examination Fee (for final examination) $25.00. No charge for dissecting material. For further information, address DR. A. C. PETERS, Ast. Sec'y, Iowa City, Iowa.

College of Physicians and Surgeons of Baltimore, Md.

The Preliminary Course will begin September 15th, 1889. The Regular Session will open October 1st, 1889, and close about March 15th, 1890.

For catalogue containing full information, address
THOMAS OPIE, M. D., Dean,
N. W. Cor. Calvert and Saratoga Sts., Baltimore, Md.

DISEASES OF THE EYE.

Systematic and Practical Instruction at the Philadelphia Polyclinic, including daily use of the Ophthalmoscope and test lenses. Special course in Ophthalmology begins September 30th.

For particulars, address
EDWARD JACKSON, M. D.,
215 South Seventeenth St., Philadelphia.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to
H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.

The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D, LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D, Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, Jr., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to

JAMES R. LEAMING, M.D., Emeritus-Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M. D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M.D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M.D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M.D., Professor of Laryngology and Rhinology; Laryngologist and Otologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M.D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only.* No didactic lectures are given. The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil.....80 m. (drops)	Soda.....1-3 Grains	Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.
Distilled Water.....35 "	Salicylic Acid.....1-4 "	
Soluble Pancreatin..... 5 Grains.	Hycholic Acid.....1-30 "	

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which **HYDROLEINE** is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them:

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* PARIS, 8 RUE PAYENNE, and at every Pharmacy. (Beware of imitations.)

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON, D. C.

WE ARE CONFIDENT THAT WE HAVE REACHED THE Highest Degree of Perfection *IN SOLVING THE* INFANT FOOD PROBLEM.

Lacto-Preparata.

A Prepared Human Milk perfectly Sterilized and especially designed for Children from birth to six or eight months of age.

Made wholly from cow's milk with the exception that the fat of the milk is partially replaced by cocoa butter. Cocoa butter is identical with milk fat in food value and digestibility, being deficient only in the principle which causes rancidity. The milk in *Lacto-Preparata* is treated with Extract of Pancreas at a temperature of 105 degrees, a sufficient length of time to render twenty-five per cent. of the casein soluble, and partially prepare the fat for assimilation. In this process the remaining portion of the casein not peptonized, is acted upon by the pancreatic ferment in such a manner as to destroy its tough tenacious character, so that it will coagulate in light and flocculent curds, like the casein in human milk.

Composition:		
	ALBUMINOIDS,	19 Parts.
	MILK SUGAR,	64 "
	FAT,	10 "
	MINERAL MATTER,	3 "
	CHLORIDE of SODIUM added,	½ "
	PHOSPHATES of LIME added,	½ "
	MOISTURE,	3 "

SEND FOR SAMPLE and compare it with every other food used in artificial feeding of Infants.

Lacto-Preparata is not designed to replace our **Soluble Food**, but is better adapted for Infants up to eight months of age.

Carnrick's Soluble Food

Is the Nearest Approach to Human Milk that has thus far been produced, with the exception of Lacto-Preparata.

During the past season a large number of Physicians and eminent Chemists visited our Laboratory at Goshen, N. Y., and witnessed every detail connected with the production of Carnrick's Soluble Food. This invitation to witness our process is continuously open to Physicians and Chemists. All expenses from New York to Goshen and return will be paid by us. The care used in gathering the milk, its sterilization, and the cleanliness exercised in every step, cannot be excelled. Soluble Food has been improved by increasing the quantity of milk sugar and partially replacing the milk fat with cocoa butter.

Phospho-Caffein Comp.

(GRANULAR EFFERVESCING.)

A SEDATIVE, NERVE AND BRAIN FOOD.

This preparation has been thoroughly tested, and found to produce the happiest effects in Headaches, Neuralgia, Sleeplessness, and General Nervous Irritability. We are confident that the above combination will be found superior to any of the various preparations that are used in nervous affections. It is not only a nerve sedative, but a Brain and Nerve Food. The depressing effects of the sedative ingredients are fully overcome by its reconstructive constituents.

As a harmless and positive remedy in Headaches and Insomnia, we are certain it has no equal It is far more palatable than any of the preparations used for similar purposes.

PUT UP IN FOUR, EIGHT, AND THIRTY-TWO OUNCE BOTTLES.

REED & CARNRICK, New York.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion."—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **C. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years, is now imported into this market, and pronounced by connoisseurs unsurpassed for excellence and bouquet.

The utility of artificial legs and arms with rubber feet and hands is evidenced by the operations of over nine thousand men, women, and children distributed throughout the entire civilized world. Strange as it may seem, this army mingles with the vast populace and their misfortunes are lost to sight. Men engaged in all manner of vocations, manual, arduous, menial, on the farm, at the forge, in the mines, at the desk. Women attend to their household duties, whether in the kitchen, laundry, drawing-room, or parlor. Children wearing one or a pair of artificial limbs are no longer objects of pity and dependence; they indulge with other children in all manner of sports, they skate, ride the bicycle, romp and tumble about just as healthy and merry children should do.

One little fellow from Connecticut writes: "I can climb trees, play base-ball, and other out-door games as well as other 14-year-old boys."

A large illustrated book, containing 400 pages and over 200 illustrations, will be sent free to those needing artificial legs and arms, or to physicians and others interested.

This book gives instructions how to order and be fitted while the subject remains at home.

A. A. MARKS, 701 Broadway, New York City.

ESTABLISHED OVER 36 YEARS.

THE SUSTAINED SUPREMACY

OF

Fairchild's Pepsin,

In ACTIVITY, PERMANENCE and GENERAL EXCELLENCE

Has won for this product a wide use and recognition in all the principal markets of the world.

We guarantee it to be unchangeable, to maintain its activity and quality under all ordinary commercial conditions; it is therefore, by far the most available for the dispensing counter, as well as in the manufacture of every form of pepsin preparation.

Under exactly parallel conditions, with any proper percentage of acidity and with any proportion of such acidulated water to the albumen, Fairchild's pepsin is positively superior to any pepsin known.

It will, under absolutely comparative conditions, grain for grain, digest more albumen than any other pepsin made.

We will be pleased to send samples to any physician who may wish to ascertain for himself the relative activity of Fairchild's pepsin, or to submit it to any practical trial.

Prices and complete information upon application.

FAIRCHILD BROS. & FOSTER,

New York. Chicago. London.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

JOHN WYETH & BROTHER'S

Soluble Compressed Hypodermic Tablets.

Recent improvements in our Hypodermic Compressing Machines enable us now to manufacture these tablets entirely free from any foreign material, thus insuring immediate solution and

Freedom from all possibility of Local Irritation.

Put up in cases of 10 tubes, each tube containing 20 tablets. Also, in bottles of 100 each.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"The Mathey-Caylus Capsules, of the *Essence of "Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges, "Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck, "Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages.*"

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con- "gestive neuralgias*, and *painful and inflammatory Rheumatismal "affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting "of the 28th February, 1880.*

Dose—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

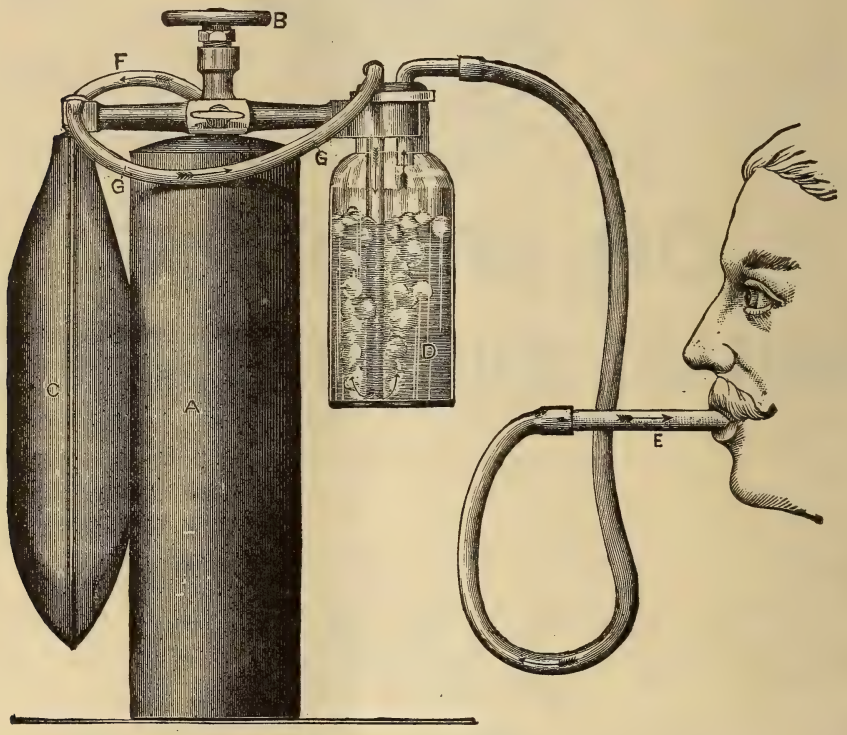
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

W. R. WARNER & CO'S

NEW AND RELIABLE RECIPES FOR PHYSICIANS PRESCRIBING.

In order to get the full therapeutic effects, physicians will please specify (WARNER & CO.) when ordering or prescribing.

☞The coating of the following pill will dissolve in 4½ minutes.☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.
Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½., Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid. 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc'l Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food.

Supplied upon physician's prescription by all leading druggists.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

Intestinal Diseases of Children.

"In Cholera Infantum," says Dr. Louis Starr, "the irritability of the stomach is a formidable barrier to alimentation; nevertheless, every effort must be made to give food in small quantities and at short intervals." Clinical experience, the only conclusive test, has proved the great efficacy in this disease, of MELLIN'S FOOD dissolved in water only and given cold, in small amount frequently repeated. "In MELLIN'S FOOD," says Dr. Eustace Smith, "the whole of the starch is converted into dextrine and grape sugar (properly maltose) so that the greater part of the work of digestion is performed before the food reaches the child's stomach." He also says, "I have never seen any signs of fermentation which I could attribute to the influence of maltose." As it is non-fermentable and so quickly assimilated, MELLIN'S FOOD is the best food for infants suffering from this complaint until convalescence has been sufficiently established to allow the regular diet to be resumed.

A sample of MELLIN'S FOOD will be sent to any physician, free of all expense, upon application

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" in **Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

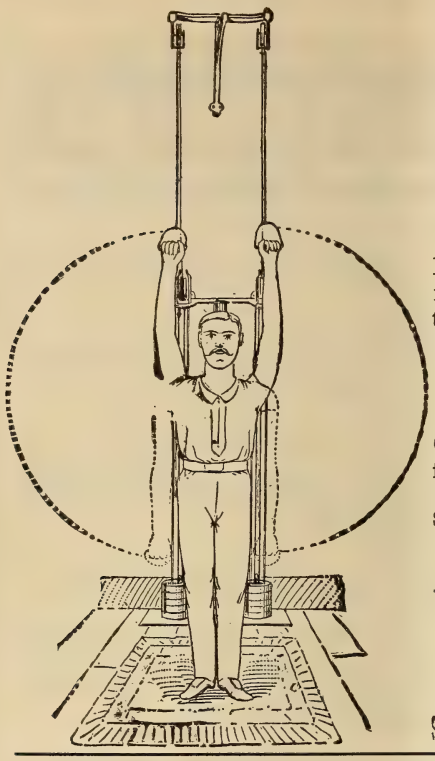
Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

RIO CHEMICAL CO., ST. LOUIS, MO., U. S. A.

LONDON, 16 Coleman St. CALCUTTA, 9 & 10 Dalhousie Square. PARIS, 5 Rue de la Paix. MONTREAL, 374 St. Paul St.



THE Medical Profession are cordially invited to visit our GYMNASIUM SHOWROOM containing over FIVE THOUSAND DOLLARS worth of apparatus for the advancement of physical culture.

Our O. K. Machine No. 2

Price, $10. Sent by Express to any part of the United States or Canada. No charge for casing.

Is endorsed by all Physicians who have seen it. It will develop any and every muscle of the body.

ADAPTED TO OLD AND YOUNG, MALE AND FEMALE.

We will mail our Manual of Physical Culture, together with complete catalogue, free on application.

SPECIAL DISCOUNT TO THE PROFESSION.

A. J. REACH & CO.,
1022 Market Street,
PHILADELPHIA.

SPORTING AND ATHLETIC GOODS OF EVERY DESCRIPTION.

No Chemicals.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

W. Baker & Co., Dorchester, Mass.

SVAPNIA

OR

PURIFIED OPIUM

FOR PHYSICIANS USE ONLY.

Contains the Anodyne and Soporific Alkaloids, Codeia, Narceia and Morphia.

Excludes the Poisonous and Convulsive Alkaloids, Thebaine, Narcotine and Papaverine.

SVAPNIA has been in steadily increasing use for over twenty years, and whenever used has given great satisfaction.

To PHYSICIANS OF REPUTE, not already acquainted with its merits, samples will be mailed on application.

SVAPNIA is made to conform to a uniform standard of Opium of Ten per cent. Morphia strength.

JOHN FARR, Manufacturing Chemist, New York.

C. N. CRITTENTON, Gen'l Agent, 115 Fulton St., N. Y.

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

NATIONAL MEDICAL COLLEGE.

COATS.

MADE OF BLEACHED DRILLING;
WILL NOT SHRINK IN WASHING.

$1.25 each; $7.00 per ½ Dozen.

Single Coats by Post, 15 cents additional.

HIRSH, FRANK & CO.,

31 North Third St., Philadelphia.

☞In ordering, send chest measure and length of sleeve from middle of back.

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.
CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.
SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.
FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.
WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.
JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.
FRANCIS T. MILES, M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.

L. McLANE TIFFANY, M.D.,
Professor of Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.
R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.
JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.
JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.
FRANCIS T. MILES, M.D.,
Professor of Physiology.
L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.

J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.
R. DORSEY COALE, PH.D.,
Professor of Chemistry.
JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.
CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.
AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D, Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

BUFFALO LITHIA WATER

IN THE

Uric Acid Diathesis, Bright's Disease of the Kidneys, Chronic Inflammation of the Bladder, &c.

Dr. THOMAS H. BUCKLER, of Paris (formerly of Baltimore), SUGGESTER OF LITHIA as a Solvent for URIC ACID.

"Nothing I could say would add to the **WELL-KNOWN REPUTATION OF THE BUFFALO LITHIA WATER. I HAVE FREQUENTLY USED IT WITH GOOD RESULTS IN URIC ACID DIATHESIS, RHEUMATISM AND GOUT,** and with this object I have ordered it to Europe from Coleman & Rogers, of Baltimore. Lithia is in no form so valuable as where it exists in the Carbonate (the form in which it is found in the **BUFFALO LITHIA WATER),** Nature's mode of solution and division in water which has passed through Lepedolite and Spondumine Mineral formation."

Dr. WM. A. HAMMOND, of New York, Surgeon-General U. S. Army (Retired), Professor of Diseases of the Mind and Nervous System in the University of New York, &c.

"I have for some time made use of the Buffalo Lithia Water in cases of affections of the **NERVOUS SYSTEM,** complicated with **BRIGHT'S DISEASE OF THE KIDNEYS** or with a **GOUTY DIATHESIS.** The results have been eminently satisfactory. Lithia has for many years been a favorite remedy with me in like cases, but the **BUFFALO WATER CERTAINLY ACTS BETTER THAN ANY EXTEMPORANEOUS SOLUTION OF THE LITHIA SALTS,** and is, moreover, better borne by the Stomach. I also often prescribe it in those cases of **CEREBRAL HYPERÆMIA** resulting from over-mental work—in which the condition called **NERVOUS DYSPEPSIA EXISTS**—and generally with marked benefit."

HUNTER McGUIRE, M.D., LL.D., Late Professor of Surgery, Medical College of Virginia, Richmond.

"**BUFFALO LITHIA WATER,** *Spring No. 2,* as an **ALKALINE DIURETIC,** *is invaluable.* In **URIC ACID GRAVEL,** *and, indeed,* in *diseases generally dependent* upon a **URIC ACID DIATHESIS,** *it is a remedy of extraordinary potency.* I have prescribed it in cases of **RHEUMATIC GOUT,** *which had resisted the ordinary remedies, with wonderful good results.* I have *used it also in my own case, being a great sufferer from this malady, and have derived more benefit from it than from any other remedy.*"

Dr. ROBERT BATTEY, of Georgia, SUGGESTER OF BATTEY'S OPERATION.

"I would state that I have been using the Buffalo Lithia Water, No. 2, in my practice for three years past, in cases of **CHRONIC INFLAMMATION** of the **BLADDER,** whether induced by **STONE,** by enlarged **PROSTATE** in the aged, or by **NEGLECTED GONORRHŒA, AND HAVE SECURED EXCELLENT RESULTS,** which encourages me to prescribe it for the future."

Dr. CYRUS EDSON, of New York,
Chief Inspector of Cutaneous Diseases in Health Department and President of the Board of Pharmacy.

"I have frequently made use of **BUFFALO LITHIA WATER,** Spring No. 2, in my practice, *with excellent results.* It is a potent remedy in correcting **RHEUMATIC DIATHESIS.** In a case of **URIC ACID GRAVEL,** in which I recently prescribed it, **ITS BENEFICIAL EFFECTS WERE APPARENT AFTER THE THIRD DOSE.** I have also prescribed it with great benefit in **BRIGHT'S DISEASE OF THE KIDNEYS."**

Water in Cases of one dozen half-gallon Bottles, Five Dollars per Case, at the Springs.

THOMAS F. GOODE,

PROPRIETOR,

BUFFALO LITHIA SPRINGS,

VIRGINIA.

UNPRECEDENTED SUCCESS.

LENTZ'S COMPACT OPERATING SET No. 10.

From July, 1887 to July 1889 (Two Years), we have sold 737 of our No. 10 Operating Sets.

No other surgical set has ever had so large a sale in so short a time. It has been sent to all parts of the world and has given entire satisfaction, as the quality and finish of the instruments cannot be excelled, or the low price met, by any other manufacturer.

We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired:

One Amputating Knife (6-inch blade).
One Finger Knife. One Hernia Knife.
One Sharp Curved Bistury.
Two Scalpels.
One Tenotome. One Tenaculum.
One Pair Scissors, curved or flat.
One Saw, 9-inch blade.
One Liston's Bone Forceps, with Spring.
One Artery and Needle Forceps, improved.
One Hæmostatic Forceps.
One Esmarch's Flat Rubber Tourniquet, with Chain.
One Director, with Aneurism Needle.
Two Silver Probes.
Silk, Wire, Wax and Needles.

With the sixteen instruments contained in this case any ordinary operation may be performed. Size, 11 inches long, 4 inches wide, 2 inches high.

A.—German Silver aseptic Handles on Knives and Saw,	**$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw,	**29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration),	**25 00**
Either set, with Trephine and Elevator in addition,	**4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS.

Our Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

Customers desiring special cases, should write for estimates; those having instruments, whether in case or not, can have them put in first-class order, add to them any new instruments wanted and have all fitted in a case.

We have many styles of Operating Cases constantly in stock, at prices ranging from $25.00 to $100.00

CORRESPONDENCE SOLICITED.

CHARLES LENTZ & SONS,

Manufacturers of Surgical and Orthopædic Apparatus.

ESTABLISHED 1866. 18 North Eleventh Street, Philadelphia.

Doctor:

You have many cases of nervous debility to treat.

Some of them are merchants who worry over their business affairs; lawyers, teachers and ministers who do a great deal of brain work, and women worn out with the cares of the family. Others are men suffering from sexual weakness, spermatorrhœa, or other forms of sexual drain.

They are coming home now from seashore and mountain, where they have been vainly seeking the restoration they thus far have failed to find. You dread to see them coming, because it only means another ceaseless round of those irritant stimulant and "tonic" remedies, which, instead of curing them, act like a whip to the wearied horse, only goading them on to hopeless incurability.

Now let us give you a secret by which you may cure these cases.

Instead of stimulating them, *feed up* the exhaustive nerve tissue with the true tissue food, McArthur's Chemically Pure Syrup of the Hypophosphites of Lime and Soda.

The treatment will be restful and refreshing, and improvement will be manifest at once and permanent cure will result from steady, persistent use of the remedy. In the few special cases calling for temporary use of other remedies they can be combined in the same prescription with the Syrup. But the Syrup should be continued, month after month, until a cure has resulted.

Remember, all forms of nerve exhaustion are amenable to this treatment.

Think how much your reputation will be enhanced and your practice increased by this timely means. The great Niemeyer attributed the rapid growth of his practice to a successful prescription for anemia, for which patients used to come from great distances.

No one has yet been disappointed with McArthur's Syrup.

It is the only one containing the chemically pure hypophosphites of lime and soda without other irritant so-called tonics.

It is specially indicated also in Tuberculosis and Scrofulosis, where it builds up the tissue walls and rapidly and permanently restores the health. Also in Rachitis, Chronic Cough, Chronic Bronchitis, Alcoholism, Pregnancy and Lactation to build up the child's system through the mother, Teething, Chronic Diarrhea, Suppurating Discharges and Sores, Uterine Fibroids, and all disorders of waste or faulty nutrition.

Write your prescription thus:

Syr: Hypophos: Comp: McArthur: 1 Bottle.

A valuable book, "Curability of Consumption," sent free. A large bottle sent ree if you will pay express.

McARTHUR HYPOPHOSPHITE CO.,

BOSTON, MASS.

BUFFALO LITHIA WATER

IN THE TREATMENT OF CHRONIC GASTRIC CATARRH

CLINICAL REPORTS.

CHRONIC GASTRIC CATARRH AND URIC ACID CALCULI.

A case stated by Dr. JNO. C. COLEMAN, of Scottsburg, Va., a retired Surgeon of the U. S. Navy.

"Mr. C. was for a number of years a sufferer from **CHRONIC GASTRIC CATARRH.** While his diet *was exclusively* **TEA** and **CRACKERS, BREAD** and **MILK,** *and other similar articles,* it was frequently thrown off in an undigested state soon after taking it, and at times he discharged from an empty stomach a strongly acid glairy mucus. A marked **URIC ACID DIATHESIS** supervened, consequent upon which he suffered for a period of some two years great **VESICAL IRRITATION** and possible **CYSTITIS,** attended by pain so intense and constantly present, as to require that he should be kept for the most part under the influence of opiates. After a persistent, but ineffectual exhibition of all remedies supposed to be indicated in the case, he was put for the latter affection upon the **BUFFALO LITHIA WATER,** Spring No. 2, with the happiest possible effect.

"In a few weeks, after commencing the use of it, the irritable condition of the *Bladder* was so far relieved that he was enabled to dispense entirely with the use of opiates. At the expiration of some eight weeks he had an attack of unusual severity, from which he was relieved by the discharge of a **CALCULUS,** followed at short intervals by the discharge of three others, which proved to be the termination of this trouble, as from that time there was entire subsidence of the painful symptoms described, and the *Bladder* resumed its natural state.

"While prescribed with special reference to the relief of the *Irritable Bladder*, the action of the water was not less surprisingly happy in the **GASTRIC AFFECTION,** with remarkable promptness correcting the highly acid condition of the **STOMACH,** restoring a healthy digestion and assimilation, and *tone* and *vigor* to the depressed *Nervous System.*

"In a few months he was able to eat, with perfect impunity, the coarsest articles of diet. He is now, after a lapse of several years, in robust health, having had no return of these painful maladies."

CHRONIC GASTRIC CATARRH.

Case of JOHN P. KEELING, Esq., stated by Dr. S. S. KEELING, Norfolk, Va., Member Medical Society of Virginia.

"Mr. John P. Keeling labored under **CHRONIC DYSPEPSIA,** and was always subject to attacks of *Spasmodic Gastralgia* immediately upon taking food into the stomach, which attacks were not at all amenable to treatment. Not unfrequently the stomach *rejected everything in the way of food and drink,* and he was of necessity confined to the lightest possible articles of diet, *meat and vegetables being entirely excluded.* He became so prostrated that it was with difficulty he could walk across his chamber floor, and had often to be lifted about. Such was the state of his **NERVOUS SYSTEM** *that great solicitude was felt as to his mental condition.*

"He visited Baltimore for medical aid, and was for many months under the treatment of some of the most eminent men of the profession in that city, but without beneficial result, and was finally advised that he had nothing to hope from remedies.

"Returning in an extremely critical condition to his home in the county of Princess Anne, he came under my professional care. Satisfied that medicine was unavailing in the case, I advised the **BUFFALO LITHIA WATER,** Spring No. 2. His stomach, however, was in a highly irritable condition, and I found it necessary to administer it in very small quantities; and it was at first given not exceeding an ounce at a dose, repeated at stated intervals. At the expiration of the third day the irritability of the stomach was decidedly less, and the quantity was then increased from day to day until the thirteenth day, when I found that the patient could take twelve ounces, which I regard as maximum dose at any time. Persisting in its use, on the twenty-eighth day he was free from pain, the stomach in a normal condition readily receiving both solids and liquids in moderate quantities, strength greatly increased, and nervous symptoms entirely relieved. At the expiration of the seventh week he was able to attend actively and regularly to his business on the farm. His recovery, which I regard as one of the most remarkable I ever knew of, I attribute entirely to the **BUFFALO LITHIA WATER."**

GASTRO-INTESTINAL CATARRH.

Case of Mrs. Dr. F. J. GREGORY, of Virginia, reported by F. J. GREGORY, M.D., Keysville, Va.

"For eighteen months my wife, aged forty-one years, was a sufferer from a **GASTRO-INTESTINAL CATARRH,** which resisted my best-directed efforts at relief. The taking of the smallest quantity of the most easily-digested food on the stomach would produce an attack of *nausea and vomiting, the severity of which is seldom witnessed,* and when the stomach was free of food she would have attacks of *Gastralgia of the most excruciating nature.* She also suffered from habitual constipation, and at times with hemorrhages from the bowels. I pursued the usual line of treatment, such as simple bitters, Dilute Hydrocyanic Acid, Bismuth, etc., and called to my help two of the most skilled physicians in Southside Virginia, who supplemented my treatment with some of the newer drugs, such as **EFFERVESCING BICARB. POTASS. LACTOPEPTINE, CARLSBAD MINERAL SALTS,** etc., but with no benefit, and so her condition went on from bad to worse *until death seemed almost imminent from inanition.* I then put her on a milk diet with a glass of **BUFFALO LITHIA WATER,** Spring No. 2, every hour or so during the day, and *after the use of the first bottle improvement was marked, and before a case of it was used I regarded her cure as complete.* It has been nearly two years since, and there has been only one slight recurrence, which was a few days since, and it readily disappeared on the use of the water for a few days."

Water in cases of one dozen half-gallon bottles, $5 per case, at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA.

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

{Quiniæ Valerianat, ... 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.}

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

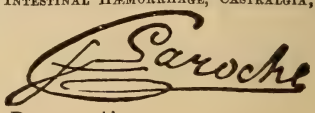
FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.



E. FOUGERA & CO., New York,

Sole Agents for the United States for the above Preparations.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Commence Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa

is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

W. Baker & Co., Dorchester, Mass.

ONEITA

No water known more fully embodies the medicinal virtues of the best mineral waters and yet is so agreeable, pure, clear, sparkling and exhilarating a table water. It is recommended by physicians as the best known water for Dyspepsia, Rheumatism, Gout and Kidney troubles.

For circulars, etc., address,

ONEITA SPRING CO,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

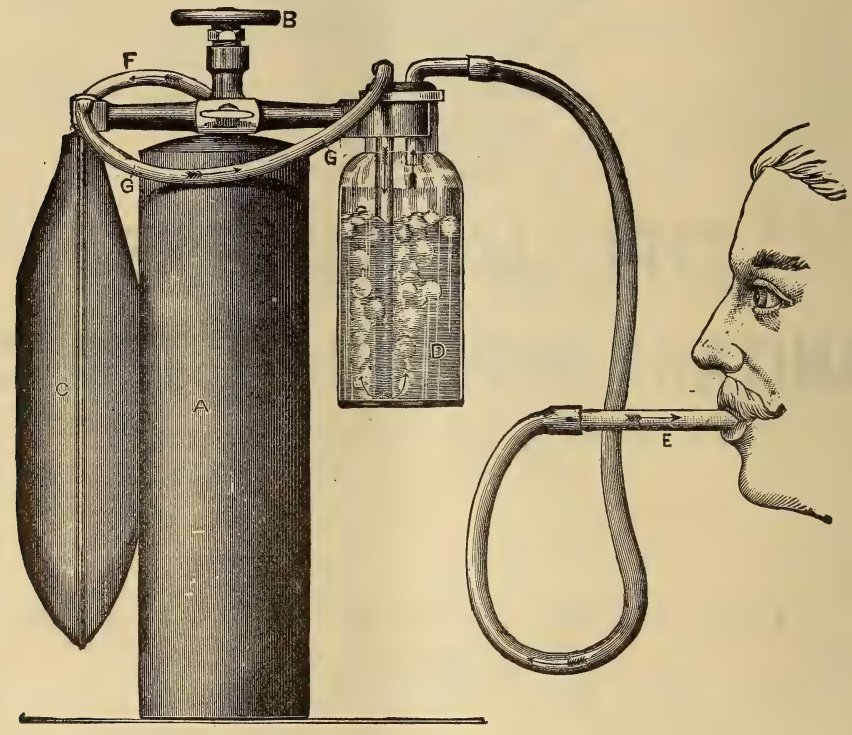
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

CALIFORNIA VINTAGE CO.

21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

MODEL LEDGER.

As the stock of Model Ledgers for Physicians is diminished the price has been ADVANCED to **$5.00.** It ought never to have been less. If you want one send to

PUBLISHER of

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843. Philadelphia.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

"SECURUS JUDICAT ORBIS TERRARUM."

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia) during the year 1887 amounted to **11,894,000 Bottles**

and during the year 1888 to **12,720,000 Bottles**

Sole Exporters: THE APOLLINARIS CO., Limited

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" in **Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

SPORTING AND ATHLETIC GOODS OF EVERY DESCRIPTION.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

IMPORTANT ANNOUNCEMENT.

I WISH TO INFORM THE

MEDICAL PROFESSION

THAT

CHARLES LENTZ & SONS,

No. 18 North 11th St., Philadelphia,

The well-known Manufacturers of Surgical Instruments, have been appointed agents for "GORDON'S VAGINAL IRRIGATOR," and will supply physicians at manufacturers' prices.

All goods sent by mail or express prepaid on receipt of price.

Irrigator only $2.75
Reservoir with cover, 6 ft. tube and cut off (by ex.) 1.40
Or a good rubber Bulb Syringe 1.00

The Irrigator will fit most kinds of syringes; so neither Reservoir or Syringe will be sent unless specially ordered. To those who have not used the Instrument, I will say: It is the only instrument yet devised that the Patient can use while in the recumbent position, without Wetting or Soiling Clothing or Bedding. The Tampon that occludes the vaginal orifice is filled with air; hence no heat comes in contact with the external genitals. The late Dr. Field, of Bangor, used water, at 130° F., to control an obstinate hemorrhage, without discomfort to the Patient. Since 1885 its sale has steadily increased, and of 2,000 sold only two have been returned; yet all were sold with the guarantee that if not perfectly satisfactory after one week's use, they were to be returned.

I caution the trade against offering for sale any imitation of this instrument; as all such are infringements on letters patent granted the subscriber. Upon request I will send references, in most any part of the U. S., of those who are using this instrument. I am, respectfully, G. T. BLANCHARD, Successor to Gordon & Blanchard, PLYMOUTH, MAINE.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

STRYKER & OGDEN,

Walnut and 13th Streets, Philadelphia.

PHYSICIANS' OFFICE AND OPERATING

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D, LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D, Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden)."* A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card.

NEW MEDICAL BOOKS.

THE DISEASES OF CHILDREN, MEDICAL AND SURGICAL.

By HENRY ASHBY, M. D., London, M. R. C. P., Physician to the General Hospital for Sick Children, Manchester, and G. A. WRIGHT, B. A., M. B., Oxon., F. R. C. S., Eng., Assistant Surgeon to the Manchester Royal Infirmary and Surgeon to the Children's Hospital. With 138 illustrations. Octavo, pp. xx, 681. Cloth, $6.00.

THE DIAGNOSIS AND TREATMENT OF DISEASES OF WOMEN, INCLUDING THE DIAGNOSIS OF PREGNANCY.

By GRAILY HEWITT, M. D., Emeritus Professor of Obstetric Medicine, University College, and Obstetric Physician to the Hospital. New Edition, being the Fourth, in great part re-written and much enlarged, with 211 Engravings on Wood, of which 79 are new in this Edition. 8vo. $6.00.

LECTURES TO PRACTITIONERS ON THE DISEASES OF THE KIDNEY AMENABLE TO SURGICAL TREATMENT.

Copiously illustrated by Cases, Statistics and Preparations. By DAVID NEWMAN, M. D., Surgeon to the Western Infirmary (Outdoor Department); Lecturer on Pathology at the Glasgow Royal Infirmary, etc. 8vo. $5.50.

Messrs. Longmans, Green & Co. will be happy to send their Medical Catalogue upon application.

FELLOWS'

HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

Circulars sent to Physicians on Application.

FOR SALE BY ALL DRUGGISTS.

UNPRECEDENTED SUCCESS.

LENTZ'S COMPACT OPERATING SET No. 10.

From July, 1887 to July 1889 (Two Years), we have sold 737 of our No. 10 Operating Sets.

No other surgical set has ever had so large a sale in so short a time. It has been sent to all parts of the world and has given entire satisfaction, as the quality and finish of the instruments cannot be excelled, or the low price met, by any other manufacturer.

We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired:

One Amputating Knife (6-inch blade).
One Finger Knife. One Hernia Knife.
One Sharp Curved Bistury.
Two Scalpels.
One Tenotome. One Tenaculum.
One Pair Scissors, curved or flat.
One Saw, 9-inch blade.
One Liston's Bone Forceps, with Spring.
One Artery and Needle Forceps, improved.
One Hæmostatic Forceps.
One Esmarch's Flat Rubber Tourniquet, with Chain.
One Director, with Aneurism Needle.
Two Silver Probes.
Silk, Wire, Wax and Needles.

With the sixteen instruments contained in this case any ordinary operation may be performed. Size, 11 inches long, 4 inches wide, 2 inches high.

A.—German Silver aseptic Handles on Knives and Saw, - -	$34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, - - -	29 00
C.—Ebony Handles on Knives and Saw (as shown in illustration), -	25 00
Either set, with Trephine and Elevator in addition, - - -	4 65

DISCOUNT 25 PER CENT. TO PHYSICIANS.

Our Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

Customers desiring special cases, should write for estimates; those having instruments, whether in case or not, can have them put in first-class order, add to them any new instruments wanted and have all fitted in a case.

We have many styles of Operating Cases constantly in stock, at prices ranging from $25.00 to $100.00

CORRESPONDENCE SOLICITED.

CHARLES LENTZ & SONS,

Manufacturers of Surgical and Orthopædic Apparatus.

ESTABLISHED 1866. 18 North Eleventh Street, Philadelphia.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

THE SUSTAINED SUPREMACY

OF

Fairchild's Pepsin,

In ACTIVITY, PERMANENCE and GENERAL EXCELLENCE

Has won for this product a wide use and recognition in all the principal markets of the world.

We guarantee it to be unchangeable, to maintain its activity and quality under all ordinary commercial conditions; it is therefore, by far the most available for the dispensing counter, as well as in the manufacture of every form of pepsin preparation.

Under exactly parallel conditions, with any proper percentage of acidity and with any proportion of such acidulated water to the albumen, Fairchild's pepsin is positively superior to any pepsin known.

It will, under absolutely comparative conditions, grain for grain, digest more albumen than any other pepsin made.

We will be pleased to send samples to any physician who may wish to ascertain for himself the relative activity of Fairchild's pepsin, or to submit it to any practical trial.

Prices and complete information upon application.

FAIRCHILD BROS. & FOSTER,

New York. Chicago. London.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by Dr. Geo. W. McDade, exclusively for Eli Lilly & Co., and endorsed by Dr. J. Marion Sims.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and *never in bulk.*

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica**, as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power. The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills**, a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation**, there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks**, or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions**, the result of excesses, **mental apathy**, or indifference, and in an **enfeebled condition of the general system**, with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organs** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic**, and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea,** and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

ELI LILLY & CO., **PHARMACEUTICAL CHEMISTS, INDIANAPOLIS, IND., U. S. A.**

SUPPLIED BY ALL DRUGGISTS.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

DRUGGISTS AND HOSPITALS SUPPLIED.

No Chemicals.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa

is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

W. Baker & Co., Dorchester, Mass.

ONEITA

The "perfection of table waters," and as a medicinal water far superior to any other known table water. Rheumatism, Gout, Dyspepsia, Kidney and Liver troubles are cured by its use. Recommended by leading physicians as possessing greater medicinal virtues than any other water.

For circulars, etc., address,

ONEITA SPRING CO,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

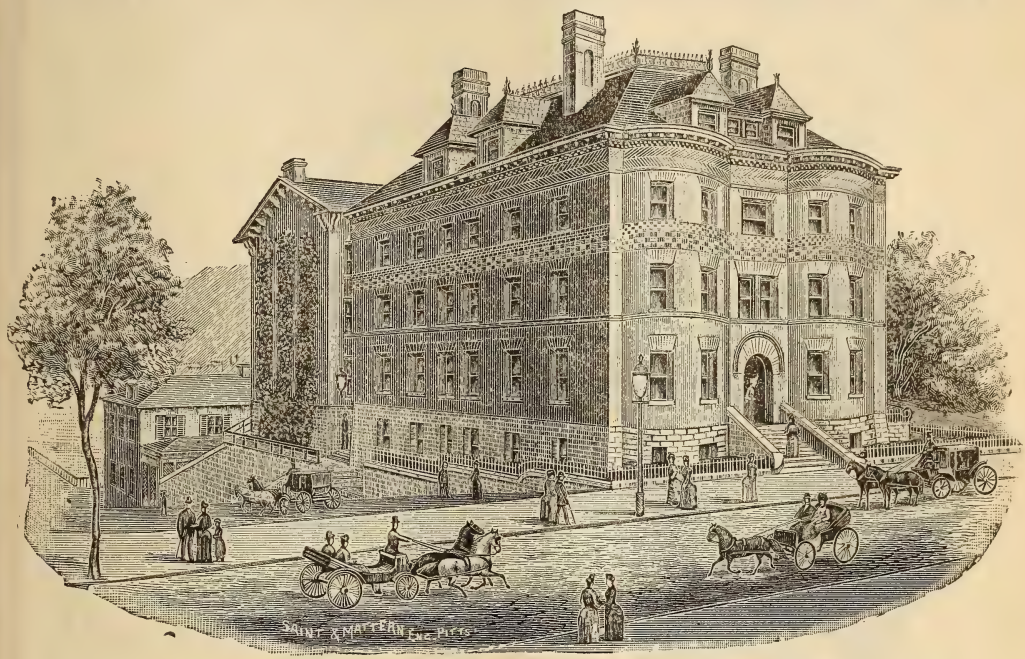
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

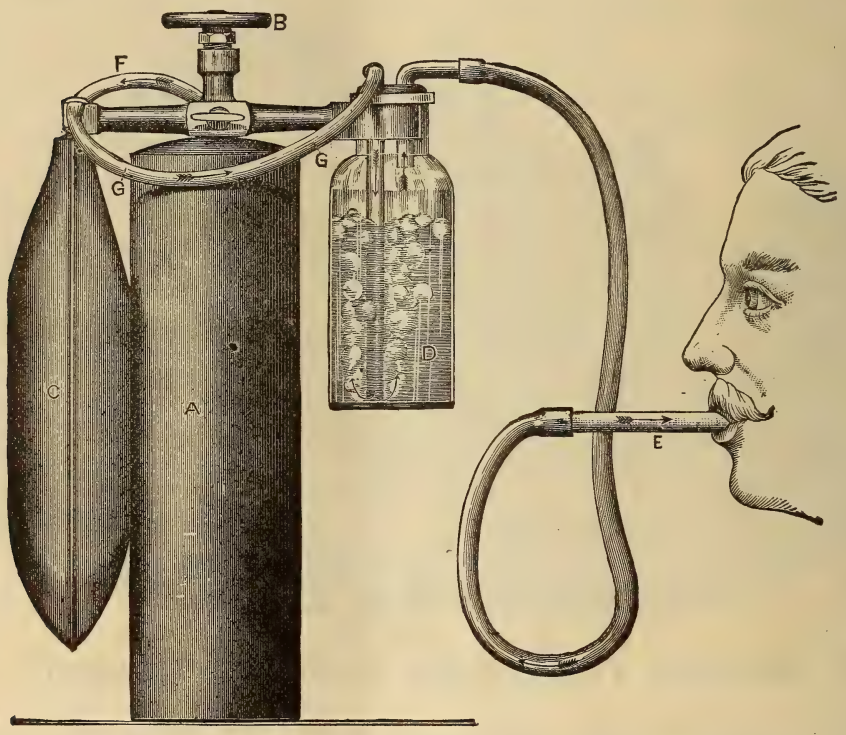
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

21 Park Place N.Y.

Geo Hamlin Prest Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

CONCENTRATED EXTRACT

TRIFOLIUM COMPOUND.

Formula, EDWIN F. RUSH, M. D.

ONE BOTTLE MAKES THREE TO SIX PINTS OF SYRUP.

A SCRAP OF HISTORY.

The formula for Trifolium Compound was originated by Edwin F. Rush, M. D., now of Chicago, but formerly resident physician at Hot Springs, Ark. The combination was used in the form of a concentrated extract, diluted with water or syrup, of full strength, as occasion required. When first introduced to the profession by another manufacturer the wishes of Dr. Rush were disregarded, and it was offered in the form of a syrup, *weak in medicinal strength*, and therefore *unreliable as a medicinal agent*, on account of the very large dose necessary to produce the required therapeutic effect.

The sale of the weak syrup has been discouraged by the medical profession, as the aim of the manufacturers appears to have been to push its sale as a "patent medicine" direct to the general public. Dr. Rush has very properly withdrawn the use of his name and formula from such an unprofessional article, and assigned to the Wm. S. Merrell Chemical Co. *the sole right* to use his original formula and his name in connection therewith.

EXTRACT TRIFOLIUM COMP.—Merrell.

—Concentrated.—

$1.25 per Bottle. $12.00 per Dozen.

MAKE YOUR OWN SYRUP AS WANTED.

FORMULA—Concentrated Syrup Trifolium Comp.

℞ Ext. Trifolium Co.—Merrell..... .....Four fl. ounces.
Essence Wintergreen.....One fluid ounce.
Simple Syrup.....Eleven fluid ounces.

FORMULA No. 2—Syrup Trifolium Comp.—Strength of the Commercial Syrup.

℞ Ext. Trifolium Co.—Merrell.....Two fluid ounces.
Essence Wintergreen..... .....One fluid ounce.
Simple Syrup.....Q. S. to make 1 pint.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea, suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them:

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)

WANTED

ONE PHYSICIAN ONLY,

In every Town and City, to introduce a new apparatus and improved method of treating Catarrh, Throat and Lung Affections.

Strictly Professional. No Competition.

For particulars address,

MOORE-McGREGOR MEDICATION,
P. O. Box 671, CINCINNATI, O.

College of Physicians and Surgeons of Baltimore, Md.

The Preliminary Course will begin September 15th, 1889. The Regular Session will open October 1st, 1889, and close about March 15th, 1890.

For catalogue containing full information, address
THOMAS OPIE, M. D., Dean,
N. W. Cor. Calvert and Saratoga Sts., Baltimore, Md.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.

The PRELIMINARY SESSION begins September 18th, 1889.

The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D, LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D, Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to
DR. JAMES TYSON, Dean,
36th and Woodland Avenue, Philadelphia.

New York Polyclinic and Hospital

A Clinical School for Graduates in Medicine and Surgery.

DIRECTORS:

PROF. FORDYCE BARKER, M. D., LL. D.
THOMAS ADDIS EMMET, M. D., LL. D.
PROF. T. GAILLARD THOMAS, M. D.
PROF. ALFRED L. LOOMIS, M. D., LL. D.

SAMUEL RIKER, ESQ.

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,

Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,

214, 216 & 218 East 34th Street, New York City.

BUFFALO LITHIA WATER

IN THE TREATMENT OF

ALBUMINURIA, WHETHER OF BRIGHT'S DISEASE, PREGNANCY, OR SCARLET FEVER.

Dr. WM. B. TOWLES, Professor of Anatomy and Materia Medica in the Medical Department of the University of Virginia.

"BUFFALO LITHIA WATER, No. 2, belongs to the ALKALINE or, *perhaps, to the* ALKALINE-SALINE Class, *for it has proved far more efficacious in many diseased conditions than any of the simple* ALKALINE *waters.*

. . . . . .

"*Its effects are marked in causing a disappearance of* ALBUMEN *from the Urine.* In a single case of BRIGHT'S DISEASE OF THE KIDNEYS I witnessed *decided beneficial results from its use, and from its action in this case I should have great confidence in it as a remedy in certain stages of the disease.*"

Dr. GRAEME M. HAMMOND, of New York, Professor of Diseases of the Mind and Nervous System in the New York Post-Graduate Medical School and Hospital.

"In *all* cases of BRIGHT'S DISEASE of the KIDNEYS I have found BUFFALO LITHIA WATER *of the greatest service in increasing the quantity of urine and in eliminating the* ALBUMEN."

Dr. GEORGE W. MILTENBERGER, Professor of Obstetrics, University of Maryland,

Before the Medical and Chirurgical Faculty of the State of Maryland, recommended BUFFALO LITHIA WATER as an ALKALINE Diuretic in ALBUMINURIA of PREGNANCY.—See *Trans. Faculty of State of Maryland*, 1886.

Dr. WM. H. DOUGHTY, Professor of Materia Medica and Therapeutics, Medical College of Georgia; Member of American Medical Association, etc.

"Over the NAUSEA AND VOMITING OF PREGNANCY, PARTICULARLY IN THE LATTER MONTHS, WHERE URÆMIC CONDITIONS are possibly established, and in PUERPERAL CONVULSIONS, URÆMIA CO-EXISTING, BUFFALO LITHIA WATER often exerts *marked control.*"

Dr. CALEB WINSLOW, 23 McCulloh Street, Baltimore, Member of the Medical and Chirurgical Faculty of Maryland.

"I have found the BUFFALO LITHIA WATER, Spring No. 2, of marked service in relieving the *Nausea* of *Pregnant Women.* I frequently resort to it at intervals *during the whole course of Pregnancy.* Being *antacid, laxative, diuretic, and tonic, it seems well adapted to relieve the disturbances usually attendant upon Gestation, and I have no doubt its free use might remove* URÆMIC POISON, *and prevent Convulsions produced thereby.*"

Dr. JOS. HOLT, New Orleans, President Board of Health, State of Louisiana.

"I have prescribed BUFFALO LITHIA WATER freely in affections of the *Kidneys* and *Urinary* passages, particularly in GOUTY *subjects*, in ALBUMINURIA, and in irritable conditions of the *Bladder* and *Urethra* in *females.* The results have been such as to satisfy me *of the extraordinary value of this Water in a large class of cases usually most difficult to treat.*"

Dr. JAMES B. McCAW, Professor of the Practice of Medicine in the Virginia Medical College.

[Extract from the Proceedings of the Richmond Academy of Medicine, October 15, 1878.]

"Dr. McCaw also spoke of the great value of BUFFALO LITHIA WATER in ALBUMINURIA of *Scarlet Fever* and in ALBUMINURIA of *Pregnant Women.*"

Dr. J. T. DAVIDSON, New Orleans, La., ex-President New Orleans Surgical and Medical Association.

"I have for several years prescribed BUFFALO LITHIA WATER, Spring No. 2, in all cases of *Scarlet Fever*, directing it to be drunk *ad libitum, with the effect of relieving all traces of* ALBUMEN *in the urine*, and have found it equally efficacious in renal diseases requiring the use of alkaline water."

Dr. G. W. SEMPLE, Hampton, Va., President Medical Society of Virginia.

"In SCARLET FEVER I have known BUFFALO LITHIA WATER *restore a healthy and abundant secretion of Urine, when it was highly charged with* ALBUMEN *and the secretion almost suppressed.*"

Dr. MARTIN L. JAMES, of Richmond, Va., Professor of Materia Medica and Therapeutics, Medical Society of Virginia.

[Proceedings of the Richmond, Virginia, Academy of Medicine, December 16, 1880.]

"The President of the Academy, Dr. M. L. James, reported a case of *Congestion* of the *Kidneys* in a lady eight months advanced in *Pregnancy, attended by marked Œdema*, both over the extremities and surface, and by URÆMIC POISONING *to such an extent as very seriously impaired the vision of the patient*, relieved by the free use of this Water for three weeks.

"Other remedies, he stated, were used in these cases, *but the favorable results seemed clearly attributable to the action of the Water.*"

Dr. HARVEY L. BYRD, of Baltimore, President and Professor of Obsetrics and Diseases of Women and Children in the Baltimore Medical College, formerly Professor of Practical Medicine, etc.

"I have prescribed BUFFALO LITHIA WATER with the most satisfactory results, both as a *remedy* and *prophylactic* in the *Parturient* or *Pregnant Puerperal Eclampsia* or *Convulsions; and I may say that I know of no remedy of equal efficacy with the Water of Spring No. 2 in Sequelæ of Scarlatina.*

"It has an *ascertained value* in BRIGHT'S DISEASE. *A knowledge of its action in that disease thus far would seem* to warrant the belief that it would, in many instances, *at least in its early stages, arrest it entirely, and in its more advanced stage prove a decided comfort and palliative.*

Water in cases of one dozen half-gallon bottles, $5.00 per case at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA.

Doctor:

How are those cases of Tuberculosis and Scrofula coming on?

By the way, did you ever think of the similarity in the lesions created by these two diseases—disintegration and breaking down of the tissue walls?

Now, what must be the obvious remedy? Not irritant and stimulant tonics, as iron, arsenic, etc. They only increase the force of pressure brought to bear against these same tissue walls, and cause them the sooner to give way, producing hemorrhages, extravasations, etc.

The true and unfailing remedy will be found in the genuine tissue builders, as prepared in McArthur's Compound Syrup of the Hypophosphites of Lime and Soda. Each atom finds its way unerringly to its place in the tissue walls, until they are built up so strong as to resist hemorrhages, extravasations, diapedesis and excessive perspiration. From this time on the improvement is rapid, and may be continued until the cure is permanent.

The individual may thus be built up until he is no more liable to a return of the disease than one who has never yet had it. The teachings of Salisbury and Churchill announce these truths and the clinical experience of a few observant physicians confirm them.

The point of superiority in McArthur's Syrup is that the Hypophosphites are *chemically pure*, which is so very rare in such preparations.

One of the first effects produced by the use of our Chemically Pure Hypophosphites is a general increase of nervous energy, with a feeling of ease and comfort.

The second effect is an increase of appetite; digestion is improved, and the bowels become regular in their action, the quantity and color of the blood is increased, respiration is controlled, a better expansion of the chest is observed, cough improves, easy expectoration is produced, night perspiration diminishes, the face becomes fuller, the lips red, the nails and hair grow, and in children the teeth, showing the importance of the Hypophosphites on the organ of nutrition.

Their use is also indicated in all wasting discharges, Nerve Exhaustion, Brain Fatigue, Impotence, Spermatorrhœa, Tabes Dorsalis and Mesenterica, Chronic Bronchitis and Cough, Diarrhœa, Uterine Fibroids, and all diseases characterized by waste and faulty nutrition.

Physicians when prescribing will please write thus:

℞ Syr: Hypophos: Comp: McArthur. One Bottle.

As it is made *only for physicians* there are no printed wrappers or advertisements about the bottle.

A valuable treatise on the "Curability of Consumption" sent free. A large bottle free if you will pay express charges.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

SVAPNIA

OR

PURIFIED OPIUM

FOR PHYSICIANS USE ONLY.

Contains the Anodyne and Soporific Alkaloids, Codeia, Narceia and Morphia.
Excludes the Poisonous and Convulsive Alkaloids, Thebaine, Narcotine and Papaverine.

SVAPNIA has been in steadily increasing use for over twenty years, and whenever used has given great satisfaction.

To PHYSICIANS OF REPUTE, not already acquainted with its merits, samples will be mailed on application.

SVAPNIA is made to conform to a uniform standard of Opium of Ten per cent. Morphia strength.

JOHN FARR, Manufacturing Chemist, New York.

C. N. CRITTENTON, Gen'l Agent, 115 Fulton St., N. Y

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

PHILADELPHIA, PA.

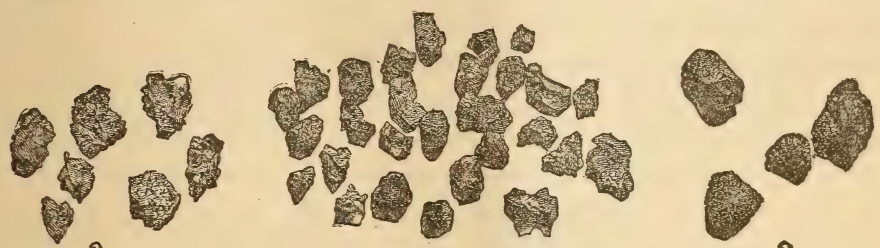
Buffalo Lithia Water

In the TREATMENT OF URINARY DEPOSIT.

Case of Dr. B. J. WEISTLING, of Middleton, Pa., stated by himself.

"Experience in its use in **STONE in the BLADDER** in my own person enables me to attest the efficacy of the **BUFFALO LITHIA WATER** in this painful malady. After having been long subjected to sufferings, the intensity of which cannot be described, I have, under the influence of this Water, passed an ounce of **CALCULI (URIC ACID)**, some of which weighed as much as four grains, affording inexpressible relief and leaving me in a condition of comparative ease and comfort.

"On one occasion I passed thirty-five **CALCULI** in forty-eight hours. The appearance of these **CALCULOUS NUCLEI** indicates unmistakably, I think, that they were all *component particles of one large* **CALCULUS** *destroyed by the action of the Water, by means of solution and disintegration.* At my advanced period of life (I am seventy-seven years and six months of age), and in my feeble general health, a surgical operation was not to be thought of, and the Water seems to have accomplished all that such an operation, if successful, could have done."



[The above plate is from a photograph, and represents the exact size and shape of some of the Calculi passed by Dr. Weistling. They were preserved by his son, Dr. J. Weir Weistling.]

Case stated by Dr. G. HALSTED BOYLAND, late Professor of Surgery, Baltimore Medical College, Member American Medical Association.

"The case of Mr. C., which came under my observation as Resident Physician at the Springs during the season of 1884, affords undoubted evidence that Buffalo Lithia Water is a **SOLVENT** *for Urinary Deposit*, commonly known as **STONE in the BLADDER.** He was operated upon for **STONE**, the operation affording but partial and temporary relief. A year afterward he visited the **BUFFALO LITHIA SPRINGS**, at the same time passing small quantities of a *Urinary Deposit*, of the **TRIPLE PHOSPHATE of AMMONIA** and **MAGNESIA VARIETY**, and his sufferings such as required that he should be kept constantly under the influence of opiates. In some eight weeks the solvent properties of the Water *were evident in the diminished consistency of the deposit, the increased quantity discharged, and by its change from Concrete Lumps to fine Sand*, which he discharged to the amount of *Four Ounces.* After a time, however, the quantity gradually diminished, and finally ceased, and he left the Springs *with the deposit dissolved* and *washed out of the system*, and the *Diathesis fons et origi morbi* altered. There had been a disappearance of the attending distressing symptoms, and great improvement in his general condition."

Dr. MARTIN L. JAMES, of Richmond, Va., Professor of Materia Medica and Therapeutics, Medical Society of Virginia.

[Proceedings of the Richmond, Virginia, Academy of Medicine, December 16, 1880.]

"The President of the Academy, Dr. M. L. James, reported three cases of marked **URIC ACID DIATHESIS** successfully treated by the Water of Spring No. 2 of the **BUFFALO LITHIA SPRINGS** of Virginia. In one of these patients there were, as a result of this Diathesis, **SANDY DEPOSITS** in the *Urine, Inflammation of the Kidneys, Irritability of the Bladder, and Hæmaturia*, and, finally, the passage of a **CALCULUS** of the size of a cherry, formed on a blood-clot as a nucleus. In another case there were frequent attacks of **NEPHRITIC COLIC**, attended by **SANDY DEPOSITIONS in the urine.** After the free use of this Water in these cases, no further manifestations of the disorder occurred."

Dr. HENRY M. WILSON, of Baltimore, ex-President Medical and Chirurgical Faculty of Maryland.

"My experience in the use of the **BUFFALO LITHIA WATER** has not been large, *but it is of such a positive character that I do not hesitate to express my preference for it, as a* **DIURETIC** in **URINARY CALCULI,** *over all other waters that I have ever used.*"

Water in cases of one dozen half-gallon bottles, $5 per case, at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

{Quiniæ Valerianat, ... 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.}

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages*."

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

Sole Agents for the United States for the above Preparations.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Commence Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

DR. MASSEY'S

PRIVATE SANITARIUM

3607 Locust Street

PHILADELPHIA

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DRUGGISTS AND HOSPITALS SUPPLIED.

No Chemicals.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa

is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

W. Baker & Co., Dorchester, Mass.

ONEITA

Physicians recognize in it a wonderful water for all Kidney and Liver troubles, Dyspepsia, Rheumatism, Gout, Sciatica, etc. A remarkable alkaline lithiated water, with wonderful mineral virtues, unsurpassed as a table water, being pure, sparkling and delicious.

For circulars, etc., address,

ONEITA SPRING CO,

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

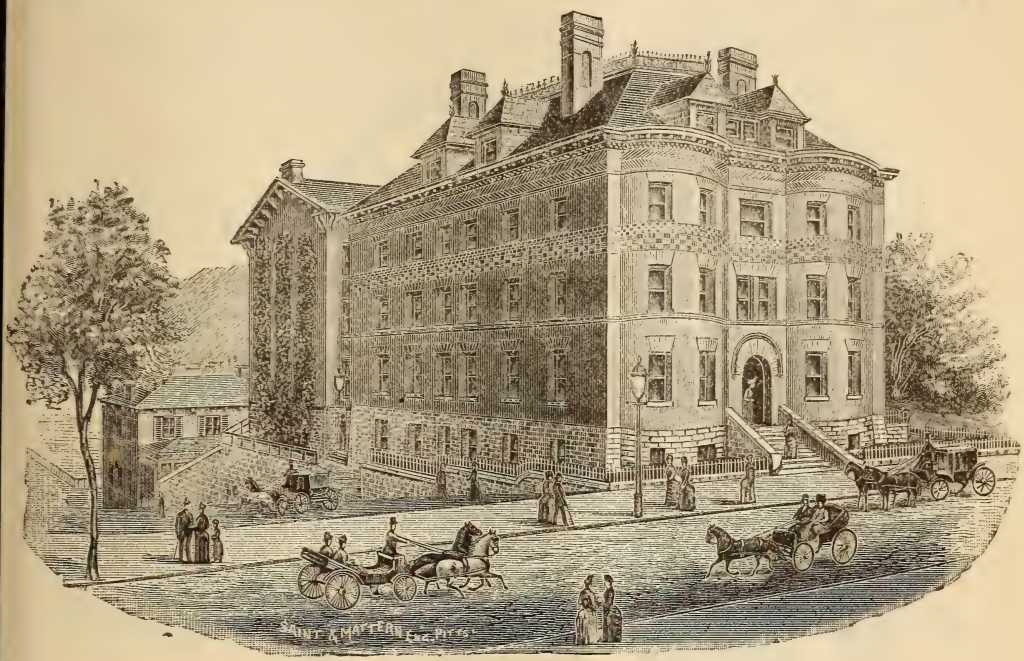
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

MISS KENNEDY,

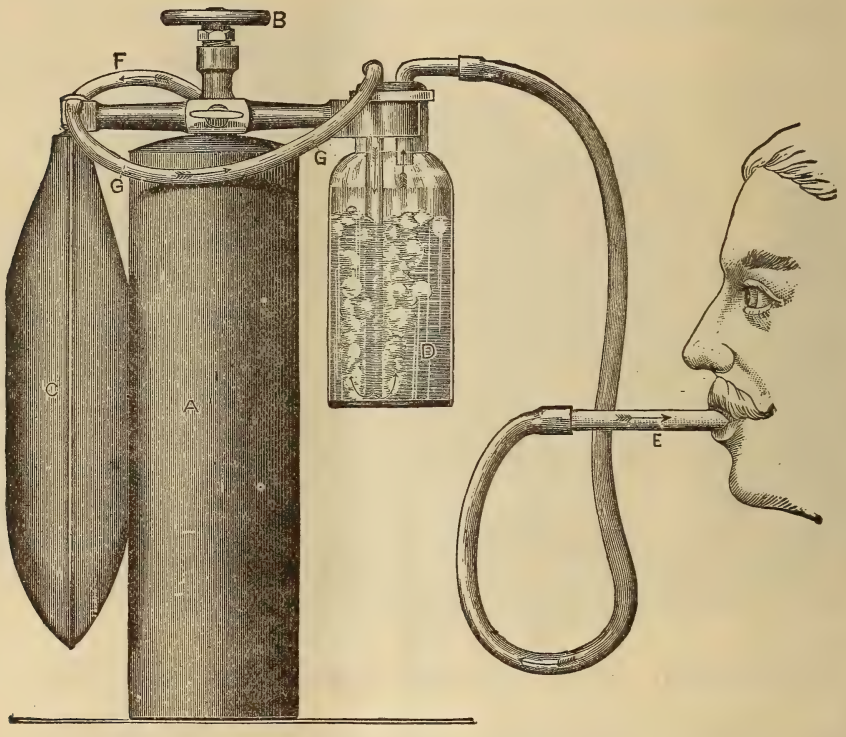
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC. PROPHYLACTIC. DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.
LAMBERT'S
LITHIATED HYDRANGEA
KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

CALIFORNIA VINTAGE CO.
21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

THE SUSTAINED SUPREMACY

OF

Fairchild's Pepsin,

In ACTIVITY, PERMANENCE and GENERAL EXCELLENCE

Has won for this product a wide use and recognition in all the principal markets of the world.

We guarantee it to be unchangeable, to maintain its activity and quality under all ordinary commercial conditions; it is therefore, by far the most available for the dispensing counter, as well as in the manufacture of every form of pepsin preparation.

Under exactly parallel conditions, with any proper percentage of acidity and with any proportion of such acidulated water to the albumen, Fairchild's pepsin is positively superior to any pepsin known.

It will, under absolutely comparative conditions, grain for grain, digest more albumen than any other pepsin made.

We will be pleased to send samples to any physician who may wish to ascertain for himself the relative activity of Fairchild's pepsin, or to submit it to any practical trial.

Prices and complete information upon application.

FAIRCHILD BROS. & FOSTER,

New York. Chicago. London.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

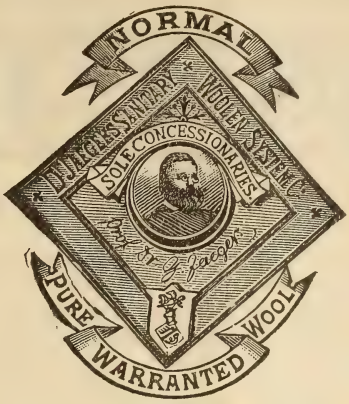
showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

NONE GENUINE WITHOUT



OUR TRADE MARK.

DR. JAEGER'S
SANITARY WOOLEN SYSTEM CO.

PHILADELPHIA.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

IMPORTANT ANNOUNCEMENT.

I WISH TO INFORM THE
MEDICAL PROFESSION
THAT
CHARLES LENTZ & SONS,
No. 18 North 11th St., Philadelphia,

The well-known Manufacturers of Surgical Instruments, have been appointed agents for "GORDON'S VAGINAL IRRIGATOR," and will supply physicians at manufacturers' prices.

All goods sent by mail or express prepaid on receipt of price.

Irrigator only	$2.75
Reservoir with cover, 6 ft. tube and cut off (by ex.)	1.40
Or a good rubber Bulb Syringe	1.00

The Irrigator will fit most kinds of syringes; so neither Reservoir or Syringe will be sent unless specially ordered. To those who have not used the Instrument, I will say: It is the only instrument yet devised that the Patient can use while in the recumbent position, without Wetting or Soiling Clothing or Bedding. The Tampon that occludes the vaginal orifice is filled with air; hence no heat comes in contact with the external genitals. The late Dr. Field, of Bangor, used water, at 130° F., to control an obstinate hemorrhage, without discomfort to the Patient. Since 1885 its sale has steadily increased, and of 2,000 sold only two have been returned; yet all were sold with the guarantee that if not perfectly satisfactory after one week's use, they were to be returned.

I caution the trade against offering for sale any imitation of this instrument; as all such are infringements on letters patent granted the subscriber. Upon request I will send references, in most any part of the U. S., of those who are using this instrument. I am, respectfully, G. T. BLANCHARD, Successor to Gordon & Blanchard, PLYMOUTH, MAINE.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

FOR SALE.

PRACTICE AND SMALL DRUG STORE,

NORTH PENNA.

No competition; good terms. Price, $400. Address FIBIN, care of MED. AND SURG. REPORTER. P. O. Box 843, Phila.

For more than four years the Perfection Douche has been subjected to the severest practical tests, by experienced gynaecologist in every part of this country, no objection, in a single instance, having been made to the principles upon which it is constructed.

It provides ample and comfortable support, with a slight elevation of either the shoulders or hips, furnishes means for the prolonged application of a sufficiently large amount of hot water, and completely conveys away all the drip without risk of wetting the clothing. No other apparatus for applying hot water in the treatment of uterine and pelvic diseases combines as many desirable and practical qualities. COMFORT, CONVENIENCE, DURABILITY, AND THOROUGHNESS OF APPLICATION are its main points of excellence.

Descriptive circulars, prices, and testimonials are furnished on application. These afford satisfactory evidence of unqualified endorsement of its superior advantages, and show the high appreciation in which the instrument is held by those who have repeatedly recommended and tested its work.

Applications for the Douche or for circulars or testimonials may be made to agents, or to "THE PERFECTION DOUCHE," Box 7, ALBANY, N. Y.

College of Physicians and Surgeons of Baltimore, Md.

The Preliminary Course will begin September 15th, 1889. The Regular Session will open October 1st, 1889, and close about March 15th, 1890.

For catalogue containing full information, address

THOMAS OPIE, M. D., Dean,
N. W. Cor. Calvert and Saratoga Sts., Baltimore, Md.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.

The PRELIMINARY SESSION begins September 18th, 1889.

The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D, LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D, Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.

R. C. M. PAGE, M.D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M.D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M.D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M.D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given. The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty.

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil.....80 m. (drops)		Soda.....1-3 Grains.	
Distilled Water.....35 "		Salicylic Acid.....1-4 "	
Soluble Pancreatin..... 5 Grains.		Hyocholic Acid.....1-20 "	

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which HYDROLEINE is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable,-supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

LENTZ'S NEW COMPACT OPERATING SET

No. 10.

One Amputating Knife (Leg and Arm). One Finger Knife. One Hernia Knife. One Sharp Curved Bistoury. Two Scalpels. One Tenotome. One Tenaculum. One pair Scissors, curved or flat. One Saw, 9-inch blade. One Liston's Spring Bone Forceps. One Artery and Needle Forceps, improved. One Dressing Forceps. One Esmarch's Flat Rubber Tourniquets, with Chain. One Director, with Aneurism Needle. Two Silver Probes. Silk, Wire, Wax, and Needles.

The above instruments are put up in a fine Morocco Case with nickel trimmings, lined with velvet, and has extra space for Trephine and Elevator, if desired. With the *sixteen* instruments contained in this case, any ordinary operation may be performed.

Size, 11 in. long, 4 in. wide, 2 in. high

Price, $25. With Trephine and Handle and Trephine Elevator in addition, $29.65. We also make the above case with hard rubber antiseptic handles on knives and saw. Price, $29.00. With Trephine and Elevator in addition, $33.65.

Discount 25 pr. ct. to Physicians

Our New Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

CHARLES LENTZ & SONS,

MANUFACTURERS OF

SURGICAL AND ORTHOPÆDIC APPARATUS,

No. 18 North Eleventh Street,

Established 1866. Philadelphia.

WE ARE CONFIDENT THAT WE HAVE REACHED THE **Highest Degree of Perfection** *IN SOLVING THE* **INFANT FOOD PROBLEM.**

Lacto-Preparata.

A Prepared Human Milk perfectly Sterilized and especially designed for Children from birth to six or eight months of age.

Made wholly from cow's milk with the exception that the fat of the milk is partially replaced by cocoa butter. Cocoa butter is identical with milk fat in food value and digestibility, being deficient only in the principle which causes rancidity. The milk in *Lacto-Preparata* is treated with Extract of Pancreas at a temperature of 105 degrees, a sufficient length of time to render twenty-five per cent. of the casein soluble, and partially prepare the fat for assimilation. In this process the remaining portion of the casein not peptonized, is acted upon by the pancreatic ferment in such a manner as to destroy its tough tenacious character, so that it will coagulate in light and flocculent curds, like the casein in human milk.

Composition:

ALBUMINOIDS,	19 Parts.
MILK SUGAR,	64 "
FAT,	10 "
MINERAL MATTER,	3 "
CHLORIDE of SODIUM added,	½ "
PHOSPHATES of LIME added,	½ "
MOISTURE,	3 "

SEND FOR SAMPLE and compare it with every other food used in artificial feeding of Infants.

Lacto-Preparata is not designed to replace our **Soluble Food,** but is better adapted for Infants up to eight months of age.

Carnrick's Soluble Food

Is the Nearest Approach to Human Milk that has thus far been produced, with the exception of Lacto-Preparata.

During the past season a large number of Physicians and eminent Chemists visited our Laboratory at Goshen, N. Y., and witnessed every detail connected with the production of Carnrick's Soluble Food. This invitation to witness our process is continuously open to Physicians and Chemists. All expenses from New York to Goshen and return will be paid by us. The care used in gathering the milk, its sterilization, and the cleanliness exercised in every step, cannot be excelled. Soluble Food has been improved by increasing the quantity of milk sugar and partially replacing the milk fat with cocoa butter.

Phospho-Caffein Comp.

(GRANULAR EFFERVESCING.)

A SEDATIVE, NERVE AND BRAIN FOOD.

This preparation has been thoroughly tested, and found to produce the happiest effects in Headaches, Neuralgia, Sleeplessness, and General Nervous Irritability. We are confident that the above combination will be found superior to any of the various preparations that are used in nervous affections. It is not only a nerve sedative, but a Brain and Nerve Food. The depressing effects of the sedative ingredients are fully overcome by its reconstructive constituents.

As a harmless and positive remedy in Headaches and Insomnia, we are certain it has no equal It is far more palatable than any of the preparations used for similar purposes.

PUT UP IN FOUR, EIGHT, AND THIRTY-TWO OUNCE BOTTLES.

REED & CARNRICK, New York.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion."—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **G. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years, is now imported into this market, and pronounced by connoisseurs unsurpassed for excellence and bouquet.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

WE OFFER

"PEPTOGENIC MILK POWDER"

as a means of modifying cows' milk quantitatively and qualitatively to the ascertained composition of normal mothers' milk.

Cows' milk with this Powder and the directions given yields a "humanized milk" which in chemical constitution, physical character and taste approaches very closely to human milk.

"PEPTOGENIC MILK POWDER" is designed for the sole purpose of preparing from cows' milk an adequate substitute for breast milk. It has been prepared upon the basis of comparative analyses of cows' and human milk, and its prime pivotal factor is the transformation of the caseine and other albuminoids by a digestive ferment into a form in which they remarkably agree with those designed by nature for the food of an infant.

This being accomplished, there remains no necessity for the intervention of any inert or foreign substance, or of the crude expedients hitherto employed in the attempt to overcome the inherent unfitness of cows' milk as a substitute for mothers' milk.

We do not, under any circumstances, offer "PEPTOGENIC MILK POWDER" as a Food. We do not manufacture an Infant Food.

We offer a means and a method by which a mother may, from cows' milk, cream and water, prepare a physiological substitute for breast milk.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

DRUGGISTS AND HOSPITALS SUPPLIED.

No Chemicals.

W. BAKER & Co.'S
Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa

is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

W. Baker & Co., Dorchester, Mass.

ONEITA

No water has such a combination of mineral virtues. A saline water which owes its remarkable medicinal and curative powers to the presence of a large amount of lithium and other chlorides. Especially beneficial in cases of Dyspepsia, Rheumatism, Gout, Kidney and Liver troubles.

For circulars, etc., address,

ONEITA SPRING CO,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

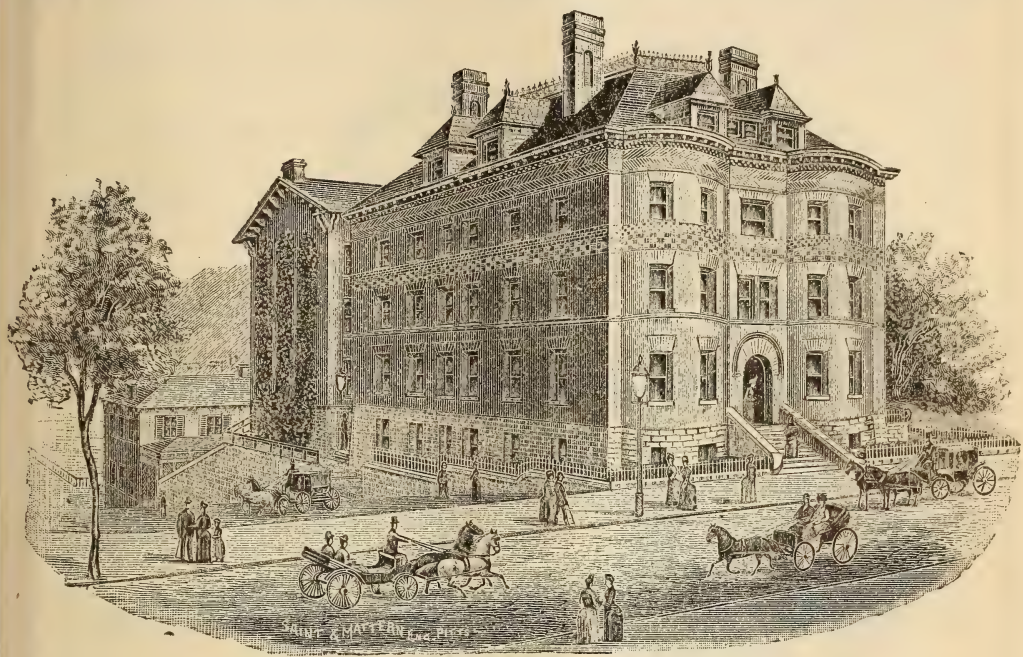
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

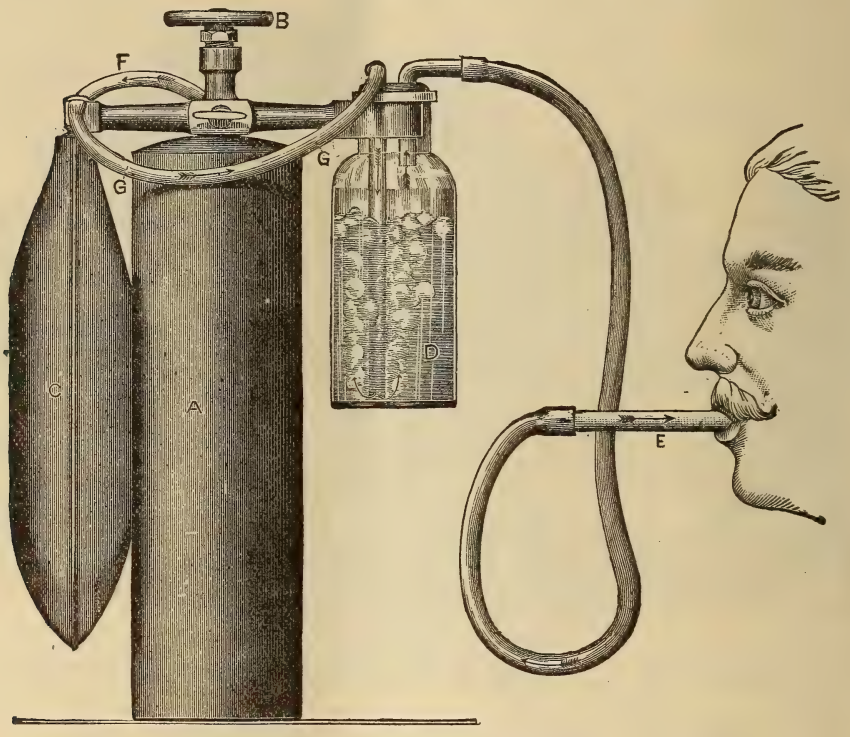
MISS KENNEDY,

170 Ridge Ave., Allegheny, Pa.

INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

21 Park Place N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

W. R. WARNER & CO'S

NEW AND RELIABLE RECIPES FOR PHYSICIANS PRESCRIBING.

In order to get the full therapeutic effects, physicians will please specify (WARNER & CO.) when ordering or prescribing.

☞The coating of the following pill will dissolve in 4½ minutes.☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.
Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½., Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid. 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc't Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food.

Supplied upon physician's prescription by all leading druggists.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

***A** sample of* MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

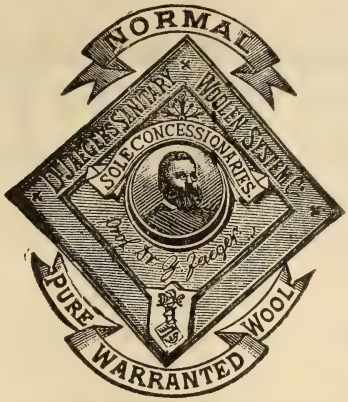
showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

NONE GENUINE WITHOUT



OUR TRADE MARK.

DR. JAEGER'S
SANITARY WOOLEN SYSTEM CO.

—OF PHILADELPHIA.—

CAUTION!

PHILADELPHIA.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month. thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

LONDON, 16 Coleman St. CALCUTTA, 9 & 10 Dalhousie Square. PARIS, 5 Rue de la Paix. MONTREAL, 374 St. Paul St.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D. DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1,	$1.25 per doz.	No. 4,	$1.55 per doz.
No. 2,	1.25 "	No. 5,	1.70 "
No. 3,	1.40 "	No. 6,	1.90 "
	No. 7, $2.10 per dozen.		

RAW CAT-GUT. I put this up in coils of 10 feet, four different sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

Do you use the

BINDER.

WANTED

ONE PHYSICIAN ONLY,

In every Town and City, to introduce a new apparatus and improved method of treating Catarrh, Throat and Lung Affections.
Strictly Professional. No Competition.
For particulars address,

MOORE-McGREGOR MEDICATION,
P. O. Box 671. CINCINNATI, O.

College of Physicians and Surgeons of Baltimore, Md.

The Preliminary Course will begin September 15th, 1889. The Regular Session will open October 1st, 1889, and close about March 15th, 1890.
For catalogue containing full information, address
THOMAS OPIE, M. D., Dean,
N. W. Cor. Calvert and Saratoga Sts., Baltimore, Md.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to
DR. JAMES TYSON, Dean,
36th and Woodland Avenue, Philadelphia.

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

BUFFALO LITHIA WATER

IN THE

Uric Acid Diathesis, Bright's Disease of the Kidneys, Chronic Inflammation of the Bladder, &c.

Dr. THOMAS H. BUCKLER, of Paris (formerly of Baltimore), SUGGESTER OF LITHIA as a Solvent for URIC ACID.

"Nothing I could say would add to the **WELL-KNOWN REPUTATION OF THE BUFFALO LITHIA WATER. I HAVE FREQUENTLY USED IT WITH GOOD RESULTS IN URIC ACID DIATHESIS, RHEUMATISM AND GOUT,** and with this object I have ordered it to Europe from Coleman & Rogers, of Baltimore. Lithia is in no form so valuable as where it exists in the Carbonate (the form in which it is found in the **BUFFALO LITHIA WATER**), Nature's mode of solution and division in water which has passed through Lepedolite and Spondumine Mineral formation."

Dr. WM. A. HAMMOND, of New York, Surgeon-General U. S. Army (Retired), Professor of Diseases of the Mind and Nervous System in the University of New York, &c.

"I have for some time made use of the Buffalo Lithia Water in cases of affections of the **NERVOUS SYSTEM,** complicated with **BRIGHT'S DISEASE OF THE KIDNEYS** or with a **GOUTY DIATHESIS.** The results have been eminently satisfactory. Lithia has for many years been a favorite remedy with me in like cases, but the **BUFFALO WATER CERTAINLY ACTS BETTER THAN ANY EXTEMPORANEOUS SOLUTION OF THE LITHIA SALTS,** and is, moreover, better borne by the Stomach. I also often prescribe it in those cases of **CEREBRAL HYPERÆMIA** resulting from over-mental work—in which the condition called **NERVOUS DYSPEPSIA EXISTS**—and generally with marked benefit."

HUNTER McGUIRE, M.D., LL.D., Late Professor of Surgery, Medical College of Virginia, Richmond.

"**BUFFALO LITHIA WATER,** *Spring No. 2,* as an **ALKALINE DIURETIC,** *is invaluable.* In **URIC ACID GRAVEL,** *and, indeed,* in *diseases generally dependent* upon a **URIC ACID DIATHESIS,** *it is a remedy of extraordinary potency.* I have prescribed it in cases of **RHEUMATIC GOUT,** *which had resisted the ordinary remedies, with wonderful good results.* I have *used it also in my own case, being a great sufferer from this malady, and have derived more benefit from it than from any other remedy.*"

Dr. ROBERT BATTEY, of Georgia, SUGGESTER OF BATTEY'S OPERATION.

"I would state that I have been using the Buffalo Lithia Water, No. 2, in my practice for three years past, in cases of **CHRONIC INFLAMMATION** of the **BLADDER,** whether induced by **STONE,** by enlarged **PROSTATE** in the aged, or by **NEGLECTED GONORRHŒA, AND HAVE SECURED EXCELLENT RESULTS,** which encourages me to prescribe it for the future."

Dr. CYRUS EDSON, of New York,
Chief Inspector of Cutaneous Diseases in Health Department and President of the Board of Pharmacy.

"I have frequently made use of **BUFFALO LITHIA WATER,** Spring No. 2, in my practice, *with excellent results.* It is a potent remedy in correcting **RHEUMATIC DIATHESIS.** In a case of **URIC ACID GRAVEL,** in which I recently prescribed it, **ITS BENEFICIAL EFFECTS WERE APPARENT AFTER THE THIRD DOSE.** I have also prescribed it with great benefit in **BRIGHT'S DISEASE OF THE KIDNEYS.**"

Water in Cases of one dozen half-gallon Bottles, Five Dollars per Case, at the Springs.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor :

How are those cases of Tuberculosis and Scrofula coming on?

By the way, did you ever think of the similarity in the lesions created by these two diseases—disintegration and breaking down of the tissue walls?

Now, what must be the obvious remedy? Not irritant and stimulant tonics, as iron, arsenic, etc. They only increase the force of pressure brought to bear against these same tissue walls, and cause them the sooner to give way, producing hemorrhages, extravasations, etc.

The true and unfailing remedy will be found in the genuine tissue builders, as prepared in McArthur's Compound Syrup of the Hypophosphites of Lime and Soda. Each atom finds its way unerringly to its place in the tissue walls, until they are built up so strong as to resist hemorrhages, extravasations, diapedesis and excessive perspiration. From this time on the improvement is rapid, and may be continued until the cure is permanent.

The individual may thus be built up until he is no more liable to a return of the disease than one who has never yet had it. The teachings of Salisbury and Churchill announce these truths and the clinical experience of a few observant physicians confirm them.

The point of superiority in McArthur's Syrup is that the Hypophosphites are *chemically pure*, which is so very rare in such preparations.

One of the first effects produced by the use of our Chemically Pure Hypophosphites is a general increase of nervous energy, with a feeling of ease and comfort.

The second effect is an increase of appetite; digestion is improved, and the bowels become regular in their action, the quantity and color of the blood is increased, respiration is controlled, a better expansion of the chest is observed, cough improves, easy expectoration is produced, night perspiration diminishes, the face becomes fuller, the lips red, the nails and hair grow, and in children the teeth, showing the importance of the Hypophosphites on the organ of nutrition.

Their use is also indicated in all wasting discharges, Nerve Exhaustion, Brain Fatigue, Impotence, Spermatorrhœa, Tabes Dorsalis and Mesenterica, Chronic Bronchitis and Cough, Diarrhœa, Uterine Fibroids, and all diseases characterized by waste and faulty nutrition.

Physicians when prescribing will please write thus:

℞ Syr: Hypophos: Comp: McArthur. One Bottle.

As it is made *only for physicians* there are no printed wrappers or advertisements about the bottle.

A valuable treatise on the "Curability of Consumption" sent free. A large bottle free if you will pay express charges.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

BUFFALO LITHIA WATER

IN THE TREATMENT OF CHRONIC GASTRIC CATARRH

CLINICAL REPORTS.

CHRONIC GASTRIC CATARRH AND URIC ACID CALCULI.

A case stated by Dr. JNO. C. COLEMAN, of Scottsburg, Va., a retired Surgeon of the U. S. Navy.

"Mr. C. was for a number of years a sufferer from **CHRONIC GASTRIC CATARRH.** While his diet *was exclusively* **TEA** and **CRACKERS, BREAD** and **MILK,** *and other similar articles,* it was frequently thrown off in an undigested state soon after taking it, and at times he discharged from an empty stomach a strongly acid glairy mucus. A marked **URIC ACID DIATHESIS** supervened, consequent upon which he suffered for a period of some two years great **VESICAL IRRITATION** and possible **CYSTITIS,** attended by pain so intense and constantly present, as to require that he should be kept for the most part under the influence of opiates. After a persistent, but ineffectual exhibition of all remedies supposed to be indicated in the case, he was put for the latter affection upon the **BUFFALO LITHIA WATER,** Spring No. 2, with the happiest possible effect.

"In a few weeks, after commencing the use of it, the irritable condition of the *Bladder* was so far relieved that he was enabled to dispense entirely with the use of opiates. At the expiration of some eight weeks he had an attack of unusual severity, from which he was relieved by the discharge of a **CALCULUS,** followed at short intervals by the discharge of three others, which proved to be the termination of this trouble, as from that time there was entire subsidence of the painful symptoms described, and the *Bladder* resumed its natural state.

"While prescribed with special reference to the relief of the *Irritable Bladder,* the action of the water was not less surprisingly happy in the **GASTRIC AFFECTION,** with remarkable promptness correcting the highly acid condition of the **STOMACH,** restoring a healthy digestion and assimilation, and *tone* and *vigor* to the depressed *Nervous System.*

"In a few months he was able to eat, with perfect impunity, the coarsest articles of diet. He is now, after a lapse of several years, in robust health, having had no return of these painful maladies."

CHRONIC GASTRIC CATARRH.

Case of JOHN P. KEELING, Esq., stated by Dr. S. S. KEELING, Norfolk, Va., Member Medical Society of Virginia.

"Mr. John P. Keeling labored under **CHRONIC DYSPEPSIA,** and was always subject to attacks of *Spasmodic Gastralgia* immediately upon taking food into the stomach, which attacks were not at all amenable to treatment. Not unfrequently the stomach *rejected everything in the way of food and drink,* and he was of necessity confined to the lightest possible articles of diet, *meat and vegetables being entirely excluded.* He became so prostrated that it was with difficulty he could walk across his chamber floor, and had often to be lifted about. Such was the state of his **NERVOUS SYSTEM** *that great solicitude was felt as to his mental condition.*

"He visited Baltimore for medical aid, and was for many months under the treatment of some of the most eminent men of the profession in that city, but without beneficial result, and was finally advised that he had nothing to hope from remedies.

"Returning in an extremely critical condition to his home in the county of Princess Anne, he came under my professional care. Satisfied that medicine was unavailing in the case, I advised the **BUFFALO LITHIA WATER,** Spring No. 2. His stomach, however, was in a highly irritable condition, and I found it necessary to administer it in very small quantities; and it was at first given not exceeding an ounce at a dose, repeated at stated intervals. At the expiration of the third day the irritability of the stomach was decidedly less, and the quantity was then increased from day to day until the thirteenth day, when I found that the patient could take twelve ounces, which I regard as maximum dose at any time. Persisting in its use, on the twenty-eighth day he was free from pain, the stomach in a normal condition readily receiving both solids and liquids in moderate quantities, strength greatly increased, and nervous symptoms entirely relieved. At the expiration of the seventh week he was able to attend actively and regularly to his business on the farm. His recovery, which I regard as one of the most remarkable I ever knew of, I attribute entirely to the **BUFFALO LITHIA WATER.**"

GASTRO-INTESTINAL CATARRH.

Case of Mrs. Dr. F. J. GREGORY, of Virginia, reported by F. J. GREGORY, M.D., Keysville, Va.

"For eighteen months my wife, aged forty-one years, was a sufferer from a **GASTRO-INTESTINAL CATARRH,** which resisted my best-directed efforts at relief. The taking of the smallest quantity of the most easily-digested food on the stomach would produce an attack of *nausea and vomiting, the severity of which is seldom witnessed,* and when the stomach was free of food she would have attacks of *Gastralgia of the most excruciating nature.* She also suffered from habitual constipation, and at times with hemorrhages from the bowels. I pursued the usual line of treatment, such as simple bitters, Dilute Hydrocyanic Acid, Bismuth, etc., and called to my help two of the most skilled physicians in Southside Virginia, who supplemented my treatment with some of the newer drugs, such as **EFFERVESCING BICARB. POTASS. LACTOPEPTINE, CARLSBAD MINERAL SALTS,** etc., but with no benefit, and so her condition went on from bad to worse *until death seemed almost imminent from inanition.* I then put her on a milk diet with a glass of **BUFFALO LITHIA WATER,** Spring No. 2, every hour or so during the day, and *after the use of the first bottle improvement was marked, and before a case of it was used I regarded her cure as complete.* It has been nearly two years since, and there has been only one slight recurrence, which was a few days since, and it readily disappeared on the use of the water for a few days."

Water in cases of one dozen half-gallon bottles, $5 per case, at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA.

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

Quiniæ Valerianat, ... 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,

NEW YORK.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges,* "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck,* "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages.*"

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

AND OF ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

E. FOUGERA & CO., New York,

Sole Agents for the United States for the above Preparations.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Commence Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

DR. MASSEY'S

PRIVATE SANITARIUM

3607 Locust Street

PHILADELPHIA

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DRUGGISTS AND HOSPITALS SUPPLIED.

No Chemicals.

W. BAKER & CO.'S Breakfast Cocoa

Is Absolutely Pure, and it is Soluble.

To increase the solubility of the powdered cocoa, various expedients are employed, most of them being based upon the action of some alkali, potash, soda or even ammonia. Cocoa which has been prepared by one of these chemical processes, can usually be recognized at once by the distinct alkaline reaction of the infusion in water.

W. Baker & Co.'s Breakfast Cocoa

is manufactured from the first stage to the last by perfect mechanical processes, **no chemical being used in its preparation.** By one of the most ingenious of these mechanical processes the greatest degree of fineness is secured without the sacrifice of the attractive and beautiful red color which is characteristic of an absolutely pure and natural cocoa.

W. Baker & Co., Dorchester, Mass.

ONEITA

No water has such a combination of mineral virtues. A saline water which owes its remarkable medicinal and curative powers to the presence of a large amount of lithium and other chlorides. Especially beneficial in cases of Dyspepsia, Rheumatism, Gout, Kidney and Liver troubles.

For circulars, etc., address,

ONEITA SPRING CO.,

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

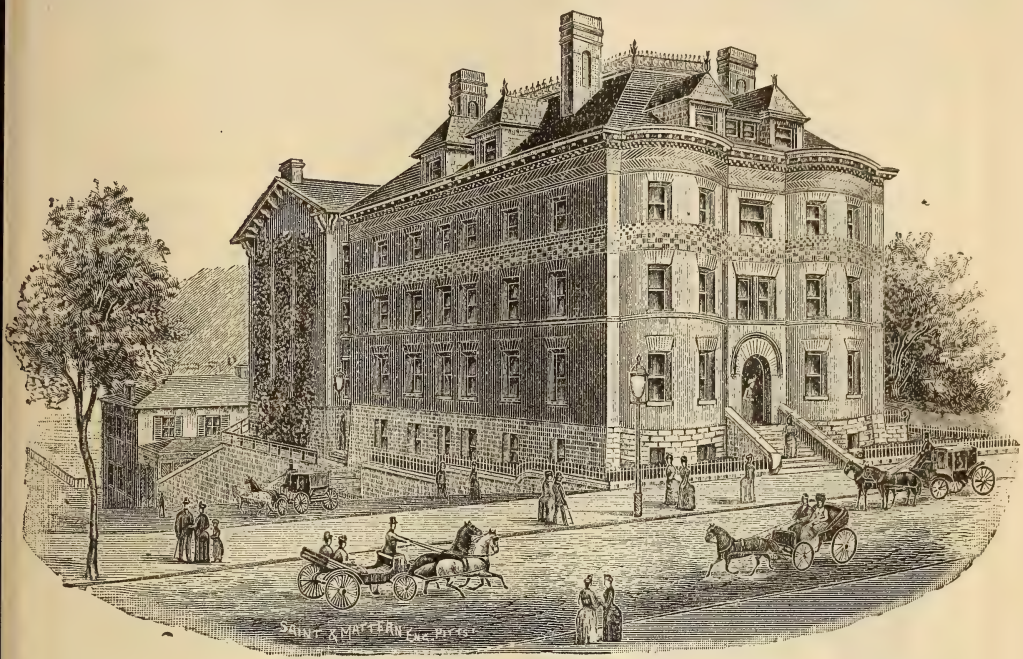
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

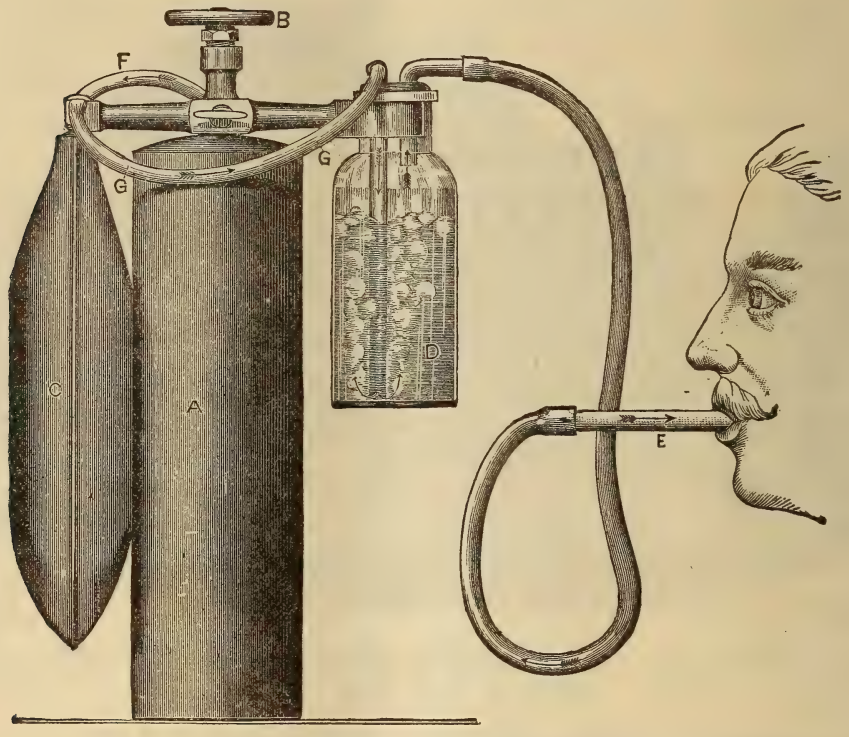
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debilsty, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

IMPORTANT ANNOUNCEMENT.

I WISH TO INFORM THE

MEDICAL PROFESSION

THAT

CHARLES LENTZ & SONS,

No. 18 North 11th St., Philadelphia,

The well-known Manufacturers of Surgical Instruments, have been appointed agents for "GORDON'S VAGINAL IRRIGATOR," and will supply physicians at manufacturers' prices.

All goods sent by mail or express prepaid on receipt of price.

Irrigator only $2.75
Reservoir with cover, 6ft. tube and cut off (by ex.) 1.40
Or a good rubber Bulb Syringe 1.00

The Irrigator will fit most kinds of syringes; so neither Reservoir or Syringe will be sent unless specially ordered. To those who have not used the Instrument, I will say: It is the only instrument yet devised that the Patient can use while in the recumbent position, without Wetting or Soiling Clothing or Bedding. The Tampon that occludes the vaginal orifice is filled with air; hence no heat comes in contact with the external genitals. The late Dr. Field, of Bangor, used water, at 130° F., to control an obstinate hemorrhage, without discomfort to the Patient. Since 1885 its sale has steadily increased, and of 2,000 sold only two have been returned; yet all were sold with the guarantee that if not perfectly satisfactory after one week's use, they were to be returned.

I caution the trade against offering for sale any imitation of this instrument; as all such are infringements on letters patent granted the subscriber. Upon request I will send references, in most any part of the U. S., of those who are using this instrument. I am, respectfully, G. T. BLANCHARD, Successor to Gordon & Blanchard, PLYMOUTH, MAINE.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

STRYKER & OGDEN,

Walnut and 13th Streets, Philadelphia.

PHYSICIANS' OFFICE AND OPERATING

COATS.

MADE OF BLEACHED DRILLING;
WILL NOT SHRINK IN WASHING.

$1.25 each; $7.00 per ½ Dozen.

Single Coats by Post, 15 cents additional.

HIRSH, FRANK & CO.,

31 North Third St., Philadelphia.

☞In ordering, send chest measure and length of sleeve from middle of back.

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.
CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.
SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.
FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.
WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.
JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.
FRANCIS T. MILES, M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.

L. McLANE TIFFANY, M.D.,
Professor of Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.
R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.
JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.
JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.
FRANCIS T. MILES, M.D.,
Professor of Physiology.
L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.

J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.
R. DORSEY COALE, PH.D.,
Professor of Chemistry.
JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.
CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.
AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1,	$1.25 per doz.	No. 4,	$1.55 per doz.
No. 2,	1.25 "	No. 5,	1.70 "
No. 3,	1.40 "	No. 6,	1.90 "
		No. 7,	$2.10 per dozen.

RAW CAT-GUT. I put this up in coils of 10 feet, four different sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

WILLIAM SNOWDEN,
Manufacturer, Importer and Exporter of Surgical Instruments,
No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address

JAMES G. HYNDMAN, M.D., Secretary,

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

VACCINE VIRUS.

The Virus sold from this office is of the very best quality. It is carefully selected by a medical man whose experience and character justify the strongest recommendations.

It is safe to say that the Virus supplied from the REPORTER office is as reliable as it is possible to secure.

PRICE, ONE OR TWO DOLLARS.

Two dollars for a large crust, and one dollar for a small crust.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden."* A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card

LENTZ'S NEW COMPACT OPERATING SET No. 10.

One Amputating Knife (Leg and Arm). One Finger Knife. One Hernia Knife. One Sharp Curved Bistoury. Two Scalpels. One Tenotome. One Tenaculum. One pair Scissors, curved or flat. One Saw, 9-inch blade. One Liston's Spring Bone Forceps. One Artery and Needle Forceps, improved. One Dressing Forceps. One Esmarch's Flat Rubber Tourniquets, with Chain. One Director, with Aneurism Needle. Two Silver Probes. Silk, Wire, Wax, and Needles.

The above instruments are put up in a fine Morocco Case with nickel trimmings, lined with velvet, and has extra space for Trephine and Elevator, if desired. With the *sixteen* instruments contained in this case, any ordinary operation may be performed.

Size, 11 in. long, 4 in. wide, 2 in. high

Price, $25. With Trephine and Handle and Trephine Elevator in addition, $29.65. We also make the above case with hard rubber antiseptic handles on knives and saw. Price, $29.00. With Trephine and Elevator in addition, $33.65.

Discount 25 pr. ct. to Physicians

Our New Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

CHARLES LENTZ & SONS,

MANUFACTURERS OF

SURGICAL AND ORTHOPÆDIC APPARATUS,

No. 18 North Eleventh Street,

Established 1866. **Philadelphia.**

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of Mental and Nervous Affections.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

Circulars sent to Physicians on Application.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements, Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address, DRS. S. S. & S. E. STRONG.

Address, MEDICAL AND SURGICAL REPORTER,

P. O. Box 843, Philadelphia.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

WE OFFER

"PEPTOGENIC MILK POWDER"

as a means of modifying cows' milk quantitatively and qualitatively to the ascertained composition of normal mothers' milk.

Cows' milk with this Powder and the directions given yields a "humanized milk" which in chemical constitution, physical character and taste approaches very closely to human milk.

"PEPTOGENIC MILK POWDER" is designed for the sole purpose of preparing from cows' milk an adequate substitute for breast milk. It has been prepared upon the basis of comparative analyses of cows' and human milk, and its prime pivotal factor is the transformation of the caseine and other albuminoids by a digestive ferment into a form in which they remarkably agree with those designed by nature for the food of an infant.

This being accomplished, there remains no necessity for the intervention of any inert or foreign substance, or of the crude expedients hitherto employed in the attempt to overcome the inherent unfitness of cows' milk as a substitute for mothers' milk.

We do not, under any circumstances, offer "PEPTOGENIC MILK POWDER" as a Food. We do not manufacture an Infant Food.

We offer a means and a method by which a mother may, from cows' milk, cream and water, prepare a physiological substitute for breast milk.

FAIRCHILD BROS. & FOSTER,

82 & 84 FULTON STREET,

NEW YORK.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

170 & 172 William St., New York.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by Dr. Geo. W. McDade, exclusively for Eli Lilly & Co., and endorsed by Dr. J. Marion Sims.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and *never in bulk.*

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica,** as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power. The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills,** a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation,** there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks,** or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions,** the result of excesses, **mental apathy,** or indifference, and in an **enfeebled condition of the general system,** with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organs** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic,** and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea,** and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

GENUINE BLAUD'S PILLS.

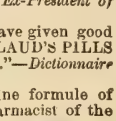
These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them.

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Bland, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)



VACCINE VIRUS.

The Virus sold from this office is of the very best quality. It is carefully selected by a medical man whose experience and character justify the strongest recommendations.

It is safe to say that the Virus supplied from the REPORTER office is as reliable as it is possible to secure.

PRICE, ONE OR TWO DOLLARS.

Two dollars for a large crust, and one dollar for a small crust.

ONEITA

An alkaline, lithiated water with marked diuretic power. All cases requiring lithia water will derive the greatest benefit from its use. It is a delicious table water, unsurpassed by any water in the market. It is of great benefit in all cases of Rheumatism, Gout, Kidney and Liver troubles, and has effected cures when all other waters have failed. Send for analysis of C. F. Chandler, Ph. D.

ONEITA SPRING CO.,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

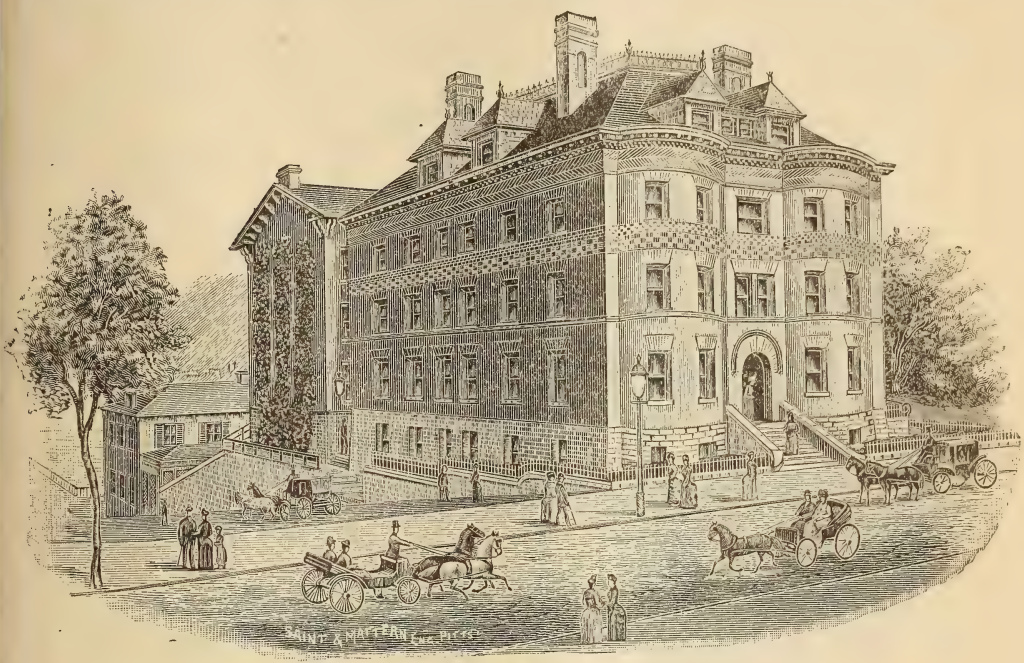
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the In titution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

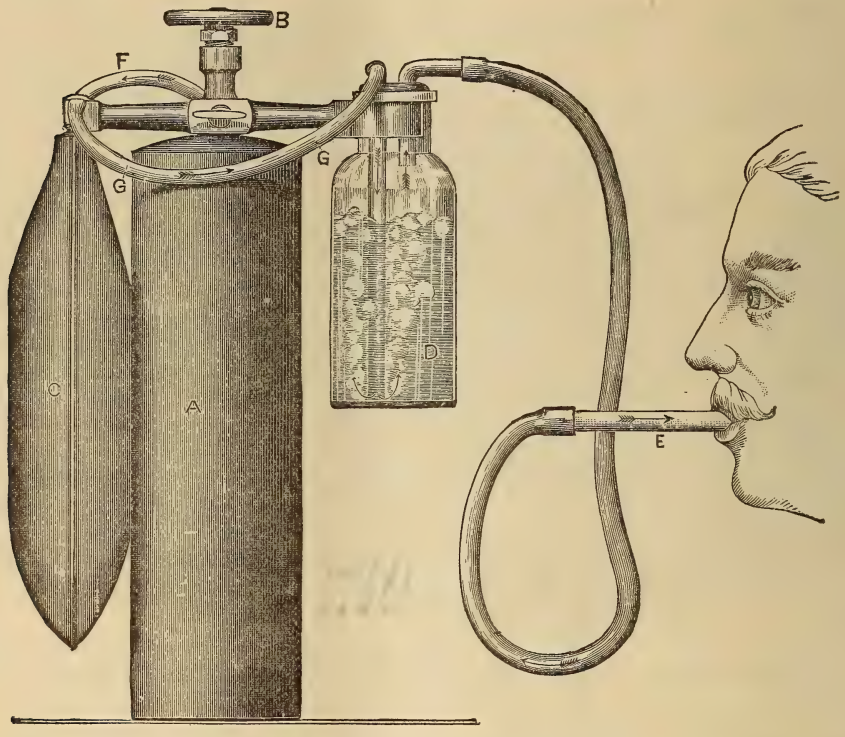
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

CALIFORNIA VINTAGE CO.

21 PARK PLACE. N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

CEREBRAL EXHAUSTION

HORSFORD'S ACID PHOSPHATE.

It has been shown that the phosphates are found in excess in the urine in cases where the nerve centres (the brain and spinal cord) have been overworked, or subjected to undue labor, and the opinion is confirmed that there is a received relation between an excess of phosphates in the urine, and intellectual exercise.

This preparation supplies the phosphates and phosphoric acid, is readily assimilated, pleasant to the taste, and aids digestion.

Dr. S. A. HARVEY, Cheboygan, Mich., says:

"I have used it with marked benefit, in several cases of cerebral irritation."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "HORSFORD'S" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following **SPECIAL OFFER:** We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea, suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month, thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

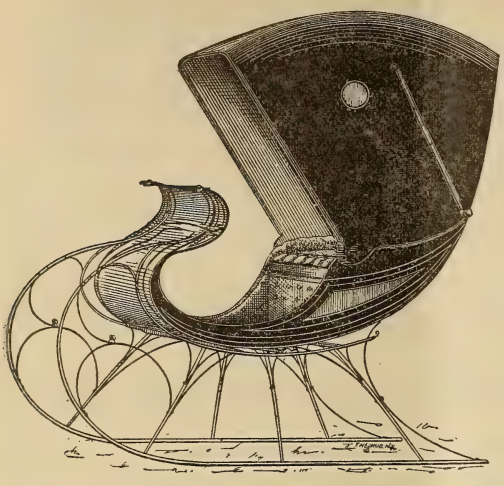
KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.



A Bargain.

If ordered before November 15th, we will furnish one of these Half-Top Cutters with Full Leather Top, Cloth or Plush Upholstering, and everything first class for $110. "First come first served."

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.
CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.
SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.
FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.
WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.
JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.
FRANCIS T. MILES, M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.
L. McLANE TIFFANY, M.D.,
Professor of Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.
R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.
JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.
JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.
FRANCIS T. MILES, M.D.,
Professor of Physiology.
L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.
R. DORSEY COALE, PH.D.,
Professor of Chemistry.
JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.
CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.
AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1,	$1.25 per doz.	No. 4,	$1.55 per doz.
No. 2,	1.25 "	No. 5,	1.70 "
No. 3,	1.40 "	No. 6,	1.90 "

No. 7, $2.10 per dozen.

RAW CAT-GUT. I put this up in coils of 10 feet, four difierent sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

WILLIAM SNOWDEN,
Manufacturer, Importer and Exporter of Surgical Instruments,
No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address

JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to

PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

FOR SALE. PRACTICE, WITH DRUG STORE.

In a densely populated locality of Philadelphia. A rare opportunity. Address

PHARMACY,
Care of MEDICAL AND SURGICAL REPORTER,
P. O. Box 843, Philadelphia.

WANTED.

A good location for practice in the country, by an experienced regular physician. I will pay liberally for information resulting in the finding of such an one. Would, if necessary, purchase a small amount of real estate. Address

MEDICINE,
Care of MEDICAL AND SURGICAL REPORTER,
P. O. Box 843, Philadelphia.

WANTED

ONE PHYSICIAN ONLY,

In every Town and City, to introduce a new apparatus and improved method of treating Catarrh, Throat and Lung Affections.
Strictly Professional. No Competition.
For particulars address,

MOORE-McGREGOR MEDICATION,
P. O. Box 671, CINCINNATI, O.

WANTED.

Position as PARTNER or ASSISTANT, with physician in large practice. Graduate of

UNIVERSITY OF PENNSYLVANIA (1866).

Address MEDICUS; care of MEDICAL AND SURGICAL REPORTER, P. O. Box 843, Philadelphia.

DETROIT COLLEGE OF MEDICINE.

SESSION 889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out door Department).

A. G. GERSTER, M D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D, Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D. Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER. M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,

214, 216 & 218 East 34th Street, New York City.

BUFFALO LITHIA WATER

IN THE TREATMENT OF

ALBUMINURIA, WHETHER OF BRIGHT'S DISEASE, PREGNANCY, OR SCARLET FEVER.

Dr. WM. B. TOWLES, Professor of Anatomy and Materia Medica in the Medical Department of the University of Virginia.

"BUFFALO LITHIA WATER, No. 2, belongs to the ALKALINE or, *perhaps, to the* ALKALINE-SALINE Class, *for it has proved far more efficacious in many diseased conditions than any of the simple* ALKALINE *waters.*

. . . . . .

"*Its effects are marked in causing a disappearance of* ALBUMEN *from the Urine.* In a single case of BRIGHT'S DISEASE OF THE KIDNEYS I witnessed *decided beneficial results from its use, and from its action in this case I should have great confidence in it as a remedy in certain stages of the disease.*"

Dr. GRAEME M. HAMMOND, of New York, Professor of Diseases of the Mind and Nervous System in the New York Post-Graduate Medical School and Hospital.

"In *all* cases of BRIGHT'S DISEASE of the KIDNEYS I have found BUFFALO LITHIA WATER *of the greatest service in increasing the quantity of urine and in eliminating the* ALBUMEN."

Dr. GEORGE W. MILTENBERGER, Professor of Obstetrics, University of Maryland,

Before the Medical and Chirurgical Faculty of the State of Maryland, recommended BUFFALO LITHIA WATER as an ALKALINE Diuretic in ALBUMINURIA of PREGNANCY.—See *Trans. Faculty of State of Maryland*, 1886.

Dr. WM. H. DOUGHTY, Professor of Materia Medica and Therapeutics, Medical College of Georgia; Member of American Medical Association, etc.

"Over the NAUSEA AND VOMITING OF PREGNANCY, PARTICULARLY IN THE LATTER MONTHS, WHERE URÆMIC CONDITIONS are possibly established, and in PUERPERAL CONVULSIONS, URÆMIA CO-EXISTING, BUFFALO LITHIA WATER often exerts *marked control.*"

Dr. CALEB WINSLOW, 23 McCulloh Street, Baltimore, Member of the Medical and Chirurgical Faculty of Maryland.

"I have found the BUFFALO LITHIA WATER, Spring No. 2, of marked service in relieving the *Nausea* of *Pregnant Women.* I frequently resort to it at intervals *during the whole course of Pregnancy.* Being *antacid, laxative, diuretic, and tonic, it seems well adapted to relieve the disturbances usually attendant upon Gestation, and I have no doubt its free use might remove* URÆMIC POISON, *and prevent Convulsions produced thereby.*"

Dr. JOS. HOLT, New Orleans, President Board of Health, State of Louisiana.

"I have prescribed BUFFALO LITHIA WATER freely in affections of the *Kidneys* and *Urinary* passages, particularly in GOUTY *subjects.* in ALBUMINURIA, and in irritable conditions of the *Bladder* and *Urethra* in *females.* The results have been such as to satisfy me *of the extraordinary value of this Water in a large class of cases usually most difficult to treat.*"

Dr. JAMES B. McCAW, Professor of the Practice of Medicine in the Virginia Medical College.

[Extract from the Proceedings of the Richmond Academy of Medicine, October 15, 1878.]

"Dr. McCaw also spoke of the great value of BUFFALO LITHIA WATER in ALBUMINURIA of *Scarlet Fever* and in ALBUMINURIA of *Pregnant Women.*"

Dr. J. T. DAVIDSON, New Orleans, La., ex-President New Orleans Surgical and Medical Association.

"I have for several years prescribed BUFFALO LITHIA WATER, Spring No. 2, in all cases of *Scarlet Fever*, directing it to be drunk *ad libitum, with the effect of relieving all traces of* ALBUMEN *in the urine*, and have found it equally efficacious in renal diseases requiring the use of alkaline water."

Dr. G. W. SEMPLE, Hampton, Va., President Medical Society of Virginia.

"In SCARLET FEVER I have known BUFFALO LITHIA WATER *restore a healthy and abundant secretion of Urine, when it was highly charged with* ALBUMEN *and the secretion almost suppressed.*"

Dr. MARTIN L. JAMES, of Richmond, Va., Professor of Materia Medica and Therapeutics, Medical Society of Virginia.

[Proceedings of the Richmond, Virginia, Academy of Medicine, December 16, 1880.]

"The President of the Academy, Dr. M. L. James, reported a case of *Congestion* of the *Kidneys* in a lady eight months advanced in *Pregnancy, attended by marked Œdema*, both over the extremities and surface, and by URÆMIC POISONING *to such an extent as very seriously impaired the vision of the patient*, relieved by the free use of this Water for three weeks.

"Other remedies, he stated, were used in these cases, *but the favorable results seemed clearly attributable to the action of the Water.*"

Dr. HARVEY L. BYRD, of Baltimore, President and Professor of Obsetrics and Diseases of Women and Children in the Baltimore Medical College, formerly Professor of Practical Medicine, etc.

"I have prescribed BUFFALO LITHIA WATER with the most satisfactory results, both as a *remedy* and *prophylactic* in the *Parturient* or *Pregnant Puerperal Eclampsia* or *Convulsions; and I may say that I know of no remedy of equal efficacy with the Water of Spring No. 2 in Sequelæ of Scarlatina.*

"It has an *ascertained value* in BRIGHT'S DISEASE. *A knowledge of its action in that disease thus far would seem* to warrant the belief that it would, in many instances, *at least in its early stages, arrest it entirely, and in its more advanced stage prove a decided comfort and palliative.*

Water in cases of one dozen half-gallon bottles, $5.00 per case at the Springs.

THOMAS F. GOODE, Proprietor,

BUFFALO LITHIA SPRINGS, VIRGINIA.

SVAPNIA

OR

PURIFIED OPIUM

FOR PHYSICIANS USE ONLY.

Contains the Anodyne and Soporific Alkaloids, Codeia, Narceia and Morphia.

Excludes the Poisonous and Convulsive Alkaloids, Thebaine, Narcotine and Papaverine.

SVAPNIA has been in steadily increasing use for over twenty years, and whenever used has given great satisfaction.

To PHYSICIANS OF REPUTE, not already acquainted with its merits, samples will be mailed on application.

SVAPNIA is made to conform to a uniform standard of Opium of Ten per cent. Morphia strength.

JOHN FARR, Manufacturing Chemist, New York.

C. N. CRITTENTON, Gen'l Agent, 115 Fulton St., N. Y.

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

Doctor :

You now find that your consumptive patients, with lowered vitality and exhausted tissues, are unable to bear the cold weather. With impaired appetite and weakened digestion, they cannot take and assimilate sufficient food to create the normal bodily heat.

Hence you notice them instinctively seeking the sunny side of the street, or hovering over the fire, shivering. They are now losing ground more rapidly than ever, on account of the devitalizing effects of the cold. The fear expressed by their acquaintances, that "The poor fellow will never see spring again," you find justified by the cough, the increased sputa, and the rapid increase in the pulmonary lesions.

The cold, which is a tonic to those in good health, proves permanently depressing to them, because their tissues lack sufficient tone to produce the necessary reaction.

What are you to do? Give up the case, of those in moderate circumstances, and send the rich ones to some warm, malarious climate?

No, Doctor; keep them with you, under your own watchful supervision.

Home comforts where they are will more than compensate for balmy air, with hotel inconveniences, in a strange land. Meet the accidents and emergencies of the case according to their indications as they arise, but place the patients at once and permanently on McArthur's Syrup, containing the Hypophosphites of lime and soda in their chemical purity. This will so build up all the tissues and impart tone and elasticity to the entire system, that a new life will spring up in the patient, with a power of resistance fully equal to the normal. This will be of permanent value, as it is not produced by temporary irritant stimulation, but by supplying the tissues with new food and adding cells faster than they are exhausted by the disease.

By so continuing you can keep them on the upward grade, while others are constantly losing, and, although the progress may be slow, yet you will find that your perseverance will be amply rewarded. Such a course means all the difference between the early death and the final recovery of a patient whose life may be very valuable to the family, friends, and society.

The promise is surely worth the effort, and in consideration of the number of successes recorded from such treatment, you could hardly be justified in a continued neglect of its benefits.

A sample bottle will be sent free if you will enclose your professional card and agree to pay express charges.

A valuable treatise, "The Curability and Treatment of Consumption," free.

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843. **PHILADELPHIA.**

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

{Quiniæ Valerianat, ... 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.}

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages*."

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

Dose—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

ONEITA

The water of this Spring is highly recommended by the physicians of Utica, where it is located, who use it largely in their practice with the most beneficial results in all Kidney and Liver troubles, Dyspepsia, Rheumatism, Gout, etc. It is the perfection of table waters, being pure, sparkling and delicious. Send for pamphlet with analysis of C. F. Chandler, Ph. D.

ONEITA SPRING CO.,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

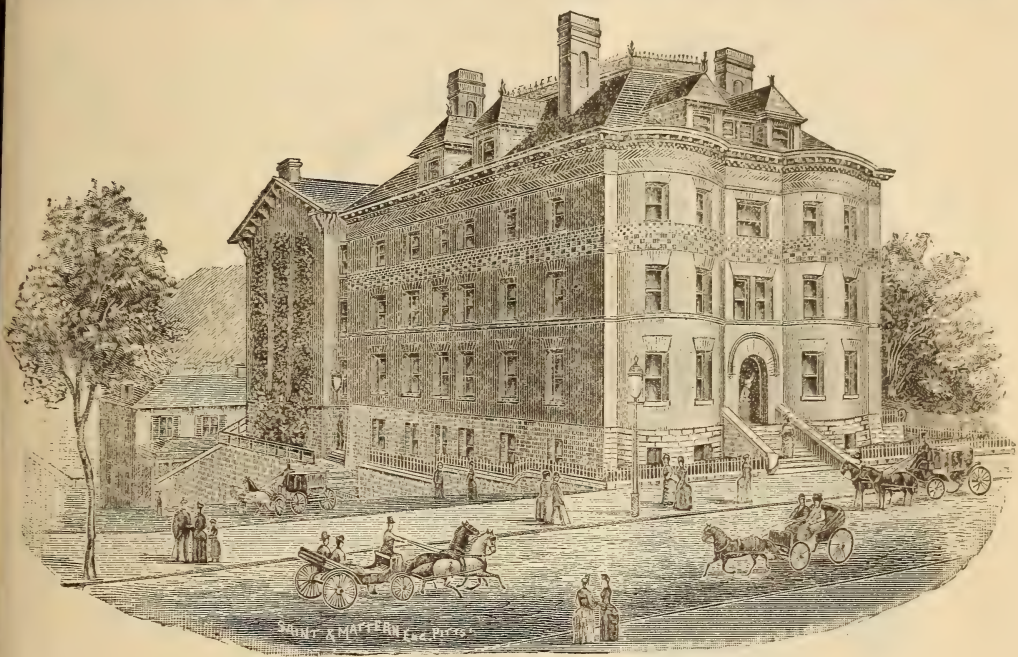
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the In-titution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

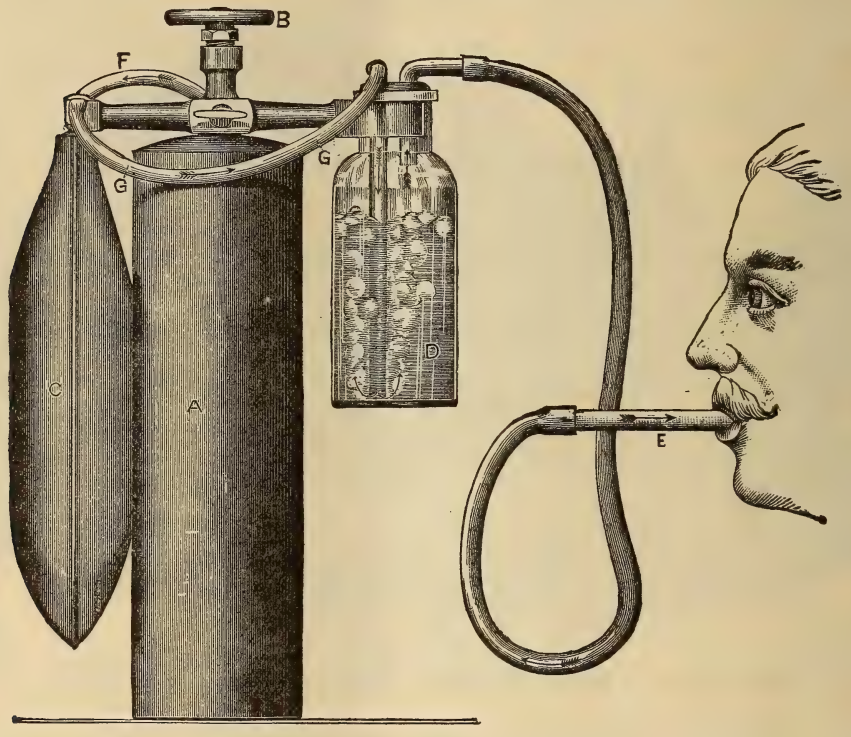
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

P. O. Box 843. Philadelphia.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

Geo Hamlin Pres't Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

WE OFFER

"PEPTOGENIC MILK POWDER"

as a means of modifying cows' milk quantitatively and qualitatively to the ascertained composition of normal mothers' milk.

Cows' milk with this Powder and the directions given yields a "humanized milk" which in chemical constitution, physical character and taste approaches very closely to human milk.

"PEPTOGENIC MILK POWDER" is designed for the sole purpose of preparing from cows' milk an adequate substitute for breast milk. It has been prepared upon the basis of comparative analyses of cows' and human milk, and its prime pivotal factor is the transformation of the caseine and other albuminoids by a digestive ferment into a form in which they remarkably agree with those designed by nature for the food of an infant.

This being accomplished, there remains no necessity for the intervention of any inert or foreign substance, or of the crude expedients hitherto employed in the attempt to overcome the inherent unfitness of cows' milk as a substitute for mothers' milk.

We do not, under any circumstances, offer "PEPTOGENIC MILK POWDER" as a Food. We do not manufacture an Infant Food.

We offer a means and a method by which a mother may, from cows' milk, cream and water, prepare a physiological substitute for breast milk.

FAIRCHILD BROS. & FOSTER,
82 & 84 FULTON STREET,
NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen phy-icians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	25.60	per	1000.
" of Women in Boston,	29,00	"	"
" in **Murdock's Free Surgical Hospital,**	**5.00**	"	"
" New York,	26.32	"	"
" Philadelphia,	20.00	"	"
" Chicago,	20.90	"	"
" St. Louis,	20.49	"	"

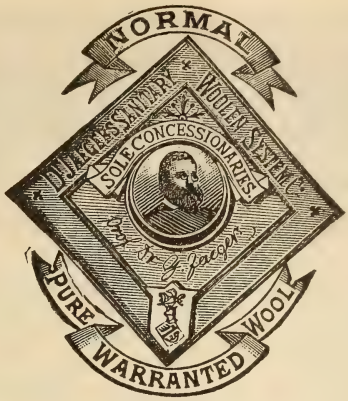
showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

NONE GENUINE WITHOUT



OUR TRADE MARK.

DR. JAEGER'S
SANITARY WOOLEN SYSTEM CO.

—OF PHILADELPHIA.—

CAUTION!

Unscrupulous dealers in woolen fabrics, seeking to take advantage of the EVER-INCREASING POPULARITY of our

SANATORY WOOLEN UNDERWEAR,

are putting upon the market spurious articles, manufactured in imitation of DR. JAEGER'S goods and brand; all persons are therefore warned against purchasing any of these goods unless stamped with our trade mark as here exhibited. In Philadelphia and vicinity the Jaeger goods can be bought only at the Company's Own Store, 1104 Chestnut Street.

The Eighth Edition of our Catalogue for Fall and Winter of 1889–90 is now ready. Free upon application.

SCRIBNER & SULZER,

1104 **CHESTNUT ST.** 1104

PHILADELPHIA.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA: MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements, Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address, DRS. S. S. & S. E. STRONG.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

STRYKER & OGDEN,

Walnut and 13th Streets, Philadelphia.

UNIVERSITY OF MARYLAND
SCHOOL OF MEDICINE.

Eighty-third Annual Announcement, 1889-90. The next regular session will begin October 1st, 1889. A full course of didactic lectures, with ample clinical and dissecting-room facilities.

FACULTY:

GEORGE W. MILTENBERGER, M.D.,
Professor of Obstetrics.
CHRISTOPHER JOHNSON, M.D.,
Emeritus Professor of Surgery.
SAMUEL C. CHEW, M.D.,
Professor of Principles and Practice of Medicine and Hygiene.
FRANK DONALDSON, M.D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.
WILLIAM T. HOWARD, M.D.,
Professor of Diseases of Women and Children and Clinical Medicine.
JULIAN J. CHISOLM, M.D.,
Professor of Eye and Ear Diseases.
FRANCIS T. MILES, M.D.,
Professor of Physiology and Clinical Professor of Diseases of Nervous System.
L. McLANE TIFFANY, M.D.,
Professor of Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy and Clinical Surgery.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.
R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.
JOHN NOLAND MACKENZIE, M.D.,
Clinical Professor of Diseases of the Throat and Nose.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.

For catalogue and further information, address: **Dr. J. EDWIN MICHAEL, Dean, 937 Madison Avenue.**

DENTAL DEPARTMENT.

Eighth Annual Announcement. Next regular session begins October 1st, 1889. New and excellent Infirmary and Laboratory, with abundance of clinical material.

FACULTY:

FRED. J. S. GORGAS, M.D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery, and Dental Mechanism.
JAMES H. HARRIS, M.D., D.D.S.,
Professor of Operative and Clinical Dentistry.
I. EDMONSON ATKINSON, M.D.,
Professor of Materia Medica and Therapeutics.
FRANCIS T. MILES, M.D.,
Professor of Physiology.
L. McLANE TIFFANY, M.D.,
Clinical Professor of Oral Surgery.
J. EDWIN MICHAEL, M.D.,
Professor of Anatomy.
R. DORSEY COALE, PH.D.,
Professor of Chemistry.
JOHN C. UHLER, M.D., D.D.S.,
Demonstrator of Mechanical Dentistry.
CHAS. L. STEEL, M.D., D.D.S.,
Demonstrator of Operative Dentistry.
HERBERT HARLAN, M.D.,
Demonstrator of Anatomy.
AND EIGHT ASSISTANT DEMONSTRATORS.

For catalogue and other information, apply to **Dr. F. J. S. GORGAS, Dean, 845 Eutaw Street, Baltimore.**

NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1, $1.25 per doz. No. 4, $1.55 per doz.
No. 2, 1.25 " No. 5, 1.70 "
No. 3, 1.40 " No. 6, 1.90 "
No. 7, $2.10 per dozen.

RAW CAT-GUT. I put this up in coils of 10 feet, four difierent sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

WILLIAM SNOWDEN,
Manufacturer, Importer and Exporter of Surgical Instruments,
No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

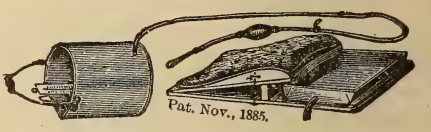
The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

WANTED.

A good location for practice in the country, by an experienced regular physician. I will pay liberally for information resulting in the finding of such an one. Would, if necessary, purchase a small amount of real estate. Address

MEDICINE,
Care of MEDICAL AND SURGICAL REPORTER,
P. O. Box 843, Philadelphia.



For more than four years the Perfection Douche has been subjected to the severest practical tests, by experienced gynaecologist in every part of this country, no objection, in a single instance, having been made to the principles upon which it is constructed.

It provides ample and comfortable support, with a slight elevation of either the shoulders or hips, furnishes means for the prolonged application of a sufficiently large amount of hot water, and completely conveys away all the drip without risk of wetting the clothing. No other apparatus for applying hot water in the treatment of uterine and pelvic diseases combines as many desirable and practical qualities. COMFORT, CONVENIENCE, DURABILITY, AND THOROUGHNESS OF APPLICATION are its main points of excellence.

Descriptive circulars, prices, and testimonials are furnished on application. These afford satisfactory evidence of unqualified endorsement of its superior advantages, and show the high appreciation in which the instrument is held by those who have repeatedly recommended and tested its work.

Applications for the Douche or for circulars or testimonials may be made to agents, or to "THE PERFECTION DOUCHE," BOX 7, ALBANY, N. Y.

Ask Grocers for our Patent Barley **CRYSTALS**, a new, unrivalled Cereal Food, for Breakfast Tea & Dessert. If not sold there, write us for free samples. **GLUTEN FLOUR** and **SPECIAL DIABETIC FOOD** are invaluable waste-repairing flours for **Dyspepsia, Diabetes, Debility & Children's Food.** No bran; mainly free from starch. For all family uses nothing equals our **HEALTH FLOUR.** Send for circular offering 4 lbs. free.
FARWELL & RHINES, Props., Watertown, N.Y

DETROIT COLLEGE OF MEDICINE.

SESSION 889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION will begin Tuesday, October 1st, 1889, at 12 M., and continue until May 1st, 1890.
The PRELIMINARY SESSION begins September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to

H. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital

B. SACHS, M.D, Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only.* No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,

214, 216 & 218 East 34th Street, New York City.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:

Pure Cod Liver Oil.....	30 m. (drops)	Soda.....	1-3 Grains
Distilled Water.....	35 "	Salicylic Acid.....	1-4 "
Soluble Pancreatin.....	5 Grains.	Hyocholic Acid.....	1-90 "

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro- pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which **HYDROLEINE** is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

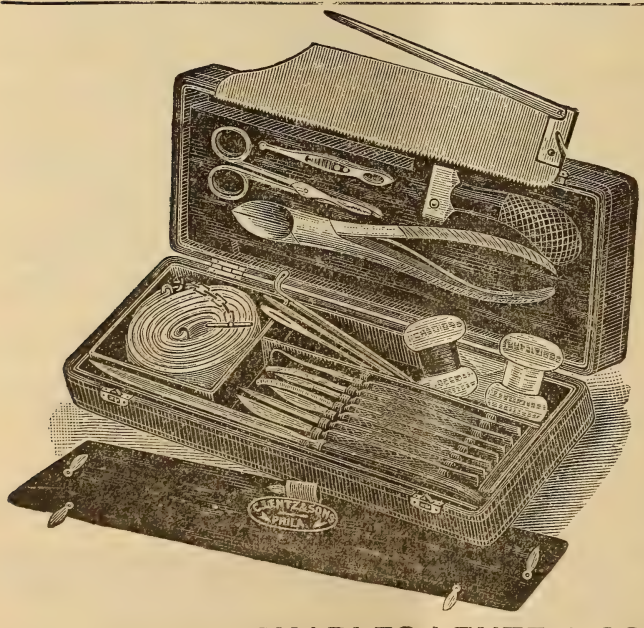
The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.



LENTZ'S NEW COMPACT OPERATING SET No. 10.

One Amputating Knife (Leg and Arm). One Finger Knife. One Hernia Knife. One Sharp Curved Bistoury. Two Scalpels. One Tenotome. One Tenaculum. One pair Scissors, curved or flat. One Saw, 9-inch blade. One Liston's Spring Bone Forceps. One Artery and Needle Forceps, improved. One Dressing Forceps. One Esmarch's Flat Rubber Tourniquets, with Chain. One Director, with Aneurism Needle. Two Silver Probes. Silk, Wire, Wax, and Needles.

The above instruments are put up in a fine Morocco Case with nickel trimmings, lined with velvet, and has extra space for Trephine and Elevator, if desired. With the *sixteen* instruments contained in this case, any ordinary operation may be performed.

Size, 11 in. long, 4 in. wide, 2 in. high

Price, $25. With Trephine and Handle and Trephine Elevator in addition, $29.65. We also make the above case with hard rubber antiseptic handles on knives and saw. Price, $29.00. With Trephine and Elevator in addition, $33.65.

Discount 25 pr. ct. to Physicians

Our New Catalogue of 260 pages will be sent on receipt of 10 cents for postage.

CHARLES LENTZ & SONS,

MANUFACTURERS OF

SURGICAL AND ORTHOPÆDIC APPARATUS,

No. 18 North Eleventh Street,

Established 1866. **Philadelphia.**

WE ARE CONFIDENT THAT WE HAVE REACHED THE **Highest Degree of Perfection** *IN SOLVING THE* **INFANT FOOD PROBLEM.**

Lacto-Preparata.

A Prepared Human Milk perfectly Sterilized and especially designed for Children from birth to six or eight months of age.

Made wholly from cow's milk with the exception that the fat of the milk is partially replaced by cocoa butter. Cocoa butter is identical with milk fat in food value and digestibility, being deficient only in the principle which causes rancidity. The milk in *Lacto-Preparata* is treated with Extract of Pancreas at a temperature of 105 degrees, a sufficient length of time to render twenty-five per cent. of the casein soluble, and partially prepare the fat for assimilation. In this process the remaining portion of the casein not peptonized, is acted upon by the pancreatic ferment in such a manner as to destroy its tough tenacious character, so that it will coagulate in light and flocculent curds, like the casein in human milk.

Lacto-Preparata is not designed to replace our **Soluble Food**, but is better adapted for Infants up to eight months of age.

Carnrick's Soluble Food

Is the Nearest Approach to Human Milk that has thus far been produced, with the exception of Lacto-Preparata.

During the past season a large number of Physicians and eminent Chemists visited our Laboratory at Goshen, N. Y., and witnessed every detail connected with the production of Carnrick's Soluble Food. This invitation to witness our process is continuously open to Physicians and Chemists. All expenses from New York to Goshen and return will be paid by us. The care used in gathering the milk, its sterilization, and the cleanliness exercised in every step, cannot be excelled. Soluble Food has been improved by increasing the quantity of milk sugar and partially replacing the milk fat with cocoa butter.

SULPHO-CALCINE.

—A Positive Solvent for Diphtheritic Membrane.—

It is with great pleasure that we present to the medical profession this new and valuable combination. In over one hundred cases in the practice, and under the personal supervision of one of the most eminent and successful practitioners, in which he tested it, the membrane was dissolved in every instance, save one. This failure was not due to the want of efficacy of the preparation, but to the inability of the little patient's parents to enforce the use of it. Its action is rapid, in the majority of cases cleaning the tonsils and fauces within twenty-four hours, and in only one case of the hundred did it take forty-eight hours to accomplish its entire removal. In a case of relapse with most frightful extension of the membrane all over the whole vault of the mouth, fauces, tonsils, and larynx, accompanied with the greatest prostration, the membrane was entirely removed in forty-eight hours.

Its medical properties are antiseptic, resolvent, astringent, disinfectant and powerfully solvent.

It is entirely non poisonous and will not injure the most delicate tissues of the youngest child. It contains: Pure Oxide of Calcium; Flores Sulphuris Loti, thoroughly washed and purified; Benzo Boracic Acid, chemically pure; Oleum Eucalyptus Globulus; Oleum Gaultheria; Extractum Pancreaticus, entirely free from fat.

At a glance we see that **Sulpho-Calcine** contains, in intimate and chemical combination, all the ingredients which have proven to be of material benefit through past experience, in dissolving the membrane of Diphtheria.

Sulpho-Calcine is used either in the form of a gargle or spray. If as a gargle, it may be used pure or, which is just as well, diluted one-half with water. But if used as a spray, it must be in the concentrated form. This also applies when used with either the swab or the camel's hair brush. If any of the medicine is swallowed, no harm will ensue, but on the contrary it will help to relieve the constitutional symptoms, by its antiseptic action, as will be readily understood by a study of its component parts.

Samples of any of our preparations sent to physicians gratuitously for trial.

REED & CARNRICK, NEW YORK.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion"—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **C. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years, is now imported into this market, and pronounced by connoisseurs unsurpassed for excellence and bouquet.

ORDER IN TIME

The Pocket Record and Visiting List for 1890

Is now in preparation. Will be ready December 1st.

TWO SIZES:

1. For 30 Patients a week (with or without dates), . . . $1 25
2. For 60 Patients a week (without dates), ... 1 50

☞ *To paid-up subscribers to the Reporter a reduction of 25 cents will be made from these prices.* **Send Money with Order.**

Address

MEDICAL AND SURGICAL REPORTER,
P. O. Box 843, Philadelphia.

About advertisements.

The readers of the Reporter know that the publishers have tried to avoid the appearance — as well as the fact — of sacrificing the interest of the reader to the pecuniary gain of the Journal. Still we do not wish to underrate the value of our advertising pages to our readers. We try to admit to them nothing but what is worthy of consideration. We cannot judge of the claims of various preparations, but those we lay before our readers are worth trying and those who try them shall determine their merits.

Our readers may therefore be sure that there is much to interest, & to instruct them, in the advertising pages; and we would strongly urge them to read these pages as regularly as they do the other part of the Reporter.

Partly because we rigidly exclude our advertisers from the "reading" pages, we bespeak especial attention for what they say for themselves in the pages devoted to them.

The Publisher of the
Medical & Surgical Reporter.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

WE OFFER

"PEPTOGENIC MILK POWDER"

as a means of modifying cows' milk quantitatively and qualitatively to the ascertained composition of normal mothers' milk.

Cows' milk with this Powder and the directions given yields a "humanized milk" which in chemical constitution, physical character and taste approaches very closely to human milk.

"PEPTOGENIC MILK POWDER" is designed for the sole purpose of preparing from cows' milk an adequate substitute for breast milk. It has been prepared upon the basis of comparative analyses of cows' and human milk, and its prime pivotal factor is the transformation of the caseine and other albuminoids by a digestive ferment into a form in which they remarkably agree with those designed by nature for the food of an infant.

This being accomplished, there remains no necessity for the intervention of any inert or foreign substance, or of the crude expedients hitherto employed in the attempt to overcome the inherent unfitness of cows' milk as a substitute for mothers' milk.

We do not, under any circumstances, offer "PEPTOGENIC MILK POWDER" as a Food. We do not manufacture an Infant Food.

We offer a means and a method by which a mother may, from cows' milk, cream and water, prepare a physiological substitute for breast milk.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron**, is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"The Mathey-Caylus Capsules, of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages*."

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

AND OF ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

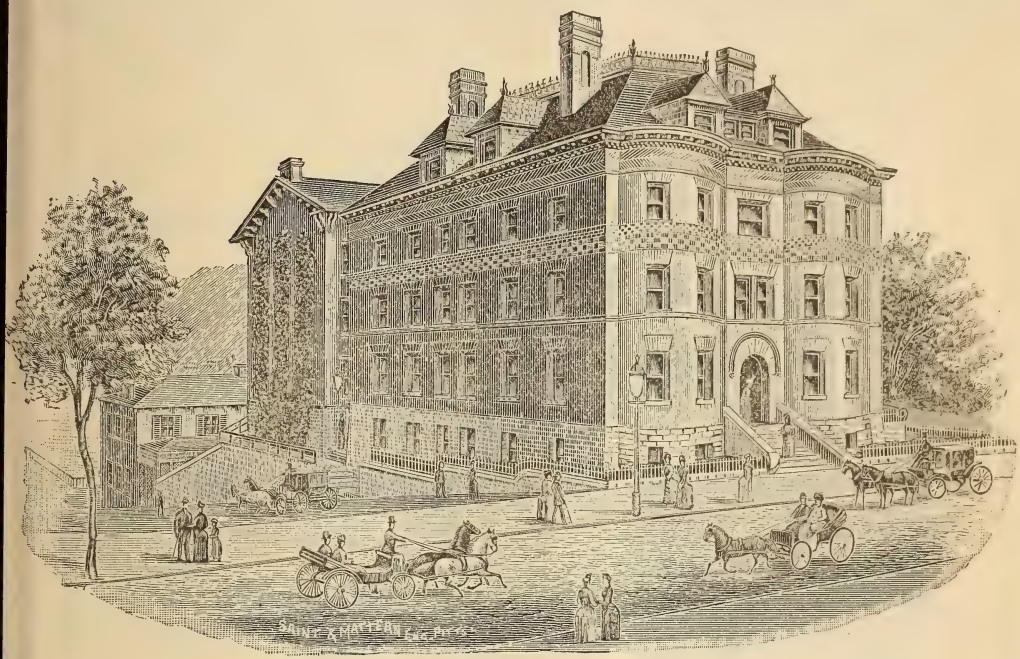
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

MISS KENNEDY,

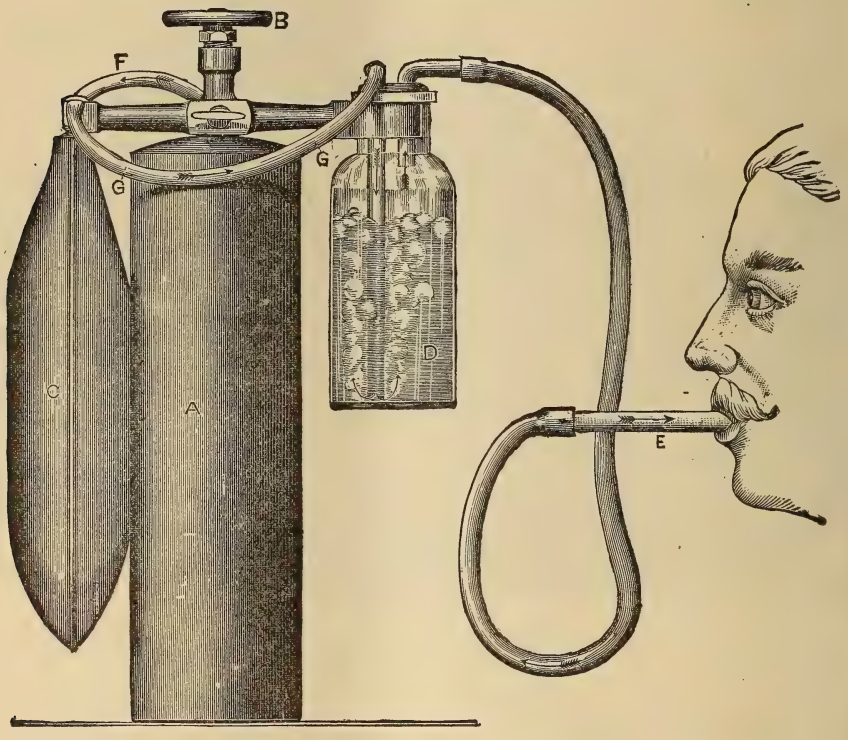
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

W. R. WARNER & CO'S

NEW AND RELIABLE RECIPES FOR PHYSICIANS PRESCRIBING.

In order to get the full therapeutic effects, physicians will please specify (WARNER & CO.) when ordering or prescribing.

☞The coating of the following pill will dissolve in 4½ minutes.☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.
Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½., Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid. 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc'd Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food.

Supplied upon physician's prescription by all leading druggists.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" in **Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month; thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor:

You now find that your consumptive patients, with lowered vitality and exhausted tissues, are unable to bear the cold weather. With impaired appetite and weakened digestion, they cannot take and assimilate sufficient food to create the normal bodily heat.

Hence you notice them instinctively seeking the sunny side of the street, or hovering over the fire, shivering. They are now losing ground more rapidly than ever, on account of the devitalizing effects of the cold. The fear expressed by their acquaintances, that "The poor fellow will never see spring again," you find justified by the cough, the increased sputa, and the rapid increase in the pulmonary lesions.

The cold, which is a tonic to those in good health, proves permanently depressing to them, because their tissues lack sufficient tone to produce the necessary reaction.

What are you to do? Give up the case, of those in moderate circumstances, and send the rich ones to some warm, malarious climate?

No, Doctor; keep them with you, under your own watchful supervision.

Home comforts where they are will more than compensate for balmy air, with hotel inconveniences, in a strange land. Meet the accidents and emergencies of the case according to their indications as they arise, but place the patients at once and permanently on McArthur's Syrup, containing the Hypophosphites of lime and soda in their chemical purity. This will so build up all the tissues and impart tone and elasticity to the entire system, that a new life will spring up in the patient, with a power of resistance fully equal to the normal. This will be of permanent value, as it is not produced by temporary irritant stimulation, but by supplying the tissues with new food and adding cells faster than they are exhausted by the disease.

By so continuing you can keep them on the upward grade, while others are constantly losing, and, although the progress may be slow, yet you will find that your perseverance will be amply rewarded. Such a course means all the difference between the early death and the final recovery of a patient whose life may be very valuable to the family, friends, and society.

The promise is surely worth the effort, and in consideration of the number of successes recorded from such treatment, you could hardly be justified in a continued neglect of its benefits.

A sample bottle will be sent free if you will enclose your professional card and agree to pay express charges.

A valuable treatise, "The Curability and Treatment of Consumption," free.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

SAVE MONEY
IN BUYING BOOKS.

By special arrangement with the publishers we are able AT THIS TIME to offer to **OUR SUBSCRIBERS** certain valuable books at a very **LOW PRICE.**

☞This can be done only in connection with paid-up subscriptions.☜

FOR $10.00

we will send the **REPORTER** for one year, **$5.00**

and **DICTIONARY OF PRACTICAL SURGERY.** By various British Hospital Surgeons. Edited by Christopher Heath, F. R. C. S. One volume, 8vo. Over 2,000 pages. Cloth, ... **$7.50**

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

{Quiniæ Valerianat, . . . 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.}

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children,* and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda,* and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica,* and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves,* (fifth pair), *con- "gestive neuralgias,* and *painful and inflammatory Rheumatismal "affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting "of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux,* Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic,* is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence,* having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

E. FOUGERA & CO., New York,

Sole Agents for the United States for the above Preparations.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Commence Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

The perfection of table waters, with mineral properties unsurpassed in the treatmeut of Dyspepsia, Kidney and Liver troubles, Gout, Rheumatism, etc. The analysis of the spring shows a combination of mineral virtues unequaled in any other water. The water has been before the public but a short time, yet in that time has won public favor to a marked degree. Send for analysis of C. F. Chandler, Ph. D.

ONEITA SPRING CO.,

UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

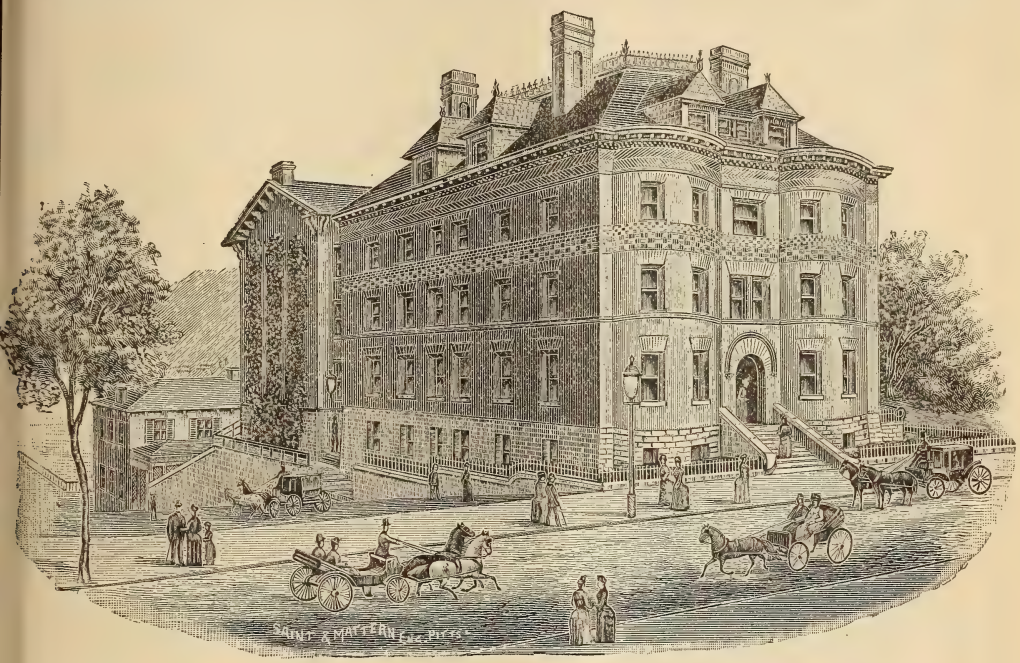
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

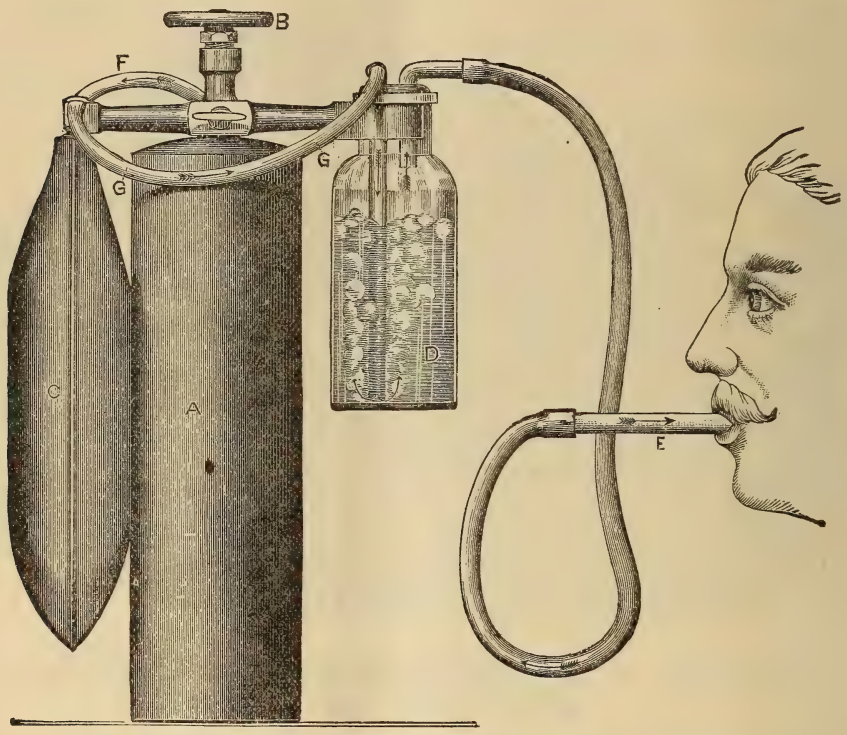
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

A Peerless Chemico-Physiological Food and Restorative

Crystalline Phosphate

A

TISSUE FOOD

PHOSPHATIC FOOD — PROPRIETARY PRODUCTS — TRADE MARK

Contains all essential inorganic components of the tissues in a semi-solid, easily soluble, crystalline mass,

COMPOSED OF

ACID PHOSPHATE OF CALCIUM.

WITH

Acid Phosphate of Magnesium,
" " " Iron,
" " " Sodium,
" " " Potassium,

Chloride of Potassium,
" " Sodium
Sulphate of Potassium,
and Phosphoric acid.

INDICATIONS:

STOMACH DISORDERS, such as Indigestion, Flatulence Gastric Catarrh, and Poor Appetite, Constipation, etc.

WRONGS OF NUTRITION, as in Scrofula, Rickets, Caries, Marasmus, Delayed Union of Fractures, Necrosis of Tissue, Difficult or Delayed Dentition and Development, etc.

NERVOUS AND GENERAL DEBILITY AND SLEEPLESSNESS, as from Sexual Excess, Venerial Disease, Childbearing, Nursing, Loss of Blood or other fluids, Menstrual and other Diseases of Women, abuse of Alcohol, Tobacco and Narcotics, Protracted Illness, etc.

PROF. KONN B. SAYRES, M. D., Demonstrator of Anatomy, Miami Medical College, Cincinnati, O.

I am pleased to inform you that I have during about six months last past made a critical trial of your **Crystalline Phosphate,** in various cases of mal-nutrition, nervous prostration, atonic dyspepsia, insomnia and kindred derangements of the vital functions, which has demonstrated the fact that it is a preparation of *very great value.* I believe your representations concerning it are fully justified by actual and palpable results in my practice, and I very cheerfully recommend it, knowing that a fair trial will prove it worthy of the confidence of the profession.

Write for Samples and Treatise—Mailed Free. Mention this Journal.

E. C. RICH CO., Limited, New York City, Eastern Agents,

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" in **Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

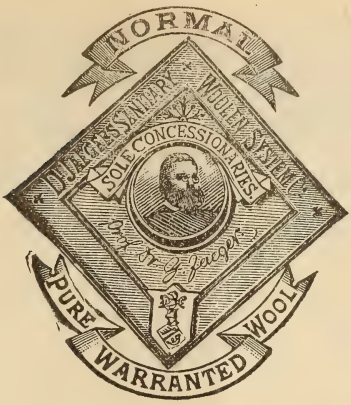
showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

NONE GENUINE WITHOUT



OUR TRADE MARK.

DR. JAEGER'S
SANITARY WOOLEN SYSTEM CO.

—OF PHILADELPHIA.—

CAUTION!

Unscrupulous dealers in woolen fabrics, seeking to take advantage of the EVER-INCREASING POPULARITY of our

PHILADELPHIA.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements, Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address, DRS. S. S. & S. E. STRONG.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them.

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—Dr. Double, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine,* Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)

BLAUD

VACCINE VIRUS

It is safe to say that the Virus supplied from the Reporter office is as reliable as it is possible to secure. It is carefully selected by a medical man whose experience and character justify the strongest recommendations.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only.* No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden)."* A Sample of COLDEN'S BEEF TONIC will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

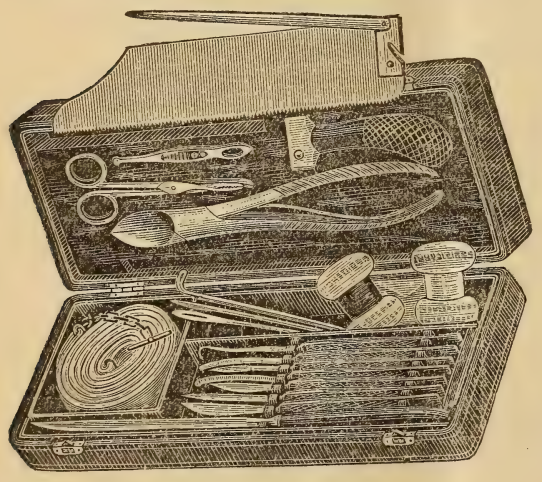
THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... **$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw, ... **29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... **25 00**
Either Set, with Trephine and Elevator in addition, ... **4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS. Our Catalogue of 260 pages will be sent on receipt of 10 cts. for postage.

CHARLES LENTZ & SONS, Manufacturers of Surgical and Orthopædic Apparatus,

Established 1866. **18 North Eleventh Street, Philadelphia.**

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

Circulars sent to Physicians on Application.

Or, **FOR $6.00,** any one of the above Nursing Books and **THOMSON'S (Sir Henry) SURGERY OF THE URINARY ORGANS.** Some important points connected with the Surgery of the Urinary Organs. Illustrated. Cloth, ... **$1.25**

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by Dr. Geo. W. McDade, exclusively for Eli Lilly & Co., and endorsed by Dr. J. Marion Sims.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and *never in bulk.*

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica,** as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power. The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills,** a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation,** there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks,** or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions,** the result of excesses, **mental apathy,** or indifference, and in an **enfeebled condition of the general system,** with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organs** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic,** and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea,** and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

ELI LILLY & CO., PHARMACEUTICAL CHEMISTS, INDIANAPOLIS, IND., U. S. A.

SUPPLIED BY ALL DRUGGISTS.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

WE OFFER

"PEPTOGENIC MILK POWDER"

as a means of modifying cows' milk quantitatively and qualitatively to the ascertained composition of normal mothers' milk.

Cows' milk with this Powder and the directions given yields a "humanized milk" which in chemical constitution, physical character and taste approaches very closely to human milk.

"PEPTOGENIC MILK POWDER" is designed for the sole purpose of preparing from cows' milk an adequate substitute for breast milk. It has been prepared upon the basis of comparative analyses of cows' and human milk, and its prime pivotal factor is the transformation of the caseine and other albuminoids by a digestive ferment into a form in which they remarkably agree with those designed by nature for the food of an infant.

This being accomplished, there remains no necessity for the intervention of any inert or foreign substance, or of the crude expedients hitherto employed in the attempt to overcome the inherent unfitness of cows' milk as a substitute for mothers' milk.

We do not, under any circumstances, offer "PEPTOGENIC MILK POWDER" as a Food. We do not manufacture an Infant Food.

We offer a means and a method by which a mother may, from cows' milk, cream and water, prepare a physiological substitute for breast milk.

FAIRCHILD BROS. & FOSTER,

82 & 84 FULTON STREET,

NEW YORK.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

ONEITA

The perfection of table waters, with mineral properties unsurpassed in the treatmeut of Dyspepsia, Kidney and Liver troubles, Gout, Rheumatism, etc. The analysis of the spring shows a combination of mineral virtues unequaled in any other water. The water has been before the public but a short time, yet in that time has won public favor to a marked degree. Send for analysis of C. F. Chandler, Ph. D.

ONEITA SPRING CO.,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

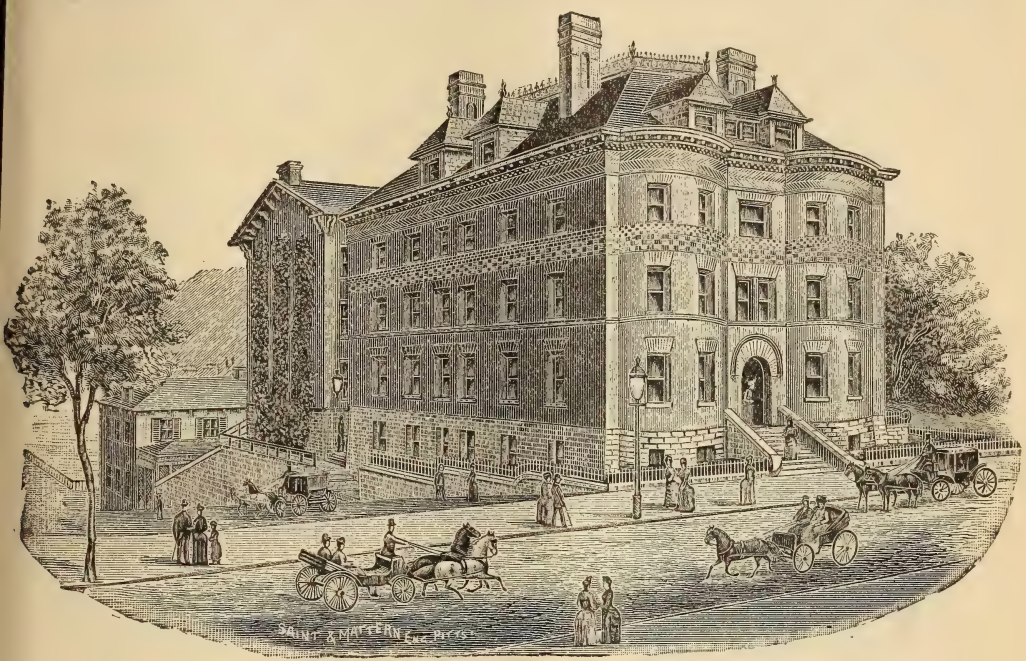
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

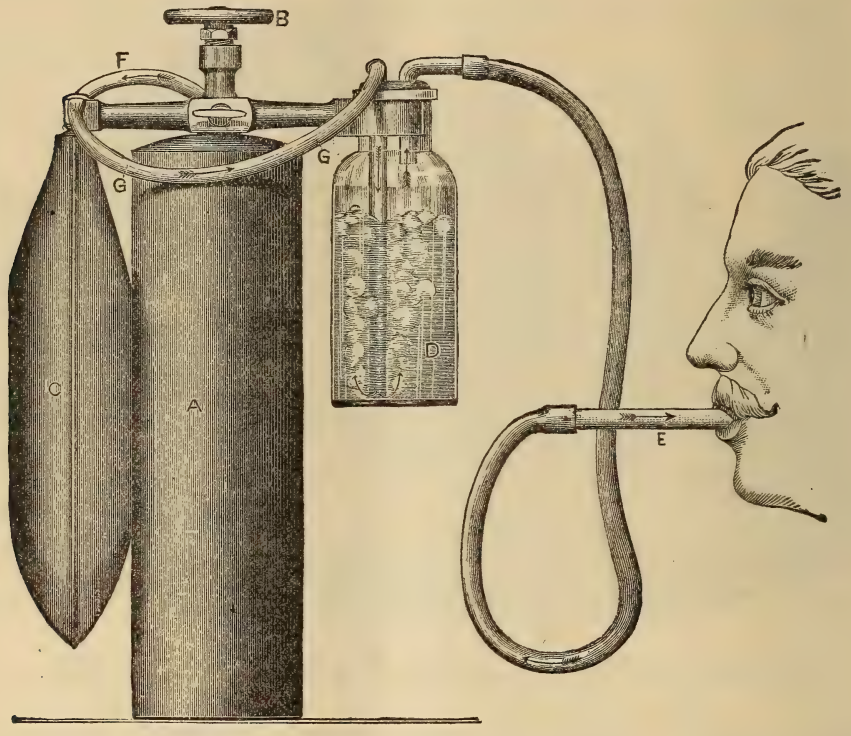
MISS KENNEDY,

170 Ridge Ave., Allegheny, Pa.

INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

21 Park Place N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

CEREBRAL EXHAUSTION

HORSFORD'S ACID PHOSPHATE.

It has been shown that the phosphates are found in excess in the urine in cases where the nerve centres (the brain and spinal cord) have been overworked, or subjected to undue labor, and the opinion is confirmed that there is a received relation between an excess of phosphates in the urine, and intellectual exercise.

This preparation supplies the phosphates and phosphoric acid, is readily assimilated, pleasant to the taste, and aids digestion.

Dr. S. A. HARVEY, Cheboygan, Mich., says:

"I have used it with marked benefit, in several cases of cerebral irritation."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "HORSFORD'S" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	25.60	per	1000.
" of Women in Boston,	29,00	"	"
" in **Murdock's Free Surgical Hospital,**	**5.00**	"	"
" New York,	26.32	"	"
" Philadelphia,	20.00	"	"
" Chicago,	20 90	"	"
" St. Louis,	20.49	"	"

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive; never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea, suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to

PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address

JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER, M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

HELP!!

WE WANT TO ASK all the **FRIENDS** of the MEDICAL AND SURGICAL REPORTER to **HELP** to make it the strongest Medical Journal in **AMERICA,** or anywhere, for that matter.

It now has subscribers in every **STATE AND TERRITORY,** in ***Canada, Mexico, South America, Europe, and Asia,—*** **AFRICA IS WAITING.**

But it could have even more. ***We might employ Canvassers*** to go around and solicit subscriptions, but we would ***prefer to have*** **ITS FRIENDS** recommend it ***to their friends.*** You **KNOW WHAT IT IS** and can tell.

It aims to be

INTERESTING!
INSTRUCTIVE!
WIDE-AWAKE!
FEARLESS!

☞If it is **NOT;** then don't recommend it.

And not ***too heavy*** for a ***busy Doctor*** to enjoy.

We don't **ASK ANYBODY** to do { ***something for nothing,*** } so we propose to offer ***to our subscribers*** the following **PREMIUM FOR NEW SUBSCRIBERS.**

To any paid-up subscriber sending us, before January 1, 1890, the name of one new subscriber, (with $5.00) we will send as

A PREMIUM

any publication or instrument in our own list, or that of any publisher or instrument maker, to the value of **TWO DOLLARS.** OR: any subscriber sending a ***new name,*** and eight dollars, will be credited with a year's subscription on his own account, and the REPORTER will be sent to the new address until ***January 1, 1891.***

SVAPNIA

OR

PURIFIED OPIUM

☞ FOR PHYSICIANS USE ONLY. ☜

Contains the Anodyne and Soporific Alkaloids, Codeia, Narceia and Morphia.

Excludes the Poisonous and Convulsive Alkaloids, Thebaine, Narcotine and Papaverine.

SVAPNIA has been in steadily increasing use for over twenty years, and whenever used has given great satisfaction.

To PHYSICIANS OF REPUTE, not already acquainted with its merits, samples will be mailed on application.

SVAPNIA is made to conform to a uniform standard of Opium of Ten per cent. Morphia strength.

JOHN FARR, Manufacturing Chemist, New York.

C. N. CRITTENTON, Gen'l Agent, 115 Fulton St., N. Y.

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

Doctor:

You now find that your consumptive patients, with lowered vitality and exhausted tissues, are unable to bear the cold weather. With impaired appetite and weakened digestion, they cannot take and assimilate sufficient food to create the normal bodily heat.

Hence you notice them instinctively seeking the sunny side of the street, or hovering over the fire, shivering. They are now losing ground more rapidly than ever, on account of the devitalizing effects of the cold. The fear expressed by their acquaintances, that "The poor fellow will never see spring again," you find justified by the cough, the increased sputa, and the rapid increase in the pulmonary lesions.

The cold, which is a tonic to those in good health, proves permanently depressing to them, because their tissues lack sufficient tone to produce the necessary reaction.

What are you to do? Give up the case, of those in moderate circumstances, and send the rich ones to some warm, malarious climate?

No, Doctor; keep them with you, under your own watchful supervision.

Home comforts where they are will more than compensate for balmy air, with hotel inconveniences, in a strange land. Meet the accidents and emergencies of the case according to their indications as they arise, but place the patients at once and permanently on McArthur's Syrup, containing the Hypophosphites of lime and soda in their chemical purity. This will so build up all the tissues and impart tone and elasticity to the entire system, that a new life will spring up in the patient, with a power of resistance fully equal to the normal. This will be of permanent value, as it is not produced by temporary irritant stimulation, but by supplying the tissues with new food and adding cells faster than they are exhausted by the disease.

By so continuing you can keep them on the upward grade, while others are constantly losing, and, although the progress may be slow, yet you will find that your perseverance will be amply rewarded. Such a course means all the difference between the early death and the final recovery of a patient whose life may be very valuable to the family, friends, and society.

The promise is surely worth the effort, and in consideration of the number of successes recorded from such treatment, you could hardly be justified in a continued neglect of its benefits.

A sample bottle will be sent free if you will enclose your professional card and agree to pay express charges.

A valuable treatise, "The Curability and Treatment of Consumption," free.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

SAVE MONEY
IN BUYING BOOKS.

By special arrangement with the publishers we are able AT THIS TIME to offer to **OUR SUBSCRIBERS** certain valuable books at a very **LOW PRICE.**

☞This can be done only in connection with paid-up subscriptions.☜

FOR $10.00

we will send the **REPORTER** for one year, **$5.00**

and **DICTIONARY OF PRACTICAL SURGERY.** By various British Hospital Surgeons. Edited by Christopher Heath, F. R. C. S. One volume, 8vo. Over 2,000 pages. Cloth, ... **$7.50**

"A most excellent book for the library of the surgeon, and especially for the country practitioner; as a book of reference it is so concise and at the same time so complete."—C. B. PORTER, M. D., Boston, Mass.

"As a means of ready reference for the student and busy practitioner this book stands unexcelled."—N. SENN, M. D.

FOR $9.00

we will send the **REPORTER** for one year, **$5.00**

and **THOMAS'S MEDICAL DICTIONARY.** A complete Pronouncing Medical Dictionary. Embracing the Terminology of Medicine and the kindred Sciences, with their signification, etymology, and pronunciation. With an Appendix, comprising an explanation of the Latin terms and phrases occurring in Medicine, Anatomy, Pharmacy, etc., together with the necessary directions for writing Latin Prescriptions, etc., etc. By Joseph Thomas, M. D., LL.D. Imperial 8vo. 844 pages. Sheep, ... **$6.00**

☞"It is just the book for a medical or any other student, and it should be in the office of every physician. This dictionary supplies a place that has never been filled. I have looked it through and find all the new words that I have sought."—PROF. A. F. PATTON, College of Physicians and Surgeons, Boston, Mass.

Or, **TREATISE ON HUMAN ANATOMY, by JOSEPH LEIDY, M. D.,** Professor of Anatomy in the University of Pennsylvania, etc., etc. New (second) edition, rewritten and enlarged. Containing 495 illustrations. 8vo. Extra cloth, . . . **$6.00**

☞"The student can master and retain a practical knowledge of anatomy in a shorter time and with less hard work from this text-book than from any other work extant, and it has been our privilege to teach anatomy for several years."—MEDICAL ADVANCE, Ann Arbor, Mich.

Or, **FOR $6.00,** any one of the above Nursing Books and **THOMSON'S (Sir Henry) SURGERY OF THE URINARY ORGANS.** Some important points connected with the Surgery of the Urinary Organs. Illustrated. Cloth, ... **$1.25**

Editor Medical Brief, St. Louis, Mo.:

The family doctor only knows how widespread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which work like a charm:

Zinci Valerianat, 20 grs.
Quiniæ Valerianat, 20 grs.
Ferri Valerianat, 20 grs.
(M. ft. pil. No. 20. Sig.: One, three times a day.)

The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and I find them a specific for the worry of nervous women, melancholia and incipient insanity.

Please try them and report. Your success will be sure.

S. A. De FOE, M. D.,
Washington, N. J.

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT, "W. H. S. & CO."

{Quiniæ Valerianat, ... 1 gr.
Ferri Valerianat, ... 1 gr.
Zinci Valerianat, ... 1 gr.}

Highly recommended for melancholia, and the fretfulness and worry of nervous women.

When this pill was first introduced by us, the interest of the Medical Profession throughout our country was aroused to such an extent as to create a demand which for a time we found it difficult to supply. That demand has continued, thus indicating the popularity and efficiency of this formula.

Timely remedies in pill form prepared by W. H. Schieffelin & Co.

ANTIPYRETICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Acetanilid, "W. H. S. & Co.," 1, 2 and 5 grs.
Pil. Warburg's Tincture, with or without Aloes, "W. H. S. & Co."

ANALGESICS.

Pil. Phenacetine, "W. H. S. & Co.," 2, 4 and 5 grs.
Pil. Codeia, "W. H. S. & Co.," 1-16, 1-8, 1-4 and 1-2 grs.

HYPNOTICS.

Pil. Sulfonal—Bayer, "W. H. S. & Co.," 5 grains.
Pil. Hyoscyami, "W. H. S. & Co.," 1-300, 1-200, 1-100 and 1-50 gr.

INTESTINAL ANTISEPTIC.

Pil. Salol, "W. H. S. & Co.," 2 1-2 and 5 grs.

For full information regarding our Soluble Pills we would refer to our Formula Book, which will be furnished on application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children,* and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda,* and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

"**The Mathey-Caylus Capsules,** of the *Essence of "Santal,* associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges, "Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck, "Urethritis, Catarrh,* and other *diseases of the bladder,* together "with all affections of the *Urinary Passages.*"

"Thanks to their thin envelope of *Gluten,* which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

AND OF ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica,* and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves,* (fifth pair), *con- "gestive neuralgias,* and *painful and inflammatory Rheumatismal "affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting "of the 28th February, 1880.*

Dose—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux,* Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic,* is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence,* having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

E. FOUGERA & CO., New York,

Sole Agents for the United States for the above Preparations.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics Began Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhœa, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

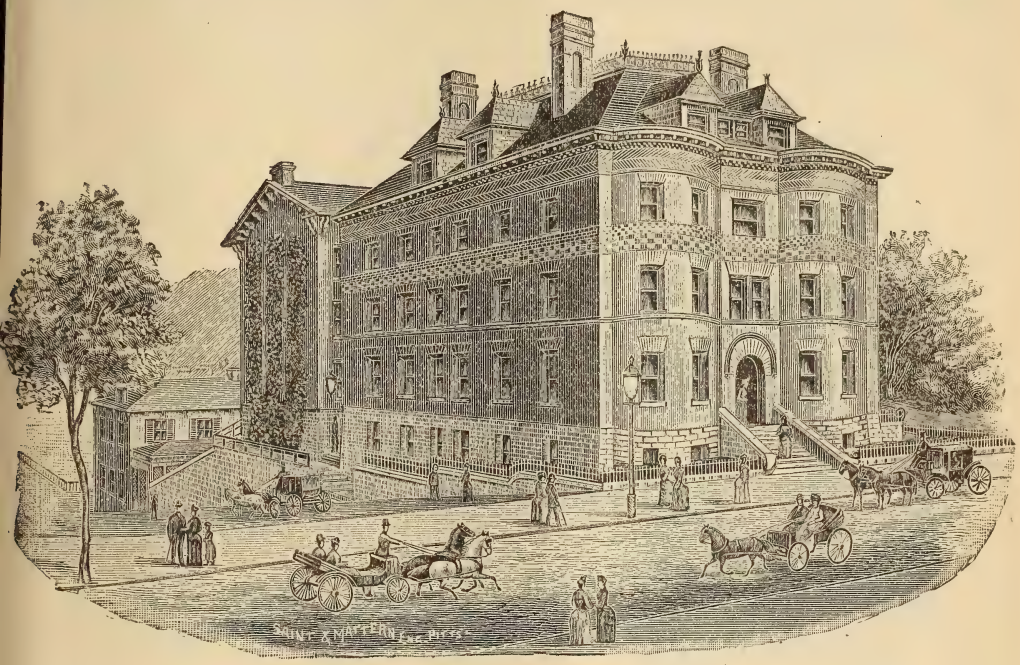
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

MISS KENNEDY,

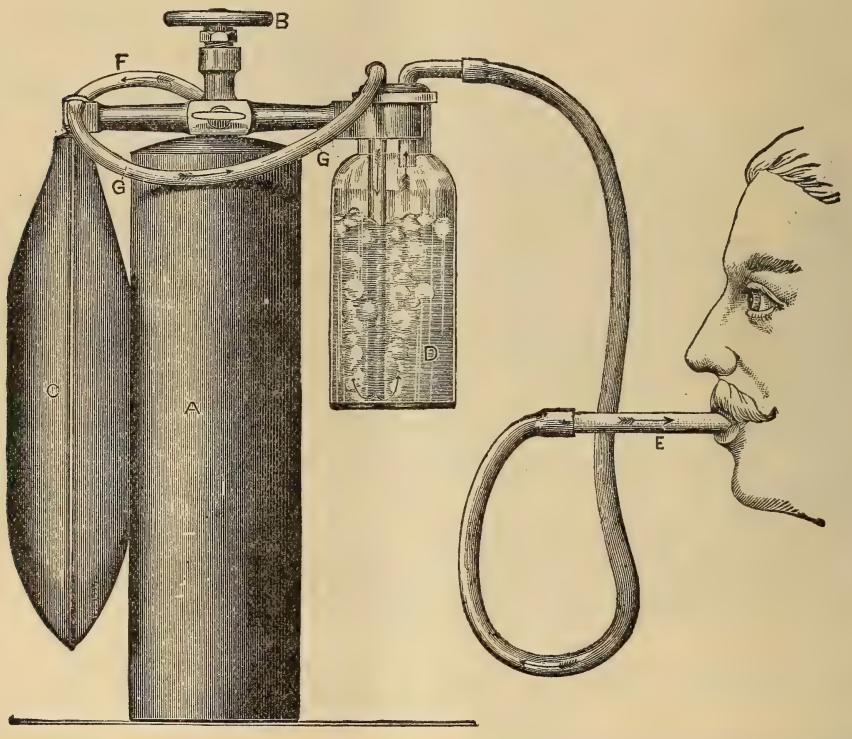
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

California Vintage Co.

21 Park Place N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

WE OFFER

"PEPTOGENIC MILK POWDER"

as a means of modifying cows' milk quantitatively and qualitatively to the ascertained composition of normal mothers' milk.

Cows' milk with this Powder and the directions given yields a "humanized milk" which in chemical constitution, physical character and taste approaches very closely to human milk.

"PEPTOGENIC MILK POWDER" is designed for the sole purpose of preparing from cows' milk an adequate substitute for breast milk. It has been prepared upon the basis of comparative analyses of cows' and human milk, and its prime pivotal factor is the transformation of the caseine and other albuminoids by a digestive ferment into a form in which they remarkably agree with those designed by nature for the food of an infant.

This being accomplished, there remains no necessity for the intervention of any inert or foreign substance, or of the crude expedients hitherto employed in the attempt to overcome the inherent unfitness of cows' milk as a substitute for mothers' milk.

We do not, under any circumstances, offer "PEPTOGENIC MILK POWDER" as a Food. We do not manufacture an Infant Food.

We offer a means and a method by which a mother may, from cows' milk, cream and water, prepare a physiological substitute for breast milk.

FAIRCHILD BROS. & FOSTER,
82 & 84 FULTON STREET,
NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" in **Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. **A NON-ALCOHOLIC LIQUID.** WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

Medical College of Ohio.

Medical Department of the University of Cincinnati.

The Seventy-first Annual Session will begin September 4, 1889, and continue until March 1, 1890.

FEES.—Matriculation Ticket, $5.00; General Lecture Ticket, $75.00; Hospital Ticket, $5.00; Graduation Fee, $25.00.

For circulars, and further information, address
JAMES G. HYNDMAN, M.D., Secretary,
22 West Ninth Street, Cincinnati, Ohio.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER, M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only.* No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty.

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:

Pure Cod Liver Oil	30 m. (drops)	Soda	1-3 Grains
Distilled Water	35 "	Salicylic Acid	1-4 "
Soluble Pancreatin	5 Grains.	Hyocholic Acid	1-30 "

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which **HYDROLEINE** is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

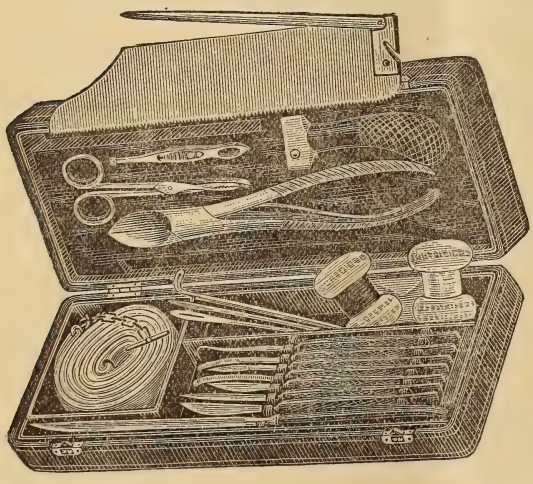
SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw,	**$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw,	**29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration),	**25 00**
Either Set, with Trephine and Elevator in addition,	**4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS. Our Catalogue of 260 pages will be sent on receipt of 10 cts. for postage.

CHARLES LENTZ & SONS, Manufacturers of Surgical and Orthopædic Apparatus,

Established 1866. 18 North Eleventh Street, Philadelphia.

WE ARE CONFIDENT THAT WE HAVE REACHED THE **Highest Degree of Perfection** *IN SOLVING THE* **INFANT FOOD PROBLEM.**

Lacto-Preparata.

A Prepared Human Milk perfectly Sterilized and especially designed for Children from birth to six or eight months of age.

Made wholly from cow's milk with the exception that the fat of the milk is partially replaced by cocoa butter. Cocoa butter is identical with milk fat in food value and digestibility, being deficient only in the principle which causes rancidity. The milk in *Lacto-Preparata* is treated with Extract of Pancreas at a temperature of 105 degrees, a sufficient length of time to render twenty-five per cent. of the casein soluble, and partially prepare the fat for assimilation. In this process the remaining portion of the casein not peptonized, is acted upon by the pancreatic ferment in such a manner as to destroy its tough tenacious character, so that it will coagulate in light and flocculent curds, like the casein in human milk.

Lacto-Preparata is not designed to replace our **Soluble Food,** but is better adapted for Infants up to eight months of age.

Carnrick's Soluble Food

Is the Nearest Approach to Human Milk that has thus far been produced, with the exception of Lacto-Preparata.

During the past season a large number of Physicians and eminent Chemists visited our Laboratory at Goshen, N. Y., and witnessed every detail connected with the production of Carnrick's Soluble Food. This invitation to witness our process is continuously open to Physicians and Chemists. All expenses from New York to Goshen and return will be paid by us. The care used in gathering the milk, its sterilization, and the cleanliness exercised in every step, cannot be excelled. Soluble Food has been improved by increasing the quantity of milk sugar and partially replacing the milk fat with cocoa butter.

SULPHO-CALCINE.

—A Positive Solvent for Diphtheritic Membrane.—

It is with great pleasure that we present to the medical profession this new and valuable combination. In over one hundred cases in the practice, and under the personal supervision of one of the most eminent and successful practitioners, in which he tested it, the membrane was dissolved in every instance, save one. This failure was not due to the want of efficacy of the preparation, but to the inability of the little patient's parents to enforce the use of it. Its action is rapid, in the majority of cases cleaning the tonsils and fauces within twenty-four hours, and in only one case of the hundred did it take forty-eight hours to accomplish its entire removal. In a case of relapse with most frightful extension of the membrane all over the whole vault of the mouth, fauces, tonsils, and larynx, accompanied with the greatest prostration, the membrane was entirely removed in forty-eight hours.

Its medicinal properties are antiseptic, resolvent, astringent, disinfectant and powerfully solvent.

It is entirely non poisonous and will not injure the most delicate tissues of the youngest child. It contains: Pure Oxide of Calcium; Flores Sulphuris Loti, thoroughly washed and purified; Benzo Boracic Acid, chemically pure; Oleum Eucalyptus Globulus; Oleum Gaultheria; Extractum Pancreaticus, entirely free from fat.

At a glance we see that **Sulpho-Calcine** contains, in intimate and chemical combination, all the ingredients which have proven to be of material benefit through past experience, in dissolving the membrane of Diphtheria.

Sulpho-Calcine is used either in the form of a gargle or spray. If as a gargle, it may be used pure or, which is just as well, diluted one-half with water. But if used as a spray, it must be in the concentrated form. This also applies when used with either the swab or the camel's hair brush. If any of the medicine is swallowed, no harm will ensue, but on the contrary it will help to relieve the constitutional symptoms, by its antiseptic action, as will be readily understood by a study of its component parts.

Samples of any of our preparations sent to physicians gratuitously for trial.

REED & CARNRICK, NEW YORK.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion."—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **G. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE**, the finest for a number of years, is now imported into this market, and pronounced by connoisseurs unsurpassed for excellence and bouquet.

FRED'K DE BARY & CO., New York,

Address,

MEDICAL AND SURGICAL REPORTER,
P. O. Box 843, Philadelphia.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

Dose—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

ONEITA

The perfection of table waters, with mineral properties unsurpassed in the treatment of Dyspepsia, Kidney and Liver troubles, Gout, Rheumatism, etc. The analysis of the spring shows a combination of mineral virtues unequaled in any other water. The water has been before the public but a short time, yet in that time has won public favor to a marked degree. Send for analysis of C. F. Chandler, Ph. D.

ONEITA SPRING CO.,
UTICA, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

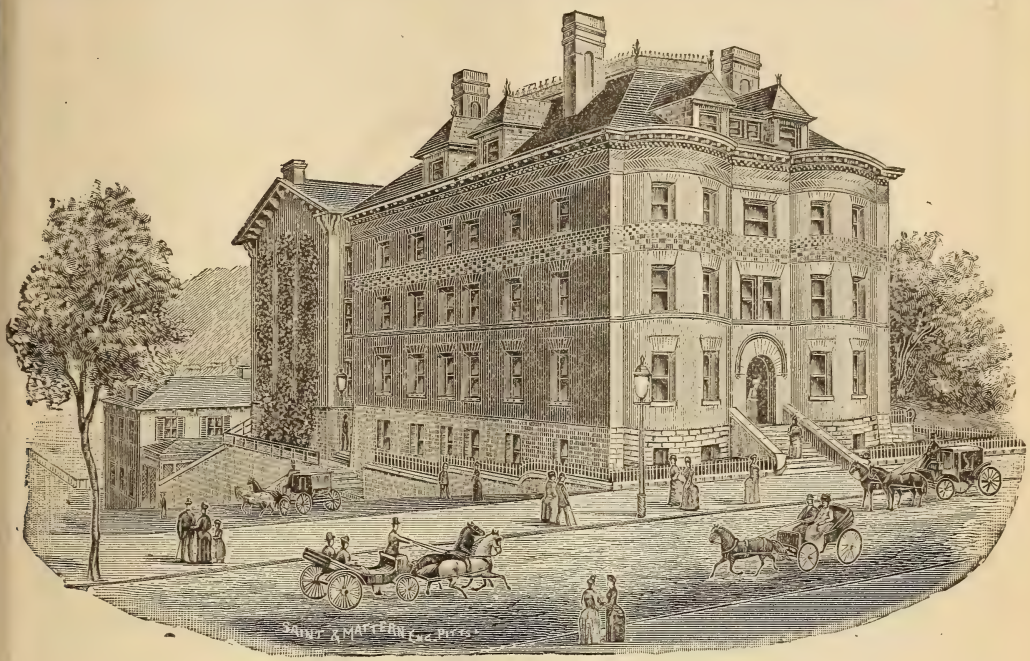
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

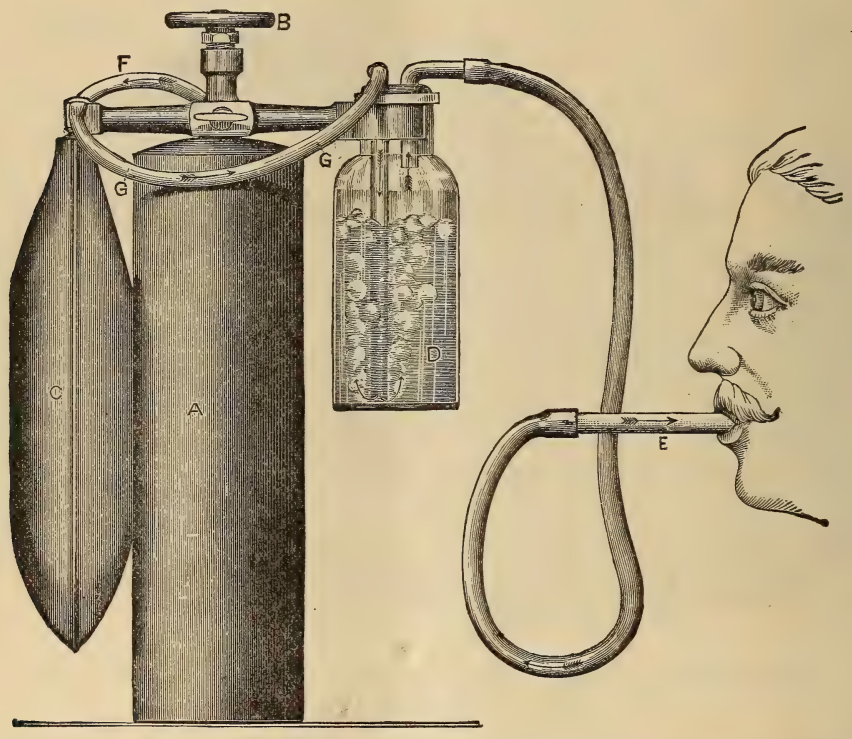
170 Ridge Ave., Allegheny, Pa.

INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S
LITHIATED HYDRANGEA
KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

CALIFORNIA VINTAGE CO.
21 PARK PLACE. N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

PARIS MEDAL

TO

WILLIAM R. WARNER & CO.

W. R. WARNER & CO. have received a Silver Medal at the Paris World's Fair, being the highest of its kind, in recognition of the following claims:

First.—W. R. Warner & Co.'s Pills, quick solubility and accuracy.

Second.—Reliability and permanency unsurpassed. Also for Warner & Co.'s Effervescent Salts.

First.—Superior effervescing properties.

Second.—General elegance, excellence, and stability.

PHYSICIANS SHOULD BE CAREFUL TO SPECIFY WARNER & CO.

☞The coating of the following pill will dissolve in 4½ minutes.☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.

Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½., Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid. 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc'd Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food.

Supplied upon physician's prescription by all leading druggists. Take no substitute.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1; **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" in **Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1, $1.25 per doz.		No. 4, $1.55 per doz.	
No. 2, 1.25	"	No. 5, 1.70	"
No. 3, 1.40	"	No. 6, 1.90	"
No. 7, $2.10 per dozen.			

RAW CAT-GUT. I put this up in coils of 10 feet, four different sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

WILLIAM SNOWDEN,

Manufacturer, Importer and Exporter of Surgical Instruments,

No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION began Tuesday, October 1st, 1889, at 12 M., and will continue until May 1st, 1890.
The PRELIMINARY SESSION began September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to
DR. JAMES TYSON, Dean,
36th and Woodland Avenue, Philadelphia.

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

FOR SALE. *VILLAGE* AND Country Practice,

With Drug Store, Road-wagon, and Cutter. All for $200, if taken at once. Drug stock inventory $300. No competition. North Penna. Address M.,
Care of MEDICAL AND SURGICAL REPORTER.

TO LET.

THE OFFICE AND PRACTICE
of a Physician recently deceased. Terms reasonable.
Apply,

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

New York Polyclinic and Hospital

A Clinical School for Graduates in Medicine and Surgery.

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

* Deceased.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

SAVE MONEY

73 Trinitrin 1-150 grain.
74 Trinitrin 1-200 grain.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor:

You have often noticed that many patients, after a course of typhoid fever, erysipelas, diphtheria, and kindred diseases, undergo a long, tedious convalescence. For many weary weeks they sit around the house or drag their emaciated bodies feebly along. Their flame of life is so dim that it is easily puffed out by any slight indisposition or intercurrent malady that may chance to attack them, and hence we see so many *cured* cases become easy victims by the predisposition which their debility constitutes.

Now, what is the true condition in such a case as this?

Why, simply that in the febrile process immense hosts of the tissue cells have been consumed or carried away, and most of those remaining are worn out and only await a vigorous circulation to remove them and deposit healthy cells in their places.

In addition to the emaciation you notice that the tissues still left are flabby and apparently lifeless. The nutritive organs are so weakened that they are barely sufficient to maintain life without furnishing the required new material to carry on the process of repair. Thus the individual remains an easy prey to pathogenic influences which one in robust health can successfully resist.

Can anything be done for such cases?

Certainly.

But you would better leave them to the unassisted reparative powers of nature than to dose them with the irritant alleged "tonics" now so much in vogue. The organs of nutrition only want to be supplied with true cell and tissue food in an assimilable form.

This you will find in McArthur's Compound Syrup of the Hypophosphites of Lime and Soda. This is a CHEMICALLY PURE preparation, a quality so rare in Hypophosphite preparations. It is prepared in such a manner that the important ingredients go entirely to the rapid rebuilding of the tissues.

Give this to your convalescent patient and you will see a remarkable increase in flesh, strength, and buoyancy of spirits. The convalescence will be greatly shortened, and in every way the Hypophosphites will prove to them to be a true Elixir of Life.

You can also make an enviable reputation for yourself by prescribing it in Phthisis and all Tubercular affections, Scrofula, Throat and Bronchial diseases, Nervous disorders and degenerations, and Fibroid Tumors.

Send for our pamphlet on "The Curability and Treatment of Consumption," (free), and a full size bottle of McArthur's Syrup, free, if you will agree to pay express charges.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine–Bayer, ... 2½ grs.
{Salol, ... 2½ grs.

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phenacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phenacetine. I did this on the principle of the well-known effect of Salicylic Acid in rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner, August*, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO."

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and then invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insoluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

HELP!!

WE WANT TO ASK all the **FRIENDS** of the MEDICAL AND SURGICAL REPORTER to **HELP** to make it the strongest Medical Journal in **AMERICA,** or anywhere, for that matter.

It now has subscribers in every **STATE AND TERRITORY,** in ***Canada, Mexico, South America, Europe, and Asia,***—**AFRICA IS WAITING.**

But it could have even more. ***We might employ Canvassers*** to go around and solicit subscriptions, but we would ***prefer to have*** **ITS FRIENDS** recommend it ***to their friends.*** You **KNOW WHAT IT IS** and can tell.

It aims to be

INTERESTING!
INSTRUCTIVE!
WIDE-AWAKE!
FEARLESS!

☞If it is **NOT;** then don't recommend it.

And not ***too heavy*** for a ***busy Doctor*** to enjoy.

We don't **ASK ANYBODY** to do { ***something for nothing,*** } so we propose to offer ***to our subscribers*** the following **PREMIUM FOR NEW SUBSCRIBERS.**

To any paid-up subscriber sending us, before January 1, 1890, the name of one new subscriber, (with $5.00) we will send as

A PREMIUM

any publication or instrument in our own list, or that of any publisher or instrument maker, to the value of **TWO DOLLARS.** OR: any subscriber sending a ***new name,*** and eight dollars, will be credited with a year's subscription on his own account, and the REPORTER will be sent to the new address until ***January 1, 1891.***

SEND CHECK OR MONEY ORDER TO

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843. **PHILADELPHIA.**

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron**, is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages*."

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics Began Monday Oct. 7th, 1889.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

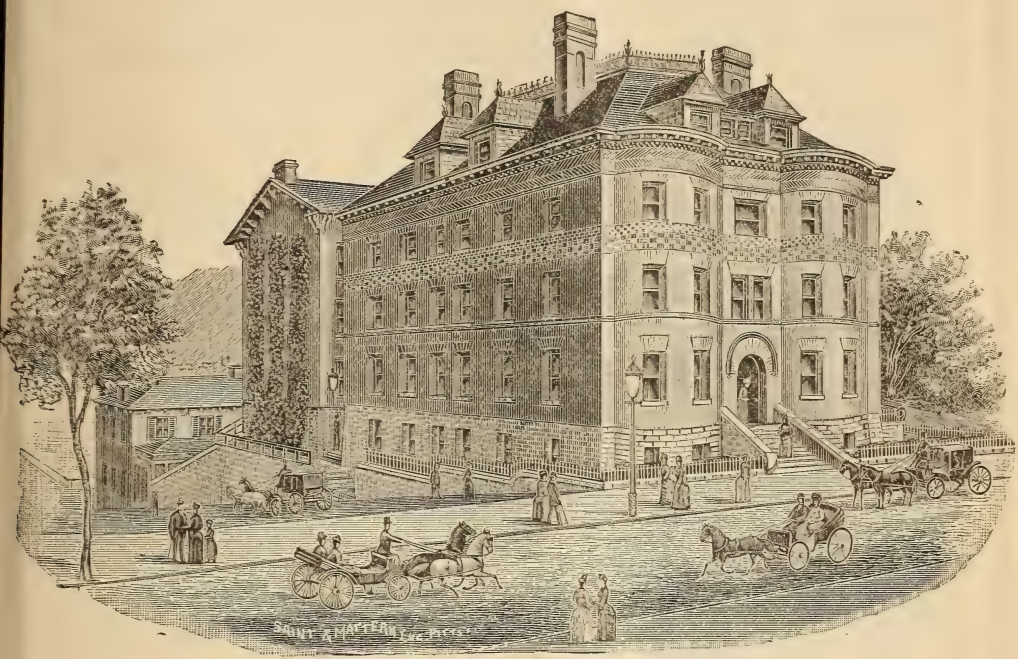
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

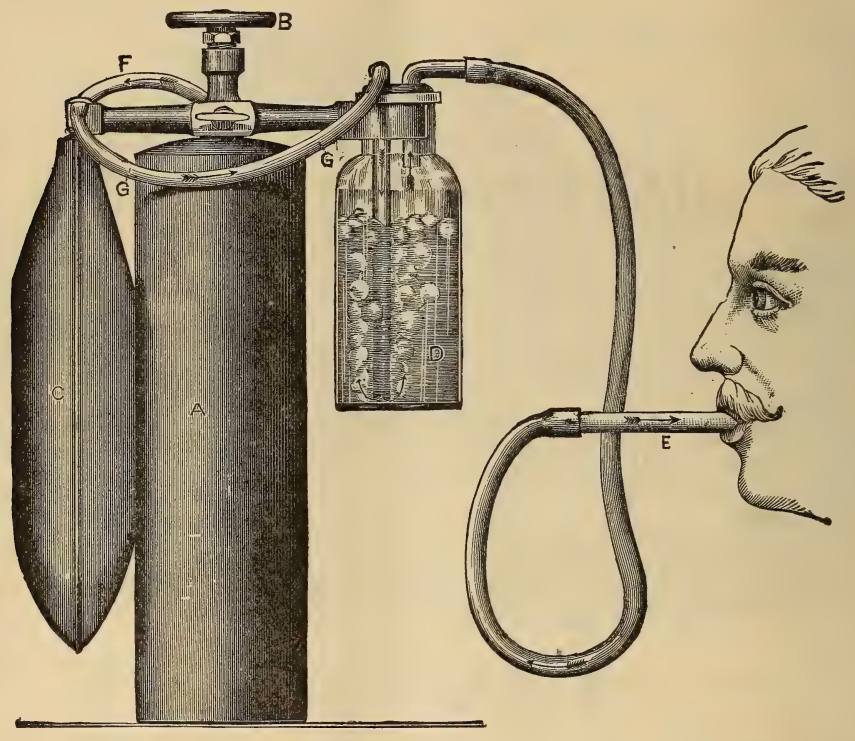
MISS KENNEDY,

170 Ridge Ave., Allegheny, Pa.

INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field o·

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

21 PARK PLACE. N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

A Peerless Chemico-Physiological Food and Restorative

Crystalline Phosphate

A TISSUE FOOD

PHOSPHATIC FOOD PRODUCTS TRADE MARK

Contains all essential inorganic components of the tissues in a semi-solid, easily soluble, crystalline mass,

COMPOSED OF

ACID PHOSPHATE OF CALCIUM.

WITH

Acid Phosphate of Magnesium,
" " " Iron,
" " " Sodium,
" " " Potassium,
Chloride of Potassium,
" " Sodium
Sulphate of Potassium,
and Phosphoric acid.

INDICATIONS:

STOMACH DISORDERS, such as Indigestion, Flatulence Gastric Catarrh, and Poor Appetite, Constipation, etc.

WRONGS OF NUTRITION, as in Scrofula, Rickets, Caries, Marasmus, Delayed Union of Fractures, Necrosis of Tissue, Difficult or Delayed Dentition and Development, etc.

NERVOUS AND GENERAL DEBILITY AND SLEEPLESSNESS, as from Sexual Excess, Venerial Disease, Childbearing, Nursing, Loss of Blood or other fluids, Menstrual and other Diseases of Women, abuse of Alcohol, Tobacco and Narcotics, Protracted Illness, etc.

PROF. KONN B. SAYRES, M. D., Demonstrator of Anatomy, Miami Medical College, Cincinnati, O.

"I am pleased to inform you that I have during about six months last past made a critical trial of your **Crystalline Phosphate,** in various cases of mal-nutrition, nervous prostration. atonic dyspepsia, insomnia and kindred derangements of the vital functions, which has demonstrated the fact that it is a preparation of *very great value.* I believe your representations concerning it are fully justified by actual and palpable results in my practice, and I very cheerfully recommend it, knowing that a fair trial will prove it worthy of the confidence of the profession.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. **A NON-ALCOHOLIC LIQUID.** WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents, for the above Preparations.

PRACTICAL INSTRUCTION IN DISEASES OF THE SKIN.

Unusual opportunities for private clinical study of diagnosis and treatment of DISEASES OF THE SKIN are afforded by the services of the **Philadelphia Dispensary for Skin Diseases, Skin Dispensary of the Hospital of the University of Pennsylvania, Department for Skin Diseases of the Howard Hospital,** and the **Skin Wards of the Philadelphia Hospital.**
For information regarding fee, hours of service, etc., address the attending physician,

DR. HENRY W. STELWAGON, 1411 SPRUCE ST., PHILADELPHIA.

ELIXIR COCA AND CALISAYA

(S. & O.)

A valuable nerve stimulant and tonic, entirely different from any other preparation of Coca or Calisaya. Made by a process which brings out in the highest degree the active principles of fresh

COCA LEAVES AND CINCHONA BARK.

Free from bitter taste or depressing effects after using. It is recommended to physicians as useful in Atonic Indigestion, Insomnia, Nervous Exhaustion, Mental Depression, etc.

Made only by

STRYKER & OGDEN,

Walnut and 13th Streets, Philadelphia.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements, Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address, DRS. S. S. & S. E. STRONG.

JOHN REYNDERS & CO.,

303 Fourth Avenue, New York City:

Specialty—Teufel's Abdominal Supporters,
"THE BEST."

Storage Batteries and Electric Motors.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturer, Importer and Exporter of Surgical Instruments,

No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION began Tuesday, October 1st, 1889, at 12 M., and will continue until May 1st, 1890.
The PRELIMINARY SESSION began September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to
DR. JAMES TYSON, Dean,
36th and Woodland Avenue, Philadelphia.

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

GENUINE BLAUD'S PILLS.

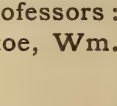
These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them:

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)



NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.
SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden)."* A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

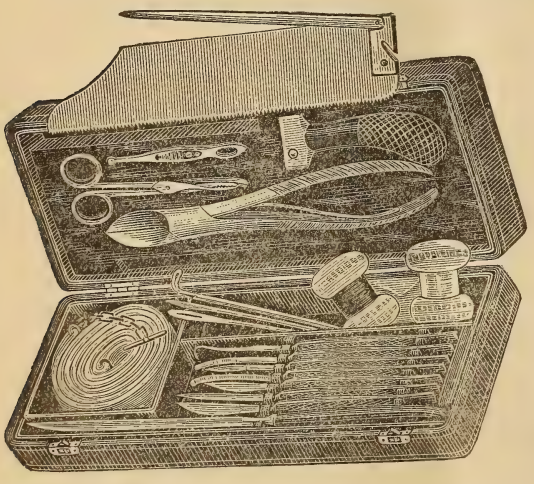
THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... $34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, ... 29 00
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... 25 00
Either Set, with Trephine and Elevator in addition, ... 4 65

DISCOUNT 25 PER CENT. TO PHYSICIANS. Our Catalogue of 260 pages will be sent on receipt of 10 cts. for postage.

CHARLES LENTZ & SONS, Manufacturers of Surgical and Orthopædic Apparatus,

Established 1866. **18 North Eleventh Street, Philadelphia.**

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of Mental and Nervous Affections.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

MEDICAL AND SURGICAL REPORTER,
P. O. Box 843, Philadelphia.

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antipyrine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by DR. GEO. W. MCDADE, exclusively for ELI LILLY & Co., and endorsed by DR. J. MARION SIMS.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and ***never in bulk.***

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica**, as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills**, a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation**, there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks**, or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions**, the result of excesses, **mental apathy**, or indifference, and in an **enfeebled condition of the general system**, with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organ** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic**, and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea,** and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

SUPPLIED BY ALL DRUGGISTS.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materia Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

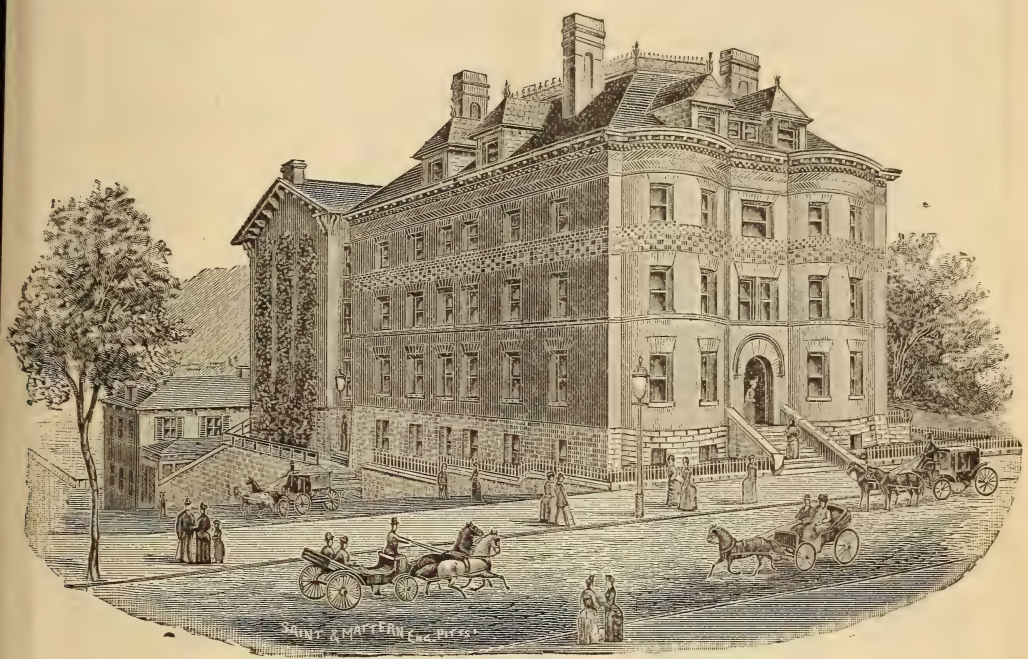
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

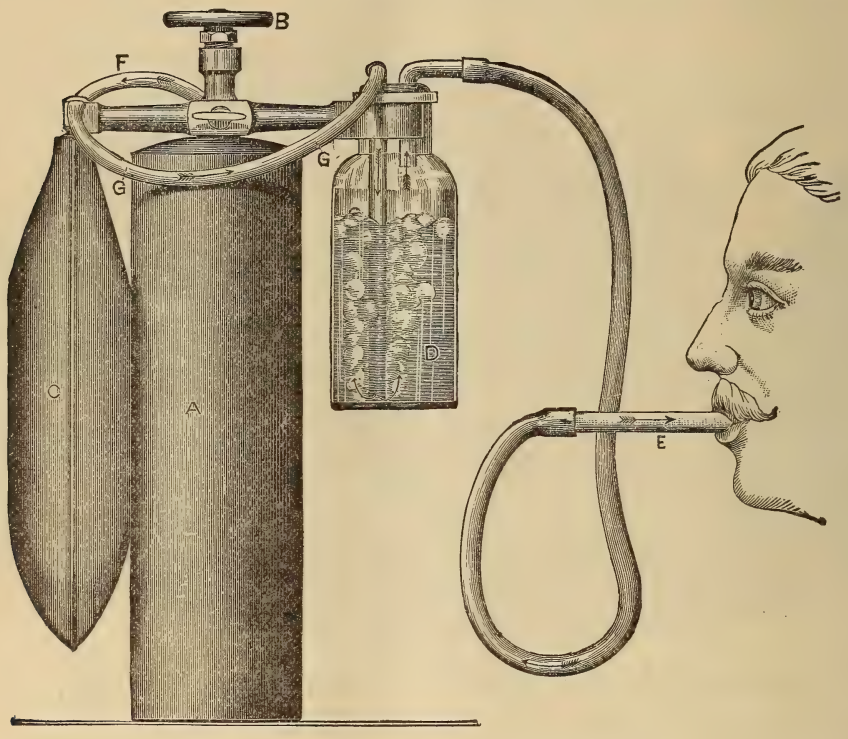
MISS KENNEDY,

170 Ridge Ave., Allegheny, Pa.

INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

21 PARK PLACE. N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College

CEREBRAL EXHAUSTION

HORSFORD'S ACID PHOSPHATE.

It has been shown that the phosphates are found in excess in the urine in cases where the nerve centres (the brain and spinal cord) have been overworked, or subjected to undue labor, and the opinion is confirmed that there is a received relation between an excess of phosphates in the urine, and intellectual exercise.

This preparation supplies the phosphates and phosphoric acid, is readily assimilated, pleasant to the taste, and aids digestion.

Dr. S. A. HARVEY, Cheboygan, Mich., says:

"I have used it with marked benefit, in several cases of cerebral irritation."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "HORSFORD'S" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	in **Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

PHILADELPHIA.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea, suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month, thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

NORWEGIAN COD-LIVER OIL.

PUT UP IN STONE JUGS, as suggested by Dr. Carl Seiler. Carefully selected and imported from Christiania, Norway.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION began Tuesday, October 1st, 1889, at 12 M., and will continue until May 1st, 1890.
The PRELIMINARY SESSION began September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

For Catalogue and announcement containing particulars, apply to
DR. JAMES TYSON, Dean,
36th and Woodland Avenue, Philadelphia.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them.

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)

BLAUD

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M. D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum: Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

MEDICAL AND SURGICAL REPORTER,

P. O. BOX 843. PHILADELPHIA.

Doctor:

You have often noticed that many patients, after a course of typhoid fever, erysipelas, diphtheria, and kindred diseases, undergo a long, tedious convalescence. For many weary weeks they sit around the house or drag their emaciated bodies feebly along. Their flame of life is so dim that it is easily puffed out by any slight indisposition or intercurrent malady that may chance to attack them, and hence we see so many *cured* cases become easy victims by the predisposition which their debility constitutes.

Now, what is the true condition in such a case as this?

Why, simply that in the febrile process immense hosts of the tissue cells have been consumed or carried away, and most of those remaining are worn out and only await a vigorous circulation to remove them and deposit healthy [illegible] in their places.

In addition to the emaciation you notice that the tissues still left are flabby and apparently lifeless. The nutritive organs are so weakened that they are barely sufficient to maintain life without furnishing the required new material to carry on the process of repair. Thus the individual remains an easy prey to pathogenic influences which one in robust health can successfully resist.

Can anything be done for such cases?

Certainly.

But you would better leave them to the unassisted reparative powers of nature than to dose them with the irritant alleged "tonics" now so much in vogue. The organs of nutrition only want to be supplied with true cell and tissue food in an assimilable form.

This you will find in McArthur's Compound Syrup of the Hypophosphites of Lime and Soda. This is a CHEMICALLY PURE preparation, a quality so rare in Hypophosphite preparations. It is prepared in such a manner that the important ingredients go entirely to the rapid rebuilding of the tissues.

Give this to your convalescent patient and you will see a remarkable increase in flesh, strength, and buoyancy of spirits. The convalescence will be greatly shortened, and in every way the Hypophosphites will prove to them to be a true Elixir of Life.

You can also make an enviable reputation for yourself by prescribing it in Phthisis and all Tubercular affections, Scrofula, Throat and Bronchial diseases, Nervous disorders and degenerations, and Fibroid Tumors.

Send for our pamphlet on "The Curability and Treatment of Consumption," (free), and a full size bottle of McArthur's Syrup, free, if you will agree to pay express charges.
